## Letter of Transmittal

December 17, 2025

Mr. Jeff Waring  
Assistant Deputy Minister  
Communities and Infrastructure Programs  
Housing, Infrastructure and Communities Canada  
1100 – 180 Kent Street  
OTTAWA ON K1P 0B6

Dear Mr. Waring:

On behalf of the Government of Saskatchewan's Ministry of Government Relations, I am pleased to provide the Annual Financial Report and Project Lists for the Administrative Agreement on the Federal Canada Community-Building Fund for the period of April 1, 2024, to March 31, 2025.

Sincerely,

A handwritten signature in blue ink that reads "Bonnie Chambers". The signature is written in a cursive, flowing style.

Bonnie Chambers  
Assistant Deputy Minister  
Ministry of Government Relations

## Overview

The Ministry of Government Relations (the Ministry) prepares the Canada Community-Building Fund (CCBF) Annual Financial Report and Project Lists, which are submitted to Housing, Infrastructure and Communities Canada as a requirement under the Administrative Agreement (the agreement) on the CCBF. This report covers the audited financial activities from April 1, 2024, to March 31, 2025. It is distributed to the CCBF Oversight Committee (OC) members and is available on Saskatchewan's website at [saskatchewan.ca](https://www.saskatchewan.ca).

Since 2005, municipalities in Saskatchewan have benefited from the CCBF program. Municipalities received federal funding for infrastructure investments under the original agreement (2005-2014), followed by the extended agreement (2014-15 to 2023-24), as part of the New Building Canada Plan. In 2024, Government of Saskatchewan (GOS) and Government of Canada (GOC) renewed the CCBF agreement for another 10 years, from 2024-25 to 2033-34.

Program funding is indexed at 2 per cent annually, applied in \$100 million increments. Over the first five years of the 2024-2034 agreement, GOS's allocation is \$350.3 million, based on the 2021 Statistics Canada Census figures. GOS's 2029-30 to 2033-34 allocation will be based on the 2026 Census figures.

In 2024-25, GOS's allocation was \$66.7 million, and the province transferred more than \$65.1 million to participating municipalities. Municipalities decide how to utilize the funds to meet local needs by submitting an Infrastructure Investment Plan (IIP). IIPs are reviewed to confirm program eligibility and then approved by the Ministry. Once approved, annual reporting for all active projects is required through the Municipal Annual Expenditure Report (MAER) process.

The Ministry administers the CCBF program in Saskatchewan on behalf of the GOC. Saskatchewan's federally approved business case is for GOC to fund 100 per cent of the costs to administer the program up to 1.4 per cent of the estimated 10-year base transfer to a maximum of \$13.35 million. Administrative costs include activities such as the preparation and administration of municipal agreements, disbursement of funds, implication of the compliance strategy, communications, reporting, annual third-party audit and evaluation requirements.

# Audited Financial Report

## Compliance

KPMG LLP completed an independent audit for the year ending 2024-25 to express opinions on the Financial Report Table and its preparation in compliance with the criteria established by the terms and conditions described in the 2024-2034 agreement. The audit confirms that the ministry has fulfilled these terms and conditions. The Independent Auditor’s Report is attached as [Appendix A](#).

## Financial Report Highlights

The Financial Report Table shows the receipts and disbursements of the CCBF for the 2024-25 reporting period, as well as cumulative data under the CCBF for both Saskatchewan and the ultimate recipients (primarily municipalities). Ultimate recipients report on a calendar year basis, in this case, 2024.

### Saskatchewan

- GOS received \$66,732,512 from GOC in the 2024-25 fiscal year.
- \$65,094,161 was transferred to compliant recipients in 2024-25.
- Administrative costs increased from \$737,497 in 2023-24 to \$908,753 in 2024-25 (see Table 1) but stayed within the approved 1.4 per cent of the federal transfer. The increase is due to increased staffing by filling vacant positions, contractual services for independent audit and incremental system improvements.
- Interest earnings decreased from \$912,720 in 2023-24 to \$752,886 in 2024-25.
- The province received \$8,909 in refunds from municipalities in 2024-25.

*Table 1: Comparison of Administrative Costs from 2023-24 to 2024-25*

<b>Administrative Costs</b>	<b>2023-24</b>	<b>2024-25</b>
Personal Services	\$600,553	\$768,868
Contractual Services	\$27,927	\$28,780
Travel and Business	\$5,933	\$3,347
Supplies and Services	\$103,084	\$107,757
<b>TOTAL</b>	<b>\$737,497</b>	<b>\$908,753</b>

### Ultimate Recipients

- During the 2024 calendar year, recipients received CCBF allocations totaling \$66,003,197.
- On their 2024 MAERs, \$101,003,352 in spending was reported on eligible projects, as shown in [Appendix B](#).
- The opening balance includes an adjustment of \$(5,172,816), which is:
  - Interest earned and expenditure amounts reported on eligible reports in 2023 and

- submitted after the audit verification of the 2023 financial information.
- Removal of expenditures reported by ultimate recipients in prior years that they were not qualified to retain due to non-compliance.
- These amounts are part of the 2024 audit verification process; expenditure amounts are listed at the end of [Appendix C](#).
- Interest earnings reported by municipalities decreased from \$3,704,719 in 2023 to \$1,382,652 in 2024.

There is a listing of 51 projects from 2023 ([Appendix C](#)) that submitted reports after the audit verification of the 2023 financial information. These projects have been audited as part of the current 2024-25 financial information.

## Project Lists

### Municipal Annual Expenditure Reports

[Appendix B](#) lists the expenditures submitted through the 2024 MAER process on projects that were considered active as of December 31, 2024. [Appendix C](#) lists the projects submitted through the 2023 MAER process after the KPMG submission deadline and verified as part of the 2024 audit of the financial information.

### Geographic Locations and Estimated Outputs

[Appendix D](#) captures additional project information for IIPs on projects active in 2024 and approved by the ministry prior to December 31, 2024. The information listed was received during the initial IIP submission process.

Prior to the 2024-2034 agreement, estimated project outputs were neither required nor collected by the Ministry. There are projects in the list that do not have data on estimated outputs. After the 2024-2034 Municipal Funding Agreements were distributed to eligible municipalities for their review and signature of participation on August 26, 2024, this information became a requirement for the initial IIP submission, and the ministry began collecting it.

