Overview of Travel and Objectives

The Government of Saskatchewan formally announced the new Saskatchewan Polytech Campus project at an event held at Innovation Place in Saskatoon on September 20, 2023.

The new Saskatchewan Polytechnic campus will support and strengthen the Innovation Corridor that brings together business, entrepreneurs, students and other learning institutions to create a centre of excellence in applied learning and research. It will help prepare more job-ready graduates who can support vital public services like health care and contribute to Saskatchewan's strong, growing economy and long-term prosperity.

The Government of Saskatchewan has committed up to \$200 million in funding, pending successful completion of planning deliverables. The project received \$6 million in planning and design funding through the 2023-24 Provincial Budget.

The Government of Saskatchewan is working with potential funding partners, including the federal government, to secure funding commitments for the project; increasing program capacity to help grow the economy and increase competitiveness in attracting investment to Saskatchewan and Canada.

Travel Activity:

The Minister of Advanced Education and Saskatchewan Stakeholders in collaboration with Saskatchewan Polytech, met with the Federal Government and Delegates in Ottawa to secure funding commitments for the new Saskatchewan Polytechnic Campus in Saskatoon.

Minister Wyant participated in a debrief with Saskatchewan Stakeholders and met with Federal Ministers and Delegates including:
