

SAID Earned Income Exemption Tracking Sheet

INSTRUCTIONS

Year _____

Use this sheet to assist you with keeping track of your earned income and SAID income exemptions during the year.

At the beginning of the year, your maximum exemption limit is: \$6,000 if single; \$7,200 if couple without children; \$8,500 if family. The exemption limits are based on the calendar year (January-December). SAID benefits will be reduced dollar-for-dollar after the exemption limit is reached in the calendar year (e.g. If you are single and have used \$5,500 of your exemption by September, your exemption balance is \$500 till December. If your income in October is \$600, your November benefit will be reduced by \$100.) Any unused exemption amount from one year does not carry over into the next year.

JANUARY		
Limit at the beginning of the year		<input type="text"/>