The housing-related requirements and subsequent reporting were incorporated into the CCBF after the program was renewed in 2024. Those municipalities with a 2021 Statistics Canada Census population of 30,000 and higher were required to submit a Housing Needs Assessment (HNA) by March 31, 2025. Municipalities were to prioritize CCBF investments in projects that would address the housing pressures identified in their HNA. The IIPs approved prior to August 26, 2024, were not subject to this requirement. No projects in this report would be subject to housing-related requirements.

Actual project outcomes and outputs are reported upon project completion in the annual outcomes report.

## INDEPENDENT AUDITOR'S REPORT

To Saskatchewan Ministry of Government Relations

### *Opinion*

We have audited the Financial Report Table – Administrative Agreement on the Canada Community-Building Fund of the Saskatchewan Ministry of Government Relations ("the Ministry") for the year ended March 31, 2025, and notes, including a summary of significant accounting policies (hereinafter referred to as "the Annual Statement").

In our opinion, the accompanying Annual Statement for the year ended March 31, 2025 of the Ministry is prepared, in all material respects, in accordance with the financial reporting provisions in the Administrative Agreement on the Canada Community-Building Fund (CCBF) ("the Agreement") effective April 1, 2024 between the Entity and Housing, Infrastructure and Communities Canada ("Canada").

### *Basis for Opinion*

We conducted our audit in accordance with Canadian generally accepted auditing standards. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Annual Statement section of our Auditor's report. We are independent of the Ministry in accordance with the ethical requirements that are relevant to our audit of the Annual Statement in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### *Emphasis of Matter – Financial Reporting Framework*

We draw attention to Note 1 to the Annual Statement, which describes the applicable financial reporting framework. The Annual Statement is prepared to assist the Ministry to meet the requirements of the Agreement. As a result, the Annual Statement may not be suitable for another purpose. Our opinion is not modified in respect of this matter.

### *Responsibilities of Management and Those Charged with Governance for the Annual Statement*

Management is responsible for the preparation of the Annual Statement in accordance with the financial reporting provisions in the Agreement for the year ended March 31, 2025, and for such internal control as management determines is necessary to enable the preparation of an Annual Statement that is free from material misstatement, whether due to fraud or error.

Those charged with governance are responsible for overseeing the Ministry's financial reporting process.

***Auditor's Responsibilities for the Audit of the Annual Statement***

Our objectives are to obtain reasonable assurance about whether the Annual Statement as a whole is free from material misstatement, whether due to fraud or error, and to issue an Auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with Canadian generally accepted auditing standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the Annual Statement.

As part of an audit in accordance with Canadian generally accepted auditing standards, we exercise professional judgment and maintain professional skepticism throughout the audit.

We also:

- Identify and assess the risks of material misstatement of the Annual Statement, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion.

The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Ministry's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Notes to the Financial Report Table

Administrative Agreement on Canada Community-Building Fund

Year ended March 31, 2025

---

## 1. Scope of the Administrative Agreement on the Canada Community-Building Fund

Housing, Infrastructure and Communities Canada ("Canada") and the Saskatchewan Ministry of Government Relations ("the Ministry") executed a new Administrative Agreement on the Canada Community-Building Fund (CCBF) (the "Agreement"), effective April 1, 2024 and in effect until March 31, 2034.

The Agreement provides a joint framework for the transfer of funds from Canada to the Ministry for administration and subsequent allocation to help communities build and revitalize their public infrastructure that supports national objectives of productivity and economic growth, a clean environment and strong cities and communities.

The Agreement further provides that The Ministry agrees to pay funding to ultimate recipients solely for eligible projects, as described in Schedule B of the Agreement, and solely for the purpose of paying eligible expenditures as described in Schedule C of the Agreement and that funding may be used for the purpose of paying all administration costs of The Ministry, as provided for in the Agreement.

## 2. Interest earned

The annual allocation provided by Canada to The Ministry is held by The Ministry pending future payments in accordance with the Agreement. The Ministry has an arrangement with the Saskatchewan Ministry of Finance respecting the receipt, disbursement and amounts held for future payments to municipalities.

The Ministry has calculated interest earned using the Province of Saskatchewan's thirty day borrowing rate. Interest earned on amounts held by The Ministry shall be used only for the purposes of eligible projects which may include capacity building efforts of the municipal associations where established as ultimate recipients.

# SASKATCHEWAN MINISTRY OF GOVERNMENT RELATIONS

Notes to the Financial Report Table  
Administrative Agreement on Canada Community-Building Fund

Year ended March 31, 2025

### 3. Administrative costs

Under the terms of the Agreement, the annual allocation has been used to pay for administrative costs incurred by The Ministry. All administrative costs incurred during the year ending March 31, 2025, are in accordance with a business case developed in February 2025, approved by Canada in April 2025.

### 4. Reporting of ultimate recipient financial information

Schedule D of the Agreement states that in the case of ultimate recipients with a year-end other than March 31, the Annual Report may include information in respect of eligible projects related to that ultimate recipient to the year end of that ultimate recipient. All municipalities in Saskatchewan have a December 31 year end. As a result, the Financial Report Table reports amounts held by municipalities to be expended on eligible costs and amounts expended by municipalities on eligible costs as at and for the year ending December 31, 2024.

The amount transferred to ultimate recipients is reconciled as follows:

	<b>Annual April 1, 2024 – March 31, 2025</b>
Ultimate Recipients – Received from Saskatchewan January 1 to December 31, 2024	\$ 66,003,197
Less: amounts transferred to Ultimate Recipients, January 1 to March 31, 2024	(33,984,559)
Add: amounts transferred to Ultimate Recipients, January 1 to March 31, 2025	33,075,523
<b>Total transferred to Ultimate Recipients, April 1, 2024 to March 31, 2025</b>	<b>\$ 65,094,161</b>
	<b>Annual April 1, 2023 – March 31, 2024</b>
Ultimate Recipients – Received from Saskatchewan January 1 to December 31, 2023	\$ 69,275,088
Less: amounts transferred to Ultimate Recipients, January 1 to March 31, 2023	(35,743,334)
Add: amounts transferred to Ultimate Recipients, January 1 to March 31, 2024	33,984,559
<b>Total transferred to Ultimate Recipients, April 1, 2023, to March 31, 2024</b>	<b>\$ 67,516,313</b>

# SASKATCHEWAN MINISTRY OF GOVERNMENT RELATIONS

Notes to the Financial Report Table  
Administrative Agreement on Canada Community-Building Fund

Year ended March 31, 2025

## 5. Adjustments relating to prior year

Adjustments relating to prior year reflect the net effect of:

- a) interest earned and amounts spent by ultimate recipients in 2023 and submitted to The Ministry subsequent to the audit verification of the 2023 financial information; and
- b) removal of expenditures reported by ultimate recipients in prior years that they were not qualified to retain due to non-compliance.

