Introduction to the Public Accounts

The 2019-20 Public Accounts of the Government of Saskatchewan (the Government) are prepared in accordance with the *Financial Administration Act, 1993* and consist of two volumes. The Government is responsible for the integrity and objectivity of the information presented in these two volumes.

Volume 1

Financial Statement Discussion and Analysis provides users of the Government's Summary Financial Statements with an overview of the Government's performance by presenting comparative financial highlights and variance analysis. The information in the financial statement discussion and analysis should be read in conjunction with the Summary Financial Statements.

Summary Financial Statements provide an accounting of the full nature and extent of the financial affairs and resources of the Government. This includes the financial results of the General Revenue Fund, Crown corporations, boards and other entities controlled by the Government. A listing of all entities controlled by the Government, collectively referred to as the government reporting entity, is provided in schedule 18 of the Summary Financial Statements.

Volume 2

Volume 2 contains the following unaudited financial information:

- General Revenue Fund schedules and details;
- General Revenue Fund capital asset acquisitions schedule and details;
- revolving fund expenditure details;
- summary listing of payees who provided goods and services and capital assets of \$50,000 or more to the General Revenue Fund and revolving funds during the fiscal year;
- assets, liabilities and residual balances of pension plans and trust funds administered by the Government;
- remissions of taxes and fees; and
- road-use fuel tax accountability revenues and expenditures.

The Public Accounts, including the Compendiums, are available on the Government of Saskatchewan's website.

The Compendium of Financial Statements contains the financial statements of various government agencies, boards, commissions, pension plans, special purpose funds and institutions, as well as Crown corporations which are accountable to Treasury Board.

The Compendium of Payee Details contains the payee details of all Summary Financial Statement entities, except Crown Investments Corporation of Saskatchewan and its subsidiaries.

In addition, the financial statements and payee details of Crown corporations and wholly-owned subsidiaries that are accountable to the Crown Investments Corporation of Saskatchewan (CIC) Board can be found on CIC's website.

Guide to Volume 2

Volume 2 is prepared to enhance accountability by providing unaudited financial information for the General Revenue Fund.

The General Revenue Fund is comprised of all ministries and offices of the Government. This is the fund into which all revenues are paid, unless otherwise provided for by legislation, and from which all expenses are appropriated by the Legislative Assembly.

It focuses on strengthening Saskatchewan's agricultural production and processing sectors through the expansion of trade and the value-added sector. It also supports board governance, as well as the development, design and analysis of risk management programs and strategic initiatives under the federal/provincial policy framework.

Funding of the Farm Land Security Board (a quasi-judicial tribunal board) is provided for under this subvote as well.

Research and Technology (Subvote AG06)

Energy and Resources (Vote 23)

The Ministry of Energy and Resources develops, coordinates, and implements policies and programs to promote the growth and responsible development of the province's natural resources industries. The Ministry operates as the primary regulatory authority for the oil and gas industry and ensures competitive royalty systems, regulations and policies for all natural resource sectors. The Ministry also plays an important role in promoting Saskatchewan's diverse resource potential to investors around the world.

Central Management and Services (Subvote ER01)

Objective

Provides executive direction and strategic leadership required for the delivery of the Ministry's mandate; funding for head office and program-based accommodations and capital improvements; and oversight of the Integrated Resource Information System for the oil and gas industry. It also invoices, assesses, collects and audits non-renewable resource revenues, and provides funding for various central services that are delivered through shared services agreements with the Ministry of Immigration and Career Training, and the Ministry of Trade and Export Development.

Program Delivery

This program provides coordination and liaison support with various government agencies in delivering the processes that support the Ministry's mandate. It provides support in areas of revenue management, audit services and information technology for Ministry information systems. In addition, it provides financial reporting for the resource areas of the Ministry.

Energy Regulation (Subvote ER05)

Objective

Regulates the lifecycle activities related to the responsible development of Saskatchewan's oil, gas and associated mineral resources. Implements regulatory programs related to protecting public safety and the environment, maximizing recovery from oil and gas reservoirs, preventing wasteful production, collecting well data and production statistics and managing long-term liabilities associated with wells, facilities and pipelines. It also supports the operation of the Surface Rights Board of Arbitration.

Program Delivery

This program, which is largely funded through the annual assessment of the Administrative Levy, is responsible for the licensing of all wells, facilities and provincial pipelines in Saskatchewan. Activities associated with the delivery of the program include the management of oil and gas reservoirs, the prevention of waste, the establishment of operating standards, the enforcement of regulatory requirements, and the collection and dissemination of information related to exploration, production and sales. In support of these activities, this program is also responsible for managing the long-term liability associated with oil and gas wells and facilities including administering the Orphan Well Fund.

Resource Development (Subvote ER06)

Objective

Advances policies and programs that encourage the development of the mining, energy and forestry sectors with a focus on enhancing jurisdictional competitiveness. Investigates, compiles and maintains the foundational information about Saskatchewan's geology, and its mineral and petroleum resources. Administers Crown mineral rights, including the mineral provisions of Treaty Land Entitlement and the Public Offering Process. Designs and maintains royalty and tax structures that optimize revenue while maintaining competitiveness throughout the resource commodity cycle. Provides for the reclamation of legacy northern uranium mines and management of sites within the Institutional Control Program.

Program Delivery

This program issues and administers the Crown's mineral rights tenure for commodities such as oil, natural gas, oil shale, helium, gold, base metals, uranium, subsurface minerals (potash and brine minerals), diamonds, coal, alkali minerals and quarriable substances. It provides policy direction on energy and mineral forecasting, taxation and royalties, issues related to resource development, conservation and remediation, as well as advice on inter-provincial and federal-provincial initiatives and issues that may affect the resource sectors of the provincial economy. Administers the royalty system, including several new growth incentive programs. It also performs geological and mineralogical studies; maintains geoscientific databases, promotes resource development through publications, meetings, displays and individual consultations; and assesses petroleum and mineral exploration results. Oversees the development of land and Aboriginal policies related to non-renewable resources and the implementation of land claim agreements (Treaty Land Entitlement and Specific Claims). Management of the Mineral Rights Tax and Trusts Lands programs.

Non-Appropriated Expense Adjustment

Objective

Accounts for expenses and expense recoveries that do not require appropriation. Typically these are expenses for which the cash outflow is appropriated in a different fiscal year than the expense or recovery is recorded.

Program Delivery

This program accounts for the estimated annual consumption of the Ministry's capital assets. Amortization is calculated using the straight-line method based on the estimated useful service life of the asset. Amortization is a non-voted, non-cash expense.

Climate Change and Adaptation (Subvote EN06)

Objective

Develops policy and regulatory frameworks to help build resilience to the cumulative effect of climatic, economic and policy impacts resulting from climate change. This includes the regulation of greenhouse gas emissions from large industrial emitters, in partnership with industry, the federal government and other stakeholders. Conducts economic modelling, scientific research and policy analysis. Engages with industry, non-governmental organizations, communities and Indigenous peoples to identify cutting-edge solutions to address climate change. Provides support for the integration of cumulative effects analysis in decisions related to resource management and environmental protection. It also provides scientific and technical resources that advance environmental protection and climate change solutions.

Program Delivery

Through scientific research, economic analysis and intergovernmental relations, this program develops policy options, regulates and reports on provincial greenhouse gas emissions, and coordinates implementation of provincial climate change strategy. This program works with other ministries and other orders of government to inform the development of pan-Canadian policy and Canada's international positions on climate change.

Fish, Wildlife and Lands (Subvote EN07)

Objective

Conserves and allocates fish and wildlife populations and maintains biodiversity, including development of tools, support of research, maintenance of species data and leadership on Species at Risk recovery. The Fish and Wildlife Development Fund assists in protecting vulnerable fish and wildlife habitat and promotes resource education and endangered species programming through third parties. Develops and administers policies and programs for the management of Crown resource land to maintain a healthy ecosystem in balance with sustainable land use by implementing land use plans, responding to Treaty Land Entitlement and specific land claims, maintaining the provincial network of protected areas and allocating Crown lands. It also receives and reviews all proposals for oil, gas, and mineral exploration and provides required environmental authorizations.

Program Delivery

Program Delivery

Provide the funding for the delivery of third-party infrastructure programs, including the Municipal Roads for the Economy Program, the Urban Highway Connector Program, the Community Airports Partnership Program and the Strategic Partnership Program.

