Overview of Travel and Objectives

The meetings in Calgary were an opportunity to hear from industry leaders and discuss Saskatchewan's 2020 Plan for Growth and Saskatchewan's climate change plan *Prairie Resilience*. Environmental and Social Governance (ESG) is an emerging topic of discussion for institutional investors and Saskatchewan has the sustainable production of resources they are looking for.

Travel Activity:

The travel consisted of meetings with the following companies regarding the following topics:

Whitecap Resources

- SaskPower's Climate Goals and Energy Future
- Future of carbon capture and sequestration
- Intensity of natural gas
- Feasibility of biomass

Husky Energy

- Saskatchewan's Methane Action Plan to reduce greenhouse gases caused by methane.
- The importance of Environmental and Social Governance (ESG) as it relates to sustainability in Saskatchewan.
- Improving environmental outcomes by improving the regulatory process.

Crescent Point Energy

- Saskatchewan's Methane Action Plan to reduce greenhouse gases caused by methane.
- Potential for SaskPower's Independent Power Purchase program for solar arrays.
- The importance of Environmental and Social Governance (ESG) and sustainability in Saskatchewan.
