

2024 Hunter Harvest Survey Results

Thank you to all hunters who participated in the 2024 Hunter Harvest Survey. Each survey contributes to a better understanding of how game populations are responding to current management strategies. These surveys are an important part of wildlife management in Saskatchewan. The more surveys that are completed, the more certain we can be of outcomes in each management zone. Please complete your Hunter Harvest Surveys even if you were unable to hunt or did not harvest an animal.

The Hunter Harvest Survey has been mandatory since 2020. In 2024, hunters purchased 112,603 hunting licences and completed 69,190 harvest surveys, representing a 61 per cent response rate. This was an increased response over 2023 but still below our high of 63 per cent in 2021. Since becoming mandatory response rates have been 52 per cent (2020); 63 per cent (2021); 62 per cent (2022); 52 per cent (2023); 61 per cent (2024).

All hunters should ensure their HAL profile contains their most current email address so that reminder messages are delivered. Reminder messages will stop after surveys are complete.

The results of the 2024 Hunter Harvest Survey are separated by licence type. We estimate the harvest by all hunters, based on the survey responses we receive. The potential range of estimated harvest values is indicated in the tables by the lower and upper bounds. This range of uncertainty increases when there is a lower response rate. The more survey responses we receive, the more confident we can be in our harvest estimates. Note that the estimated total harvest accounts for the proportion of respondents that indicated they purchased a licence but did not hunt.

For more information about the annual Hunter Harvest Survey, please contact the Ministry of Environment at Centre.Inquiry@gov.sk.ca or by calling the Inquiry Centre at 1-800-567-4224.