Operation of Transportation System (Subvote HI10)

Objective

Provides for the safe access and operation of the transportation system through the delivery of a range of operational and maintenance services including pavement marking, signing, lighting, mowing, snow and ice control, ferry and provincial airport operations, information technology management and systems support, project support and land management. It also provides related operational services oversight such as technical standards, regulation development and traffic engineering. It also delivers compliance with transportation laws and Protection and Response Team duties through the Saskatchewan Highway Patrol.

This is delivered through many activities, including winter snow and ice control, ferry maintenance and services, airport maintenance and services, and traffic safety and guidance operations, including pavement marking, signing, mowing, lighting, railroad crossing maintenance, and maintaining the right of way.

This program provides operational services, including standards development and maintenance, procurement services, traffic data collection, trucking program and regulation administration, land management, employee and public safety initiatives, engineering studies, area office management, highway hotline and the operation and maintenance and financing charges of the Regina Bypass. It also funds the information technology services provided by the Ministry of Central Services and the Ministry's delivery of commercial vehicle enforcement.

Preservation of Transportation System (Subvote HI04)

Objective

Provides preventative maintenance on provincial highways and bridges. It provides delivery, planning, engineering and management of preservation and capital construction programs. It also includes road and bridge engineering services for municipalities.

Program Delivery

Provide the preservation and preventative maintenance work required to protect the public's investment and deliver an appropriate level of service from the transportation network. This is accomplished through the delivery of preservation maintenance activities for multiple types of infrastructure, including pavements, thin membrane surfaces, gravel highways, bridges, and weigh scales, as well as emergency response.

This program also funds the staff required to deliver the engineering and administrative services involved with the delivery of operational and preservation activities and capital projects. This includes managing the equipment fleet to deliver in-house preservation and operations activities.

Transportation Planning and Policy (Subvote HI06)

Objective

It includes capital highway preservation and repaving, highway surface upgrades and road expansion initiatives, including twinning, passing lanes and interchanges. This program also delivers bridge and culvert replacements and the acquisition of machinery and equipment used for maintaining and operating the provincial highway system.

Non-Appropriated Expense Adjustment

Objective

Accounts for expenses and expense recoveries that do not require appropriation. Typically these are expenses for which the cash outflow is appropriated in a different fiscal year than the expense or recovery is recorded.

Program Delivery

This program accounts for the estimated annual consumption of the Ministry's capital assets. Amortization is calculated using the straight-line method based on the estimated useful service life of the assets with the exception of heavy equipment which is based on usage. Immigration and Career Training (Vote 89)

The Ministry of Immigration and Career Training helps individuals prepare for, obtain and maintain employment, and leads activities required to assist employers with the development, recruitment and retention of workers. The Ministry's key tasks involve delivering services and programs that address labour demand and undertaking activities to fully engage Saskatchewan's labour supply.

Central Management and Services (Subvote IC01)

Objective

Provides executive direction and centrally-managed services in the areas of finance, information technology, information management, privacy and program administration. Funds other services including marketing, head office and program-based accommodations and capital improvements required for the delivery of the Ministry's mandate. It also provides funding for various central services that are delivered through shared-services agreements with the Ministry of Energy and Resources, and the Ministry of Trade and Export Development.

Program Delivery

This program provides coordination and liaison support with various government ministries and agencies in delivering the processes that support the Ministry's mandate. Services are provided in the areas of finance, administration, information technology, internal audit, coordination of information and privacy policies and responses. These are also provided to Energy and Resources and Trade and Export Development through a shared service agreement. The program also oversees the management of the Modernization of Agreements, Programs and Services (MAPS) renewal project.

Immigration, Employment and Career Development (Subvote IC02)

Objective

Supports employment and career growth for Saskatchewan residents, as well as the attraction and settlement of newcomers into the social and economic life of the province. It helps individuals launch and build a career in Saskatchewan.

