

Adaptations for Independence - Homeowner

The Adaptations for Independence – Homeowner program offers financial assistance to help homeowners with low incomes improve the accessibility of their primary residence. Requested adaptations will be identified by a qualified healthcare practitioner and help a household member with a disability live more independently in the home.

Eligible homeowners can receive up to \$23,000 as a forgivable loan. Adaptations completed prior to receiving written approval from SHC do not qualify. Once approval is granted, work must be completed within six months.

To be eligible, applicants must:

- have purchased their home at least six months before applying for funding;
- occupy the property as their principal residence;
- have a household member with a housing-related disability;
- have income and asset levels below the program limits (see income and asset tables below);
- have not received maximum funding through a Saskatchewan Housing Corporation (SHC) repair program in the last 15 years; and
- be in good standing with SHC.