These amounts are audited as part of the current period financial information and have been included in the ending cumulative balance of "Spent on eligible projects", and "Interest earned" as disclosed in note 7 below.

## 6. Refund to Vote and Refunded to The Ministry

Transfers are provided to ultimate recipients in advance which can result in ultimate recipients having to repay amounts that they are not qualified to retain due to non-compliance or insufficient eligible expenditures. Amounts are recorded when repayments are received from the ultimate recipient.

## 7. Ultimate recipients in aggregate – additional information

The cumulative balances are derived as follows:

	Spent on eligible projects	Interest earned
Opening cumulative balance	\$ -	\$ -
Adjustments relating to prior year (note 5)	(5,172,816)	3,750
Prior year interest netted against expenditure	(3,750)	-
Current year	(101,003,352)	1,382,652
Closing cumulative balance	\$ (106,179,919)	\$ 1,386,402

## 8. Rounding of some amounts

The opening and closing balances of Saskatchewan in Aggregate and Ultimate Recipients in Aggregate may not add up to the sum of the numbers due to rounding.

**Appendix B: CCBF Project List - 2024 Municipal Annual Expenditure Reports**

No.	Project ID#	Ultimate Recipient	Project Title	Project Description	Investment Category	Total Project Cost	Funds (CCBF) Spent in 2024	Estimated Project End Date
1	0708-001026	Quinton, Village of	Touchwood Hills Regional Landfill	Enhance regional waste disposal to cover costs of decommissioning the former landfill site, along with the set up cost of building a waste transfer site to haul garbage to the regional landfill site.	Solid Waste	\$38,550.96	\$8,902.63	31-Dec-26
2	0910-001742	Ogema, Town of	Wastewater Treatment Plant Pre-design and Survey Services	The project involves professional engineering and survey services covering preliminary studies and design services, wastewater facilities and conceptual design, water treatment plant predesign, and legal land survey.	Wastewater	\$37,099.97	\$0.00	31-Dec-24
3	1011-001891	Marquis, Village of	Replace Water Meters	Replace all existing water meters at 50 locations throughout the village to provide accurate and consistent data and promote water conservation.	Drinking Water	\$28,000.00	\$806.40	31-Dec-25
4	1112-002174	Bracken, Village of	Water Treatment Plant Upgrade	Upgrade to the water treatment plant including rewiring of the plant to bring it up to fire code as well as installing up-to-date equipment in the plant and dugout.	Drinking Water	\$13,024.16	\$1,796.49	31-Dec-27
5	1213-002510	Meeting Lake, Rural Municipality of	Upgrades to Mayfair Disposal Landfill	Installing monitoring wells at the landfill location.	Solid Waste	\$100,000.00	\$0.00	31-Dec-26
6	1213-002753	Ituna, Town of	Upgrade Water Line and Resurface Pavement	Rehabilitation of one water treatment facility, including filters, the pump station, and construction of additional reservoir storage. A new well will be installed to provide capacity, reliability and redundancy to the Town's water supply, which is currently at risk should the single existing well experience a failure. The Project will also replace approximately 3,500 meters of local water pipes, and replace the valves in order to avoid water main breaks.	Drinking Water	\$9,393,628.81	\$0.00	31-Mar-27
7	1213-002757	Leroy, Town of	Construct Willow Subdivision roads/curb and gutter	New lot subdivision, road work and some curb/gutter construction completed in 10/11. 2013 sand sealing roads and completing curb/gutter to provide access to new subdivision.	Local Roads and Bridges	\$300,000.00	\$0.00	31-Dec-27
8	1213-002776	Turtleford, Town of	Water Meter Upgrade	Complete a water meter upgrade which will allow for a more efficiently run system.	Drinking Water	\$140,533.65	\$0.00	31-Dec-26
9	1314-002811	Blaine Lake, Rural Municipality of	Radouga Creek Upgrade	Enhance water flow through the Radouga Creek system by upgrading culvert capacity in order to prevent flooding of roads.	Local Roads and Bridges	\$204,711.53	\$0.00	31-Mar-27
10	1415-003099	Willow Creek, Rural Municipality of	Replace Bridge with Culvert - ENE 13-48-17-W2	Replace timber bridge with a 3,000 mm x 3.5 mm x 14 m culvert and build up road to keep road open and allow access to heavier truck traffic and school buses.	Local Roads and Bridges	\$185.17	\$0.00	31-Mar-26