Program Delivery

The Immigration, Employment and Career Development Division helps people prepare for, obtain and maintain employment. It develops the labour supply and ensures Saskatchewan residents have access to the employment and career development supports they need through the direct delivery of services across the province and indirectly through outcomes-based contract management with community-based organizations, institutions and other agencies. To attract internationally skilled workers, the division administers the Saskatchewan Immigrant Nominee Program (SINP) to address gaps in the labour market. It also manages intergovernmental relations and negotiations to advance Saskatchewan's interests with the federal government.

Training and Employer Services (Subvote IC03)

Objective

Develops training and other workforce solutions to develop, recruit, and retain a skilled and diverse workforce. It helps Saskatchewan employers navigate their labour market options, and provides strategic direction, oversight and investment to align the provincial training system with labour market needs.

Program Delivery

The Training and Employer Services Division provides financial and program support to training institutions, agencies and industry to develop, recruit and retain a skilled and diverse workforce. The division supports the development, delivery and evaluation of training programs such as Adult Basic Education, skills training, and apprenticeship as well as providing income support for eligible participants in these programs. To inform planning and decision making, the division also provides labour market information to government, employers, educators and job seekers and works directly with employers to help them navigate and benefit from various labour market supports. It also leads planning, evaluation and program reviews of the Ministry's programs and services.

Labour Market Programs (Subvote IC04)

Objective

Provides program investments designed to address labour market needs of the provincial workforce and employers, and the economic priorities of the Government of Saskatchewan

Program Delivery

This program supports investments in people, programs and services that build the workforce. It provides financial and program support to institutions, agencies and industry to help people prepare for, obtain and maintain employment. Funding supports the development, delivery and evaluation of programs such as Adult Basic Education, skills training, and apprenticeship training, work readiness programs and services that transition people from Employment Insurance and welfare to jobs as well as providing income support for eligible participants in these programs. Partnerships with third party service providers ensure the availability of a range of services for specialized needs such as career counseling, vocational assessments, employment supports and work placement opportunities. This program also includes the Saskatchewan Immigrant Nominee Program and settlement and integration services for newcomers such as, credential recognition, and language training services for immigrants and refugees.

Non-Appropriated Expense Adjustment

Objective

Accounts for expenses and expense recoveries that do not require appropriation. Typically these are expenses for which the cash outflow is appropriated in a different fiscal year than the expense or recovery is recorded.

Program Delivery

This program accounts for the estimated annual consumption of the Ministry's capital assets. Amortization is calculated using the straight-line method based on the estimated useful service life of the asset. Amortization is a non-voted, non-cash expense.

Provides funding and support to independent and quasi-judicial boards, commissions, offices and inquiries which report to the Minister of Justice and Attorney General.

Program Delivery

The Human Rights Commission promotes freedom and equality in dignity and rights by investigating and assisting parties in the resolution of complaints of discrimination, conducting public education activities, and promoting human rights awareness and employment equity programs in Saskatchewan.

The Office of Residential Tenancies (ORT) provides information to landlords and tenants about their respective rights and obligations so that they may conduct themselves appropriately to solve problems, and adjudicates disputes between the parties. The Provincial Mediation Board (PMB) works with taxpayers with the goal of resolving disputes over tax arrears and avoiding court proceedings.

The Inquiries program provides funding for hearings by the Saskatchewan Review Board. Public inquiries are also funded through this program.

The Saskatchewan Legal Aid Commission provides professional legal services in criminal and family law matters to individuals financially unable to secure those services from their own resources.

The Automobile Injury Appeal Commission is an independent, quasi-judicial body responsible for adjudicating no-fault benefits disputes between the claimants and the program administered by SGI pursuant to *The Automobile Accident Insurance Act*.

The Highway Traffic Board is an independent body that hears appeals from individuals regarding decisions made by Saskatchewan Government Insurance, and administers legislation relating to the transportation industry.

The Public Complaints Commission (PCC) is an independent agency appointed by the government to provide civilian oversight of public complaints against municipal police officers, Special Constables appointed under the Safer Communities and Neighbourhoods Program as well as those appointed as Special Constables for the Community Safety Officer Program in Saskatchewan. The role of the PCC is to ensure that the public, police officers, and special constables are provided an impartial, thorough investigation and/or review of a public complaint.

It also provides payments to the Ministry of Central Services for office accommodation, mail services, records management, minor renovation service and information technology services.

