Introduction

Hunter Harvest Survey Summary – 2025 Thank you to all hunters who participated in the 2025 Hunter Harvest Survey. Each survey contributes to a better understanding of how game populations are responding to current management strategies. These surveys are an important part of wildlife management in Saskatchewan. The more surveys that are completed, the more certain we can be of outcomes in each management zone. Please complete your Hunter Harvest Surveys even if you were unable to hunt or did not harvest an animal. The Hunter Harvest Survey has been mandatory since 2020. In 2025, hunters purchased 113,673 hunting licences and completed 71,732 harvest surveys, representing a 63% per cent response rate. This represents a nominal increase from 2024 and is equivalent to the highest response rate recorded since the surveys became mandatory (30% per cent in 2019).

Hunter Harvest Survey Results – Overall Survey Response Rates

2025 Survey Response Rate

63%

Year	2019	2020	2021	2022	2023	2024	2025
Response rate	30%	52%	63%	62%	52%	61%	63%

All hunters should ensure their Hunting, Angling and Trapping Licence (HAL) profile contains their most current email address so that reminder messages are delivered. Reminder messages will stop once surveys are complete. The results of the 2025 Hunter Harvest Survey are separated by licence type. Harvest is estimated for all hunters based on the survey responses received. The potential range of estimated harvest values is indicated in the tables by the lower and upper bounds. This range of uncertainty increases as response rates decline. The more survey responses that are received, the more confident we can be in the resulting harvest estimates. Note that estimated total harvest accounts for the proportion of respondents who indicated they purchased a licence but did not hunt. For more information about the annual Hunter Harvest Survey, please contact the Ministry of Environment through the Inquiry Centre at Centre.Inquiry@gov.sk.ca or by calling 1-800-567-4224.

Provincial – Regular Licences

The following tables summarize provincial harvest estimates derived from regular hunting licences. Results are aggregated across all wildlife management zones.

2025 Hunter Harvest Survey Results – Regular Licences (Provincial Summary)

Species	Licences sold	Completed surveys	Harvest success (%)	Estimated total harvest	Estimated harvest lower bound (95%)	Estimated harvest upper bound (95%)	Adult male harvest	Adult female harvest	Young harvest
Black bear	4579	3258	26	826	769	886	669	150	7
Elk	5036	3351	24	1091	1022	1163	1091	0	0