No.	Project ID#	Ultimate Recipient	Project Title	Project Description	Investment Category	Total Project Cost	Funds (CCBF) Spent in 2024	Estimated Project End Date
11	1415-003258	Eyebrow, Village of	Village Office Energy Retrofit	Install new energy efficient furnace, water heater, windows, steel door, add additional insulation and siding on village office building to reduce energy use.	Community Energy Systems	\$18,136.17	\$0.00	31-Dec-24
12	1415-003259	Eyebrow, Village of	Village Shop Energy Upgrades	Increase energy efficiency of municipal shop by installing new energy efficient heater, windows, and doors.	Community Energy Systems	\$7,000.00	\$0.00	30-Nov-25
13	1415-003261	Eyebrow, Village of	Install Four Culverts to Reduce Flooding	Replace and install four culverts to help with flooding to protect drinking water from cross contamination.	Wastewater	\$8,000.00	\$0.00	30-Nov-25
14	1415-003287	Saskatoon, City of	Construct Water Treatment Plant Pump Bay P2565	Design and construction of new pump bay, high efficiency pumps, new electrical and control network to transfer filtered water from the main plant to Avenue H reservoir expansion and ultraviolet disinfection units. Additional work includes soil remediation, structural inspections and increased electrical and control works.	Drinking Water	\$44,313,469.39	\$1,361,958.04	30-Sep-25
15	1516-003345	Good Lake, Rural Municipality of	Decommission Landfill and Construct Transfer Station	Decommission two existing landfills getting close to capacity and construct a transfer station.	Solid Waste	\$205,000.00	\$6,728.01	31-Dec-25
16	1516-003353	Holdfast, Village of	Standalone Study - Predesign and Engineering of Water Plant	Complete predesign and engineering for installation of a water filtration system at water treatment plant as required by Water Security Agency.	Drinking Water	\$24,200.00	\$0.00	28-Feb-25
17	1516-003370	Punnichy, Village of	Replace 20 Water Shut Off Valves	Replace 20 curb stops with drains to control turning the water off and on therefore conserving water, and to be able to collect outstanding utility arrears.	Drinking Water	\$46,916.60	\$0.00	31-Oct-25
18	1516-003422	Fenwood, Village of	Install Two Curb Boxes and Two Hydrants	Install two curb boxes and two hydrants for cleaner water. Hydrants allow flushing of lines removing sediment and will be connected to drinking water lines.	Drinking Water	\$4,861.80	\$0.00	30-Jun-26
19	1516-003423	Fenwood, Village of	Install a Culvert on Queen Street North	Install a 0.61 m x 18 m culvert on Queen Street North to improve drainage and avoid major flooding of road.	Local Roads and Bridges	\$4,000.00	\$0.00	30-Jun-26
20	1516-003541	Pangman, Village of	Replace Curb Stops	Replace curb stops which are no longer able to be shut off. (Approximately 10-15)	Drinking Water	\$6,023.73	\$3,699.76	6-Jun-24
21	1516-003614	Allan, Town of	Pavement Upgrade Phase 3	Repave and upgrade pavement on various locations (per map) in the community.	Local Roads and Bridges	\$295,654.80	\$190,354.80	2-Jul-24
22	1516-003615	Vanguard, Village of	Replace Water Meters	Replacing water meters with pro-read meters throughout the Village of Vanguard to ensure a more efficient water system and promote water conservation.	Drinking Water	\$21,567.26	\$0.00	31-Mar-26
23	1516-003639	Loreburn, Village of	Replace 150 m of Sidewalks	Replace 150 m of sidewalk within the village to promote pedestrian traffic.	Local Roads and Bridges	\$7,500.00	\$5,000.00	21-May-24

No.	Project ID#	Ultimate Recipient	Project Title	Project Description	Investment Category	Total Project Cost	Funds (CCBF) Spent in 2024	Estimated Project End Date
24	1516-003684	Ponteix, Town of	Installation of Rink Solar Panel	Install a solar panel at the skating rink to reduce energy costs and to help reduce greenhouse gas emissions. Costs include design, location, and construction of all associated works.	Community Energy Systems	\$70,000.00	\$0.00	31-Mar-27
25	1516-003752	Dalmeny, Town of	Construct Storm Water Retention Pond	Construct storm water retention pond for industrial area to accommodate surface drainage created by storm activity.	Wastewater	\$1,420,200.00	\$0.00	31-Dec-30
26	1516-003763	Pittville, Rural Municipality of	Upgrade 3.2 km of Class 4 Road	Improve alignment and elevation changes on 3.2 km of Class 4 road through the valley to improve driver safety.	Local Roads and Bridges	\$329,709.00	\$0.00	31-Oct-25
27	1516-003810	Gainsborough, Village of	Construct Berm on Gainsborough Creek	Construct a berm along the north shore of Gainsborough Creek to protect the village from flooding.	Resilience	\$200,000.00	\$0.00	1-Mar-27
28	1516-003836	Grant, Rural Municipality of	Clay Cap 9.6 km Smuts Grid 767	Reconstruct 9.6 km of Smuts Grid 767 primary weight road which has been designated as a heavy haul road. Clay cap and upgrade the 4:1 shoulder slopes plus the entire road surface, narrowing the 10 m road surface to 9 m road surface.	Local Roads and Bridges	\$425,000.00	\$0.00	31-Dec-25
29	1516-003871	Turtleford, Town of	Install New Water Mains to 19 Lots	Install 765 m of 150 mm PVC DR18 water main to 19 lots in a new subdivision. Install 20 mm PEX water main to service each of the 19 lots.	Drinking Water	\$290,000.00	\$0.00	31-Dec-28
30	1516-003928	Usborne, Rural Municipality of	Resurface 22 km PG 668 HH - Phase 2	Upgrade 22 km of road by resurfacing to heavy haul standards, widening the road top, and on two sections of the road widening and/or strengthening subgrade. This will divert truck traffic from gravel roads to a dust free road. PG 668 connects three communities, two potash mines and a large aggregate reserve.	Local Roads and Bridges	\$4,500,000.00	\$203,099.49	1-Mar-28
31	1516-004001	Stony Rapids, Northern Hamlet of	Build New Community Center	Build new Recreational and Municipal Office Complex to allow for recreational activities such as floor hockey, volleyball, dances, carnivals, elder activities, social events, and municipal offices.	Recreational Infrastructure	\$2,500,000.00	\$0.00	31-Dec-25
32	1516-004026	Mankota, Village of	Resurface 2nd Street	Rebuild 2nd Street. Remove the existing top, rebuild the base of the street, grade, and level to allow for water to flow, and top with gravel in preparation for final surface, chip sealing or sand sealing.	Local Roads and Bridges	\$10,000.00	\$0.00	31-Dec-25
33	1516-004027	Tisdale, Town of	Replace 3,850 m of Existing Water Lines and Install Water Lines in New Subdivision	Replacing approximately 3,850 m of water lines that are failing, plus addition of new lines that are added to the system for new subdivisions to ensure clean drinking water.	Drinking Water	\$2,398,189.10	\$392,373.76	31-Dec-25