Occupational Health and Safety (Subvote LR02)

Objective

Promotes safe and healthy workplaces through education, training, inspections, incident investigations and enforcement of workplace safety standards.

Program Delivery

Design and execute programs and activities that promote hazard identification, risk assessment and safe work practices thereby reducing the provincial injury rate using an integrated compliance and enforcement model which in partnership with WorkSafe Saskatchewan, seeks to improve occupational health and safety awareness and culture in Saskatchewan workplaces and communities. The OHS Division investigates reported incidents, inspects workplaces and encourages the adoption of safety best practices and full compliance with minimum safety standards providing a full range of technical and professional services to workplace partners.

Employment Standards (Subvote LR03)

Objective

Establishes minimum standards of employment through the enforcement of legislation related to hours of work; overtime; minimum wage; annual holidays; termination or layoffs; leaves of absence including compassionate care, maternity, paternity and bereavement; and equal pay provisions. It also delivers outreach programs to workers and employers on rights and responsibilities related to employment standards, and operates the Ministry's client service desk.

Program Delivery

Employment Standards staff, located in eight district offices, are involved in both the promotion of and the compliance with the Province's minimum employment standards. The promotional activities include the Division's educational initiatives and the operation of an inquiry line to respond to both employers' and employees' questions on matters related to employment standards. The compliance activities involve investigation on complaints received, collection of lawfully owed wages and prosecution of those entities contravening the minimum employment standards legislation and regulation.

Labour Relations Board (Subvote LR04)

Objective

Rules on collective bargaining rights and adjudicates disputes between trade unions and employers, primarily through public hearings and written decisions.

Program Delivery

The Labour Relations Board is an independent quasi-judicial tribunal that exercises the powers and duties conferred to it by Parts IV, VI and VIII of *The Saskatchewan Employment Act*. The Board upon application, establishes bargaining rights certifying unions as the exclusive bargaining agent of appropriate groups of employees, adjudicates disputes between employers and unions, between union members and their union. The Registrar of the Board appoints adjudicators to hear appeals from Employment Standards and Occupational Health and Safety decisions, and the Board hears appeals from those adjudicators' decisions. The Chairperson and Vice-Chairperson also chair essential services tribunals.

The Board is comprised of a chairperson, and up to two vice-chairpersons, ten employer representatives and ten employee representatives. Panels of the Board conduct public hearings and issue orders and written decisions. The Board's decisions are final and binding upon the parties.

Staff also provide representation to injured workers at all levels of the Workers' Compensation appeal process. Other key activities include: providing assistance to medical practitioners and injured workers in the Medical Review Panel process; hosting seminars and workshops on *The Workers' Compensation Act, 2013* and its regulations, policies and procedures; and meeting regularly with the Workers' Compensation Board to discuss issues that would benefit their mutual clients, including discussions on current policies, as well as review claims management and appeal processes.

Ombudsman and Public Interest Disclosure Commissioner (Vote 56)

The Ombudsman, an Independent Officer of the Legislative Assembly of Saskatchewan, helps to ensure that provincial and municipal governments are accountable and fair when they provide services to the public. As Public Interest Disclosure Commissioner, the Ombudsman also helps to ensure the provincial government provides a workplace where wrongdoings can be safely raised and appropriately addressed.

Ombudsman and Public Interest Disclosure Commissioner (Subvote OM01)

Objective

The Ombudsman Act, 2012, gives the Ombudsman the authority to investigate or informally address complaints of unfairness in provincial and municipal government actions.

The Public Interest Disclosure Act appoints the Ombudsman as the Public Interest Disclosure Commissioner, with the authority to provide advice to and investigate disclosures from public servants with allegations of wrongdoings or reprisal within their provincial government institutions.

Program Delivery

As Ombudsman, receives, investigates or informally addresses complaints about administrative actions of government institutions. When appropriate, makes findings and recommendations, issues reports, and engages in public education about fairness and the role of the Ombudsman. As Public Interest Disclosure Commissioner, provides advice to and investigates disclosures from public servants with allegations of wrongdoing within their provincial government institutions. Investigates complaints from public servants who allege they have been subject to reprisals as a result of seeking advice, making a disclosure, co-operating in an investigation, or declining to participate in a wrongdoing.
