

# 9.25 Release Notes

---

## IRIS Version 9.25

**Release Date:** March 25, 2026

9.25 Release Notes Publication Date	Notes and Changes Made
March 25, 2026	Initial Release

### About

IRIS Version 9.25 Release implemented 14 items. In addition to the changes detailed below, various enhancements and fixes to known defects were implemented to various IRIS Modules.

### What's changed?

The highlights of what has changed in IRIS Version 9.25 release are noted below.

- This IRIS release includes the implementation of a major initiative.

New pipeline licence multi-substance functionality is included in this release. This functionality will enable users to add and amend multiple transported substances under a single pipeline licence, enhancing regulatory oversight throughout the pipeline lifecycle. This improvement will also integrate multi-substance data into the registry, significantly increasing the accuracy and completeness of Saskatchewan's pipeline information.

Benefits of the multi-substance enhancement for pipeline licences will include:

- Users will be able to add more than one transported substance to a single pipeline licence, improving flexibility and accuracy of the licensing registry.
- Related IRIS screens such as the Application Previews, Pipeline Licence detail pages, and the IRIS Map Viewer will be updated to reflect the new multi-substance functionality, ensuring consistent data display throughout the registry.
- Updated IRIS search screens will enhance the searchability of licences and segments involving multiple substances.
- Spatial data extracts will be revised to reflect multi-substance licence data, ensuring a complete data package.

The Pipeline Licence Multi-Substance Industry Training presentation took place on March 18, 2026. You can access the presentation at the link provided:

[Pipeline Licence Multi-Substance – Industry Presentation.](#)

The Industry FAQ document for the Pipeline Licence Multi-Substance Project is now accessible at [Pipeline Licence Multi-Substance – FAQ.](#)

**Note:** Whether a user has access to the functionality, or enhancements outlined in these *9.25 Release Notes* will depend on the individual's security access and assigned permissions sets.

## Infrastructure Functionality

- A new notification has been created for the submitter of a *Licence Transfer Application*. This notification is automatically sent when the other party completes the *Licence Transfer Concurrency Approval Work Item* or when the work item is withdrawn. Submitters receive this notification by default and do not need to subscribe to it but must be assigned the permission set of *I.INF.LicenceTransferApplication.All.Applicant*, in addition to *I.INF.LicenceApplications.Administrator* or *I.INF.LicenceApplications.Applicant*.
- A new *Feedback Form* link is now available on IRIS, making it easier to submit feedback. This link can be found at the top-right corner of the IRIS screen.
- The *Physical Geological Inventory Search* now includes the same land search criteria as the *Well Document Search*. Upon querying a legal land description, the system will return all licences that have subsurface assets (core intervals, drill cuttings, thin sections) submitted, even if the subject licence falls upon a road allowance.

## Energy and Resources Training Modules

Online Training courses for the Integrated Resources Information System (IRIS) can be found [here](#).

The following online training modules will be updated.

- [Pipeline Licensing](#) - New Licence/New Segment
- [Pipeline Applications](#) - Licence Data Amendment

## Security and Permission Sets

The following changes were made to listed IRIS permission sets.

### Industry

- No new Permission Sets added.
- Permissions added to existing Permissions Sets

Permissions **		
Permission Sets	Permissions ADDED **	Function
• I.INF.Incident.Submit	• WFI.Notification.LIC_TSFR_CONAPPRVL_WI.Receive	• Ability to receive notifications of type 'Licence Transfer Concurrent Approval Work Item Completed or Withdrawn'
• I.INF.IncidentManagementApplications.Administrator	• WFI.Notification.LIC_TSFR_CONAPPRVL_WI.Receive	• Ability to receive notifications of type 'Licence Transfer Concurrent Approval Work Item Completed or Withdrawn'
• I.INF.IncidentManagementApplications.Applicant	• WFI.Notification.LIC_TSFR_CONAPPRVL_WI.Receive	• Ability to receive notifications of type 'Licence Transfer Concurrent Approval Work Item Completed or Withdrawn'
• I.INF.InspectionApplications.Administrator	• WFI.Notification.LIC_TSFR_CONAPPRVL_WI.Receive	• Ability to receive notifications of type 'Licence Transfer Concurrent Approval Work Item Completed or Withdrawn'
• I.INF.InspectionApplications.Applicant	• WFI.Notification.LIC_TSFR_CONAPPRVL_WI.Receive	• Ability to receive notifications of type 'Licence Transfer Concurrent Approval Work Item Completed or Withdrawn'
• I.INF.LiabilityManagementApplications.Administrator	• WFI.Notification.LIC_TSFR_CONAPPRVL_WI.Receive	• Ability to receive notifications of type 'Licence Transfer Concurrent Approval Work Item Completed or Withdrawn'
• I.INF.LiabilityManagementApplications.Applicant	• WFI.Notification.LIC_TSFR_CONAPPRVL_WI.Receive	• Ability to receive notifications of type 'Licence Transfer Concurrent Approval Work Item Completed or Withdrawn'
• I.INF.LicenceApplications.Administrator	• WFI.Notification.LIC_TSFR_CONAPPRVL_WI.Receive	• Ability to receive notifications of type 'Licence Transfer Concurrent Approval Work Item Completed or Withdrawn'
• I.INF.LicenceApplications.Applicant	• WFI.Notification.LIC_TSFR_CONAPPRVL_WI.Receive	• Ability to receive notifications of type 'Licence Transfer Concurrent Approval Work Item Completed or Withdrawn'
• I.INF.LicenceTransferApplication.All.Applicant	• WFI.Notification.LIC_TSFR_CONAPPRVL_WI.Receive	• Ability to receive notifications of type 'Licence Transfer Concurrent Approval Work Item Completed or Withdrawn'
• I.INF.MiscellaneousWaiverApplications.Administrator	• WFI.Notification.LIC_TSFR_CONAPPRVL_WI.Receive	• Ability to receive notifications of type 'Licence Transfer Concurrent Approval Work Item Completed or Withdrawn'
• I.INF.MiscellaneousWaiverApplications.Applicant	• WFI.Notification.LIC_TSFR_CONAPPRVL_WI.Receive	• Ability to receive notifications of type 'Licence Transfer Concurrent Approval Work Item Completed or Withdrawn'
