Overview of Travel and Objectives

Vietnam is an important and growing market for SK exports. In 2021, SK exports to Vietnam were valued at C\$74.3 million (M). It is important that the Government of Saskatchewan develops and maintains relationships and conducts missions to Vietnam regularly.

- Vietnam is a buyer of our agricultural products – in 2021, the province was Vietnam’s largest supplier of dry peas and live swine;
- Vietnam is a buyer of SK potash and a potential growth market.

There are also opportunities for innovation collaboration with Vietnam, as well as the potential for talent attraction to SK and student exchange.

This was Minister Harrison’s first mission to Vietnam. Mission objectives included:

- Supporting SK exports to Vietnam by:
 - Promoting the SK-Vietnam trade relationship by showcasing SK strengths in agriculture, mining, forestry, energy and innovation;
 - Highlighting the province’s capabilities as a trusted partner in food and energy security;
 - Exploring opportunities for innovation collaboration in areas including carbon capture, utilization and storage and green energy;
 - Promoting SK’s Vietnam Office, by hosting and speaking at the ‘Doing Business in Saskatchewan’ event and in meetings with industry and government.
- Showcasing SK as a preferred destination for Vietnamese investment; and
- Exploring opportunities for talent attraction, skills development and student exchange.
