

9.24 Release Notes

IRIS Version 9.24

Release Date: February 4, 2026

9.24 Release Notes Publication Date	Notes and Changes Made
February 4, 2026	Initial Release

About

IRIS Version 9.24 Release implemented 18 items. In addition to the changes detailed below, various enhancements and fixes to known defects were implemented to various IRIS Modules.

What's changed?

The highlights of what has changed in IRIS Version 9.24 release are noted below.

Note: Whether a user has access to the functionality, or enhancements outlined in these *9.24 Release Notes* will depend on the individual's security access and assigned permissions sets.

Infrastructure Functionality

- *Industry Notifications* - Notifications have been restored for delegated companies/users. Base company notifications will be generated separately for each user's selection of notification preferences for delegated companies.
- Multi-Licensed Site Reclamation Liability Reduction Application is now a structured application which will require you to enter the eligible Well and Facility licences, select the licence to retain full reclamation liability and attach separate Survey and Air Photo (PDF) documents. IRIS will automatically populate all remaining licence information within the application.
- New validation rules have been implemented for the Maximum H₂S (mol/kmol) field on Pipeline Licence Application for New Licences and Licence Data Amendments. This enhancement provides warnings for high values and enforces errors for invalid entries to ensure data accuracy.
- A new generic application of "Licence Liability Adjustment" can be found under Applications>Petroleum and Natural Gas>Reclamation Liability and Security Deposit Refund. This

application can be submitted to request a liability adjustment and licence cancellation of a retrospective facility licence that was never physically constructed.

To apply for the “Licence Liability Adjustment” application, users must be assigned the permission set of **I.INF.LiabilityManagementApplications.Administrator** and/or **I.INF.LiabilityManagementApplications.Applicant**.

- Upon submitting a *Pipeline Segment Pressure Test*, if a user attempts to submit a value with a decimal for the “*Duration Mins*” field, the system will generate an error message of “Value for Duration Mins must be between 0 and 59”

Energy and Resources Training Modules

Online Training courses for the Integrated Resources Information System (IRIS) can be found [here](#).

Security and Permission Sets

The following changes were made to listed IRIS permission sets.

Industry

- No new Permission Sets added.
- Permissions added to existing Permissions Sets

New Permissions within an EXISTING Permissions Set		
Existing Permission Sets	NEW Permissions ADDED **	Function
<ul style="list-style-type: none"> • I.INF.ConfidentialPermanent.All.View 	<ul style="list-style-type: none"> • Shared.AssociatedDocuments.ViewConfidential.LICLIABADJUST 	<ul style="list-style-type: none"> • Ability to view confidential documents of type 'Licence Liability Adjustment Application'
<ul style="list-style-type: none"> • I.INF.LiabilityManagementApplications.Administrator 	<ul style="list-style-type: none"> • WFI.Application.LBLTY_RED_STRC.Administrator.Industry • WFI.Application.LBLTY_RED_STRC.Applicant • WFI.Application.LICLIABADJUST.Administrator.Industry • WFI.Application.LICLIABADJUST.Applicant 	<ul style="list-style-type: none"> • Industry Administrator for 'Multi-Licensed Site Reclamation Liability Reduction'. • Permission to create 'Multi-Licensed Site Reclamation Liability Reduction'. • Industry Administrator for 'Licence Liability Adjustment Application'. • Permission to create 'Licence Liability Adjustment Application'.
<ul style="list-style-type: none"> • I.INF.LiabilityManagementApplications.Applicant 	<ul style="list-style-type: none"> • WFI.Application.LBLTY_RED_STRC.Applicant • WFI.Application.LICLIABADJUST.Applicant 	<ul style="list-style-type: none"> • Permission to create 'Multi-Licensed Site Reclamation Liability Reduction'. • Permission to create 'Licence Liability Adjustment Application'.
<ul style="list-style-type: none"> • I.INF.ConfidentialPermanent.All.View 	<ul style="list-style-type: none"> • Shared.AssociatedDocuments.ViewConfidential.LICLIABADJUST 	<ul style="list-style-type: none"> • Ability to view confidential documents of type 'Licence Liability Adjustment Application'
