

At Risk of MonkeyPox?

Get Vaccinated

Monkeypox is spread through ***direct skin-to-skin contact***.

People 18 years and older who are considered ***high-risk of potential exposure*** or close contacts of a case may be offered the vaccine.

Call Healthline 811 to assess your risk of monkeypox, access testing, or receive a vaccine referral.

Vaccinations may be provided pre- or post exposure.

To learn more about the signs and symptoms, go to saskatchewan.ca/monkeypox or scan:

Healthy People, Healthy Saskatchewan

The Saskatchewan Health Authority works in the spirit of truth and reconciliation, acknowledging Saskatchewan as the traditional territory of First Nations and Métis People.