No.	Project ID#	Ultimate Recipient	Project Title	Project Description	Investment Category	Total Project Cost	Funds (CCBF) Spent in 2024	Estimated Project End Date
34	1617-004155	Prince Albert, Rural Municipality of	Develop Asset Management Plan	Preparation and implementation of an asset management plan including gap assessment, risk assessment and level of service provided. Purchase and set-up of software, attend NAMS training and train two staff for implementation and development of plan.	Capacity Building	\$100,000.00	\$36,471.52	31-Dec-25
35	1718-004247	Chaplin, Village of	Decommission Landfill	Decommission landfill including a hydrogeological study, development of decommissioning plan (topographical survey, engineering), and actual decommissioning including covering, packing, and shaping with positive surface drainage.	Solid Waste	\$120,000.00	\$29,272.41	31-Dec-27
36	1718-004295	Debden, Village of	Development of Asset Management Plan	Hire an engineering firm to work with council to progress further on asset management plan. Will help to develop a plan for transportation, water and sewer networks including discussion on growth, financial projection, and developing a capital works plan.	Capacity Building	\$25,000.00	\$0.00	30-Sep-25
37	1718-004330	Forget, Village of	Upgrade Forget Park With Play Structure	Upgrade existing park by installing a play structure (phase 1). Park benches, barbecues, picnic tables, and a multi-use court will be completed in future.	Recreational Infrastructure	\$5,061.74	\$0.00	31-Dec-23
38	1718-004339	Regina Beach, Town of	Drainage System Improvements	Construct/reconstruct culverts and ditches in multiple locations and install 1,000 m of storm sewer line along 16th Street East south of Highway 54.	Wastewater	\$542,332.23	\$0.00	31-Oct-25
39	1718-004406	Invergordon, Rural Municipality of	Development of Official Community Plan and Zoning Bylaw in Support of Asset Management Planning	Hire a planning consultant to complete an Official Community Plan and Zoning Bylaw for the RM. These are a foundational pillar for the overall asset management plan. It will be one of the tools used to identify and plan for future requirements of various assets such as roads, culverts, bridges, and equipment.	Capacity Building	\$41,552.15	\$4,337.50	31-Dec-24
40	1819-004471	Birch Hills, Rural Municipality of	Develop Official Community Plan and Zoning Bylaw in Support of Asset Management	Develop an Official Community Plan and update the Zoning Bylaw to work in conjunction with the asset management plan by determining locations where infrastructure demands are greater or lesser. Identifying the levels of service for potential infrastructure development areas.	Capacity Building	\$65,000.00	\$21,824.77	30-Apr-25
41	1819-004496	Jansen, Village of	Decommission Landfill at NW 31-32-19-W2	Decommission existing landfill cell 900 m x 200 m by removing unacceptable refuse, compacting and clay capping to the proper slope, dig test holes and add vent hole.	Solid Waste	\$150,000.00	\$0.00	24-Mar-25

No.	Project ID#	Ultimate Recipient	Project Title	Project Description	Investment Category	Total Project Cost	Funds (CCBF) Spent in 2024	Estimated Project End Date
42	1819-004504	Calder, Rural Municipality of	Upgrade 12 km of Municipal Back Road	Upgrade back access roads to secondary road standards to accommodate larger equipment. Work includes addressing ditch slope issues and top width to 7 m where needed, building up roads, clay capping and graveling where necessary, and clearing road allowances. One 1,200 mm x 15 m steel culvert and two 450 mm x 15 m steel culverts to be installed.	Local Roads and Bridges	\$0.00	-\$10,369.38	31-Dec-25
43	1819-004544	Bracken, Village of	Develop an Asset Management Plan	Development and implementation of infrastructure management, including asset management plans, for the infrastructure of the Village of Bracken. Priority will be to complete the water network. Includes training and software.	Capacity Building	\$1,358.99	\$0.00	31-Dec-24
44	1819-004604	St. Louis, Rural Municipality of	Asset Management Plan	Hire professional to complete a condition assessment, create the asset management plan, and upgrade to full public works software complete with training for foreman and office staff.	Capacity Building	\$191,800.00	\$0.00	31-Dec-25
45	1819-004605	St. Louis, Rural Municipality of	Update Zoning Bylaw and Official Community Plan for Asset Management Plan	Update Zoning Bylaw and develop an Official Community Plan to better address current and future development and assist with asset management plan.	Capacity Building	\$70,000.00	\$16,399.00	31-Dec-25
46	1920-004616	Island View, Resort Village of	Install Public Walkway Access Stairs	Install stairs to improve accessibility and provide safe access for public to beach.	Tourism Infrastructure	\$10,000.00	\$0.00	31-Oct-25
47	1920-004631	Edenwold, Village of	Replace 4 m x 6.7 m Lift Station Building	Replace the 4 m x 6.7 m lift station building, and any electrical and other components to improve heating and efficiency of lift station equipment.	Wastewater	\$74,500.00	\$0.00	30-Jun-26
48	1920-004632	Edenwold, Village of	Install Back-up Power at Water Treatment Plant	Install new power back-up generator at water treatment plant, including connections, electrical, tapping into gas line, and generator. Also includes T-junction upgrade at emergency operations centre.	Drinking Water	\$41,438.32	\$39,087.01	31-Dec-24
49	1920-004641	Nokomis, Town of	Install 150 New Water Meters	Replace 150 water meters in the residential houses.	Drinking Water	\$33,376.07	\$0.00	31-Dec-24
50	1920-004675	Pebble Baye, Resort Village of	Upgrade Beach Area with Swimming Dock	Purchase and install a 2.9 m x 2.3 m swimming dock, complete with ladder, and add 70 130 mm x 230 mm swimming buoys complete with 76 m of 19 mm connecting rope in beach area for enjoyment and safety.	Tourism Infrastructure	\$15,000.00	\$1,800.00	31-Jan-27
51	1920-004687	Stoughton, Town of	Replace 8,800 m of Main Water Supply Line and Upgrade Water System	Replace 8,800 m of 150 mm PVC or 200 mm HDPE main water line and appurtenances and construct new well, pumphouse, including pump, piping, main connection and electrical. Also, conduct rehabilitation on existing wells and decommission pump well 4.	Drinking Water	\$0.00	-\$75,877.49	28-Feb-25
52	1920-004734	Dubuc, Village of	Install Six Curb Stops	Install shut off valves at six locations in the village to allow control of water flow.	Drinking Water	\$7,000.00	\$0.00	30-Sep-25

