

9.27 Release Notes

IRIS Version 9.27

Release Date: August 5, 2026

9.27 Release Notes Publication Date	Notes and Changes Made
August 5, 2026	Initial Release

About

IRIS Version 9.27 Release implemented 22 items. In addition to the changes detailed below, various enhancements and fixes to known defects were implemented to various IRIS Modules.

What's changed?

The highlights of what has changed in IRIS Version 9.27 release are noted below.

Note: Whether a user has access to the functionality, or enhancements outlined in these 9.27 Release Notes will depend on the individual's security access and assigned permissions sets.

Infrastructure Functionality

- Liability Management reports have been updated to use a queued batch processing model, which addresses ongoing timeout and performance issues caused by complex LLR calculations. Report requests will now be placed in a queue and processed in the background, with users notified by email when reports are available for download. This change applies to key ministry and industry reports: *Licensee Liability Inventory*, *LLR Summary*, *LLR Well List*, *LLR Facility List*, *Securities Worksheet*, *ILRP Summary*, *ILRP Details*, *Security Deposit Summary*, *Asset Summary* and *Corporate Health Details Report*.
- The *Well Origin Information* tab of the Well Licence Application has been updated to auto-populate the corresponding fields: Land Description, Rural Municipality Type, and Ministry of Energy and Resources Field Office, when latitude (DD) and longitude (DD) coordinates are entered.
- The Pipeline Registry now captures all watercourse-crossing-related disclosures for licenced pipeline segments, ensuring that the responses to the presence or absence of

crossings are permanently visible after an application is approved. This applies to all newly licenced pipeline segments, retroactively licenced segments, and converted licences.

Energy and Resources Training Modules

Online Training courses for the Integrated Resources Information System (IRIS) can be found [here](#).

Security and Permission Sets

The following changes were made to listed IRIS permission sets.

Industry

- No new Permission Sets added.
- Permissions added to existing Permissions Sets

New Permissions within an EXISTING Permissions Set		
Existing Permission Sets	NEW Permissions ADDED **	Function
I.FL.Obligation.Submit	Shared.Notification.RPTFAILED.Receive	Ability to receive notifications of type 'Report Failed'
	Shared.Notification.RPTSUCCESS.Receive	Ability to receive notifications of type 'Report Success'
I.INC.Obligation.Submit	Shared.Notification.RPTFAILED.Receive	Ability to receive notifications of type 'Report Failed'
	Shared.Notification.RPTSUCCESS.Receive	Ability to receive notifications of type 'Report Success'
I.INF.AORExemptionApplication.All.Applicant	Shared.Notification.RPTFAILED.Receive	Ability to receive notifications of type 'Report Failed'
	Shared.Notification.RPTSUCCESS.Receive	Ability to receive notifications of type 'Report Success'
I.INF.ASCP.Maintain	Shared.Notification.RPTFAILED.Receive	Ability to receive notifications of type 'Report Failed'
	Shared.Notification.RPTSUCCESS.Receive	Ability to receive notifications of type 'Report Success'
I.INF.ASCP.View	Shared.Notification.RPTFAILED.Receive	Ability to receive notifications of type 'Report Failed'
	Shared.Notification.RPTSUCCESS.Receive	Ability to receive notifications of type 'Report Success'
I.INF.ConfidentialPayer.All.View	Shared.Notification.RPTFAILED.Receive	Ability to receive notifications of type 'Report Failed'
	Shared.Notification.RPTSUCCESS.Receive	Ability to receive notifications of type 'Report Success'