No.	Project ID#	Ultimate Recipient	Project Title	Project Description	Investment Category	Total Project Cost	Funds (CCBF) Spent in 2024	Estimated Project End Date
53	1920-004745	Denare Beach, Northern Village of	Upgrade Denare Beach Tennis, Basketball, and Pickle Ball Courts	Upgrade existing court by removing old pavement, grading for proper drainage and court specifications, applying a proper base to prevent shifting, pave to about 100 mm thickness, resurface with synthetic material and top with proper lines for three activities.	Recreational Infrastructure	\$112,360.00	\$97,360.00	31-May-25
54	1920-004747	Denare Beach, Northern Village of	Rebuild Almost 3 km of Mosher Road	Rebuild approximately 3 km of Mosher Road between Highway 167 intersection and Mosher Drive intersection by removing old road down to base, rebuilding and paving at 75 mm thickness.	Local Roads and Bridges	\$187,472.14	\$83,115.10	30-Nov-24
55	1920-004763	Christopher Lake, Village of	Construct 1 km of Trail on Ridgeway Road	Construct 1 km x 2 m walking trail along the highway from 2nd Avenue to Ridgeway Road and Ridgeway Road to Southridge Drive. The trail will promote healthy living and improved access to health, social and cultural infrastructure: school, curling rink, churches, day care and downtown. The trail will be constructed of base gravel, clay, and pavement or recycled material.	Local Roads and Bridges	\$166,992.77	\$51,060.20	6-Sep-24
56	1920-004768	Candle Lake, Resort Village of	Candle Lake Trail Signs	Ensuring safety of three high traffic intersections, especially along the walking trails, by installing solar powered cross walk lights and signage.	Local Roads and Bridges	\$60,000.00	\$0.00	31-Oct-25
57	1920-004769	Candle Lake, Resort Village of	Upgrade Candle Lake Community Hall Phase 3	Numerous improvements for the Seniors Hall located on the upper floor of the Community Hall including upgrading flooring on 235 sq m, enclose bar area, upgrade electrical throughout, install four sinks in kitchen to meet health codes, upgrade cabinets and counters, install janitor closet, and make two bathrooms handicap accessible.	Recreational Infrastructure	\$100,183.69	\$89,194.54	31-Dec-24
58	1920-004790	Eyebrow, Village of	Landfill Decommissioning	Decommission the landfill site per plan submitted to the Ministry of Environment. The landfill is approximately 22,865 sq m and has been replaced by a transfer station.	Solid Waste	\$306,082.28	\$0.00	30-Nov-27
59	1920-004802	Outlook, Town of	Stormwater Outfall Rehabilitation - Sky Trail Corridor	Relocate the outfall above the failure plane, landscape the existing channel to rebuild what has already been washed away and develop erosion control measures such as geo-fabric and rip rap with the expected outcome to improve storm water drainage and reduce erosion.	Wastewater	\$250,000.00	\$0.00	30-Aug-24
60	1920-004803	Outlook, Town of	Stormwater Outfall Rehabilitation - River Avenue	Relocate the 200 m outfall above the River Avenue failure plane, landscape the existing channel to rebuild what has already been washed away and develop erosion control measures such as geo-fabric and rip rap with the expected outcome to improve storm water drainage and reduce erosion.	Wastewater	\$350,000.00	\$0.00	30-Aug-24

No.	Project ID#	Ultimate Recipient	Project Title	Project Description	Investment Category	Total Project Cost	Funds (CCBF) Spent in 2024	Estimated Project End Date
61	1920-004804	Outlook, Town of	Stormwater Outfall Rehabilitation - Regional Park	Relocate the 640 m outfall above the Regional Park failure plane, landscape the existing channel to rebuild what has already been washed away and develop erosion control measures such as geo-fabric and rip rap with the expected outcome to improve storm water drainage and reduce erosion.	Wastewater	\$556,650.00	\$9,909.99	30-Aug-24
62	1920-004818	Kendal, Village of	Upgrade Water Treatment Plant	Replace two pumps; install a bench, a test sink, three cabinets, two hatch covers, new pressure tanks, and upgrade storage shed roof as well as inside shed electrical system in the water treatment plant.	Drinking Water	\$23,051.93	\$254.93	31-Dec-25
63	1920-004856	Swift Current, City of	Upgrade North Hill Reservoir and Pumphouse	Construction of an additional wet well and installation of larger pumps and other associated works to increase available flows to the northwest and northeast areas of the city to improve service and meet increased demand.	Drinking Water	\$3,638,000.00	\$547,938.98	31-Dec-24
64	1920-004883	Mistusinne, Resort Village of	Purchase and Install New Play Structure	Purchase a new playground structure for the community playground, providing the children of the community with a safe place to play. The structure will include a slide and climbing ramp.	Recreational Infrastructure	\$11,983.89	\$0.00	15-Aug-24
65	1920-004926	Eyebrow, Village of	Improve Energy Efficiency of Community Rink	Install two energy efficient water heaters and a new furnace; retrofit three doors and upgrade exterior siding of the community rink to improve the energy efficiency of the structure.	Community Energy Systems	\$25,000.00	\$0.00	30-Jun-26
66	1920-004930	North Battleford, City of	Standalone Study - Alternative Energy - Recreation Facilities and Waste Water Treatment Plant - Phase 1 Feasibility Study	The City is moving forward with a feasibility study to look at using alternative energy sources to reduce greenhouse gas emissions and overall power consumption at major City facilities within North Battleford. This may include renewable energy infrastructure such as solar panels, co-generation, food waste converter and others. Energy upgrades to be installed at recreation facilities and the City's wastewater treatment plant beginning in 2021, resulting in the reduction in the use of power sources that are greenhouse gas intensive.	Community Energy Systems	\$117,634.00	\$0.00	31-Dec-25
67	1920-004957	Craven, Village of	Purchase and Install 140 Water Meters	Install water meters with remote reading systems into approximately 140 homes to effectively monitor and charge for water usage.	Drinking Water	\$150,000.00	\$0.00	31-Dec-26
68	1920-004969	Turtleford, Town of	Complete Asset Management Plan	Complete an asset management plan. The consultant will assist with the council, consultation with the public, define levels of service, develop risk matrix, establish plans and policies to ensure that the town's assets are managed in an efficient and coordinated manner.	Capacity Building	\$100,000.00	\$0.00	31-Dec-26

No.	Project ID#	Ultimate Recipient	Project Title	Project Description	Investment Category	Total Project Cost	Funds (CCBF) Spent in 2024	Estimated Project End Date
69	1920-004970	Richmond, Village of	Install Generator and Replace Six Flow Meters at Water Treatment Plant	Install generator to provide residents with water during power outage and to ensure higher quality drinking water standards with fewer disruptions. Replace six flow meters to ensure accurate reporting to the Water Security Agency and proper treatment of water.	Drinking Water	\$25,560.00	\$0.00	25-Oct-25
70	1920-004992	Hudson Bay, Town of	Landfill Environmental Site Assessment and Leachate Collection and Disposal System	Complete an Environmental Site Assessment on the Hudson Bay solid waste landfill to satisfy requirements by the Ministry of Environment relating to groundwater, geological, hydrogeological and hydrological conditions. This project also includes the design and construction of a Leachate Collection and Disposal System with a leachate collection ditch measuring 11.6 m by 700 lin m.	Solid Waste	\$503,300.00	\$106,090.19	31-Dec-26
71	1920-005000	Assiniboia, Town of	Upgrade Storm Drainage Systems	Storm system from the mid-1960s is unable to handle recent snow melt and rain events. This project will increase capacity of outfalls at 1st Avenue and 2nd Street West and at 1st Avenue and 1st Street East; upsize mains on 2nd Avenue East, 4th Street East, 3rd Avenue East, and Assiniboia Avenue to 450 mm; and, upsize main in Centre Street alley between 3rd and 4th Avenue East to 375 mm. New installations will include a 600 mm trunk in Centre Street, a new 900 mm outfall north of 1st Avenue and new catch basins at Empire Place, 5th Avenue East, 1st Avenue and 2nd Street West.	Wastewater	\$1,838,040.00	\$26,500.00	31-Dec-25
72	1920-005014	Regina, City of	Asset Management Reporting and Planning	State of the Infrastructure Report 2020 will document the City of Regina's current infrastructure portfolio, asset condition and funding challenges when planning for sustainable service delivery. The expected project outcome is to provide administration and council a holistic view of the City's corporate infrastructure portfolio and help to make informed investment decisions to achieve the City's mission to provide reliable and sustainable services. The project identifies long-term investment needs not only for renewal and replacement but for all activities within the assets' lifecycle.	Capacity Building	\$150,000.00	\$0.00	31-Dec-25
73	1920-005048	Nokomis, Town of	Replace 75 Curb Stops	Replace 75 curb stops throughout the community as most are over 40 years old and at the end of their service life. These replacements will help isolate for repair and ensure fewer boil water advisories.	Drinking Water	\$78,000.00	\$0.00	31-Dec-27

No.	Project ID#	Ultimate Recipient	Project Title	Project Description	Investment Category	Total Project Cost	Funds (CCBF) Spent in 2024	Estimated Project End Date
74	1920-005049	Nokomis, Town of	Replace 30 Water Main Valves	Replace 30 water main valves throughout the community as most are over 40 years old and failing. These replacements will help isolate for repair and ensure fewer boil water advisories.	Drinking Water	\$126,000.00	\$0.00	31-Dec-27
75	1920-005060	Green Lake, Northern Village of	Green Lake Water Treatment Plant Solar Project	Install 56.98 kW full solar system inclusive of solar panel installation, racking, wiring, electrical permits, system drawings, SaskPower forms and commissioning, all required to install and operate a solar photovoltaic (PV) system. The system will be installed adjacent to the water treatment plant. The main objective is to reduce the cost of utilities related to water plant operations and to support a renewable resource for energy.	Community Energy Systems	\$150,000.00	\$0.00	30-Oct-25
76	1920-005073	Good Lake, Rural Municipality of	Asset Management Program - Road Segmentation and Building Categorization	Hire consultant to assist with gathering data on roads, bridges and culverts; assisting with the policy development, asset management planning and strategies; updating asset registry; and training employees and councillors.	Capacity Building	\$25,000.00	\$0.00	31-Dec-25
77	2021-005087	Climax, Village of	Replace 20 Curb Stops	Replace 20 curb stops throughout the village to ensure there are functioning curb stops allowing for turn-off as required.	Drinking Water	\$20,000.00	\$1,968.93	31-Dec-28
78	2021-005097	Wee Too Beach, Resort Village of	Replace Wee Too Beach Boat Dock and Swim Buoys	Upgrade beach facilities by replacing the Wee Too Beach boat dock with one that measures 1.22 m wide x 17.07 m long and purchasing 20 swim buoys to replace the current buoys that do not meet current safety regulations.	Tourism Infrastructure	\$15,000.00	\$0.00	26-Oct-25
79	2021-005101	Love, Village of	Relocate Water Treatment Plant Valves, Piping, Drain and Install Back-Up Generator	Relocate water treatment plant system control valves, piping and backwash drain from under the floor to above the floor of the plant building to ensure that all the controls are kept safe from flooding, corrosion and are made easily accessible to the operator. A back-up generator was also purchased and installed.	Drinking Water	\$19,500.00	\$3,959.10	1-May-25
80	2021-005102	Sedley, Village of	Upgrade Sedley Community Spray Park	Installing eight light fixtures in the spray park's change room/bathroom, erecting a 4.27 m x 3.66 m gazebo, adding two tables and landscaping approximately 4,500 sq m of the park. Solar lights will also be added to add brightness to the space at night. The gazebo and tables are all permanent fixtures.	Recreational Infrastructure	\$44,048.81	\$35,234.88	31-Mar-25
81	2021-005117	Tantallon, Village of	Resurface 399.8 m of Main Street	Resurface 399.8 m x 6.72 to 9.2 m of Main Street with 76 mm asphalt that includes scarifying and shaping subgrade, compacting subgrade and adjusting sewer manholes.	Local Roads and Bridges	\$257,000.00	\$29,016.76	26-Jun-24

No.	Project ID#	Ultimate Recipient	Project Title	Project Description	Investment Category	Total Project Cost	Funds (CCBF) Spent in 2024	Estimated Project End Date
82	2021-005136	Turtle View, Resort Village of	Upgrade 2.74 km of Grid 697 and Install a 500 mm x 18.5 m Culvert	Upgrade about 2.74 km of Grid 697 by rehabilitating the road surface including excavation and restoration to the substrata in some locations, and by replacing one 500 mm x 18.5 m culvert and the substrata around the culvert. A subsurface water collection system may be established to provide long-term removal of excess substrata water and asphalt will be replaced in this area.	Local Roads and Bridges	\$81,300.00	\$0.00	31-Oct-26
83	2021-005140	Surprise Valley, Rural Municipality of	Procure Gravel to Rebuild Highways 18 and 28	The RM of Surprise Valley No. 9 has partnered with the Ministry of Highways and Infrastructure and the RMs of Souris Valley No. 7, Lake Alma No. 8, and Laurier No. 38 to rebuild Highway 18 between Oungre and Minton, as well as Highway 28 between Lake Alma and Radville. The RMs contributing to this project are responsible for the acquisition of gravel for use along the highway according to the specifications set out by highway engineers.	Highways	\$1,156,000.00	\$67,562.20	31-Dec-25
84	2021-005146	Kelvington, Town of	Replace 5.53 km of Water Lines	Replace approximately 5.53 km of water lines through the town with 19 mm PVC lines to continue providing potable water to residents. Includes related pavement replacement.	Drinking Water	\$500,000.00	\$23,063.35	31-Dec-29
85	2021-005164	Clayton, Rural Municipality of	Develop Official Community Plan	In support of asset management, hire a contractor to complete our Official Community Plan which will complete our planned long term asset growth and commitment to community.	Capacity Building	\$30,000.00	\$0.00	1-Aug-26
86	2021-005166	Clayton, Rural Municipality of	Develop an Asset Management Plan	Hire consultant to assist with the development of an asset management plan which consists of itemizing all of the municipalities assets including condition and useful life. Have staff attend asset management training sessions in order to aid with development of new asset management plan. Costs for the project will include staff training.	Capacity Building	\$45,467.40	\$0.00	31-Mar-26
87	2021-005189	Gerald, Village of	Water Infrastructure Upgrades	Replacement of water lines from the current well to village residents for safe drinking water. Approximately 7 km of new PVC pipe is required. In addition to replacing the existing water lines, the village will be replacing ten curb stops and installing a back-up pump and generator for the well.	Drinking Water	\$150,000.00	\$3,115.61	21-Oct-25
88	2021-005196	Beaver River, Rural Municipality of	Replace Sonntag Bridge	Replacing old bridge with new single span 6.096 m x 8 m wooden bridge.	Local Roads and Bridges	\$200,000.00	\$0.00	31-Oct-27

No.	Project ID#	Ultimate Recipient	Project Title	Project Description	Investment Category	Total Project Cost	Funds (CCBF) Spent in 2024	Estimated Project End Date
89	2021-005222	Rose Valley, Town of	Replace 14 Hydrants throughout the Town	Replacement of 14 hydrants over a ten-year span. The 14 hydrants were originally installed in 1962 and will be replaced with new hydrants including gate valves, couplers, and piping. The water line system is flushed in early spring and late fall using the hydrant system to remove sediment from water lines. Sediment removal improves water quality by reducing turbidity and eliminating degradation of taste and odor.	Drinking Water	\$170,000.00	\$37,210.07	31-Dec-26
90	2021-005223	Avonlea, Village of	Complete Landfill Decommissioning and Build Transfer Station	Environmental site assessment of the current 90 m x 90 m landfill to determine the level of effort required to close and decommission the landfill including, drilling test holes, groundwater monitoring and sampling. Once assessment is complete a transfer station feasibility study and preliminary design will be completed, site closure and decommissioning plan will be developed. Transfer Station and all costs related to it have been removed from project.	Solid Waste	\$856,400.00	\$5,476.65	31-Dec-25
91	2021-005224	Invermay, Village of	Replace 148 Water Line Curb Stops	Replace 148 curb stops. When water line repairs are done to a residence or business the entire line is shut down for the repairs due to curb stops that are no longer functioning. This results in a precautionary drinking water advisory being issued for an entire section of the village not just the one location where the work is done. This also has other costs incurred by additional water testing to rescind the advisory.	Drinking Water	\$43,173.64	\$1,892.10	1-Jul-26
92	2021-005249	Star City, Rural Municipality of	Clay Cap 0.8 km Road at SSE 13-45-17-W2	Clay will be applied to the road to cover protruding rocks as well as a gravel base on top for total distance of 0.8 km to create a safer road to travel on and to extend the life of the road.	Local Roads and Bridges	\$29,000.00	\$0.00	31-Dec-27
93	2021-005250	Star City, Rural Municipality of	Clay Cap 0.8 km Road at SSW 13-45-17-W2	Clay will be applied to the road to cover protruding rocks as well as a gravel base on top for total distance of 0.8 km to create a safer road to travel on and to extend the life of the road.	Local Roads and Bridges	\$29,000.00	\$0.00	31-Dec-27
94	2021-005251	Star City, Rural Municipality of	Clay Cap 0.8 km Road at SSW 14-45-17-W2	Clay will be applied to the road to cover protruding rocks as well as a gravel base on top for total distance of 0.8 km to create a safer road to travel on and to extend the life of the road.	Local Roads and Bridges	\$29,000.00	\$0.00	31-Dec-27
95	2021-005252	Star City, Rural Municipality of	Clay Cap 0.8 km Road at SSE 26-43-17-W2	Clay will be applied to the road to cover protruding rocks as well as a gravel base on top for total distance of 0.8 km to create a safer road to travel on and to extend the life of the road.	Local Roads and Bridges	\$29,000.00	\$0.00	31-Dec-27

Local Roads and Bridges	\$29,000.00	\$0.00	31-Dec-27
100	2021-005257	Star City, Rural Municipality of	Clay Cap 0.8 km Road at SSE 27-43-18-W2	Clay will be applied to the road to cover protruding rocks as well as a gravel base on top for total distance of 0.8 km to create a safer road to travel on and to extend the life of the road.	Local Roads and Bridges	\$29,000.00	\$0.00	31-Dec-27
101	2021-005286	Strongfield, Village of	Upgrade Water Treatment Plant Building	The water treatment plant has some necessary upgrades to mitigate risks to water treatment operations. A new furnace, vinyl siding, rigid foam insulation, two windows and two doors will be installed to improve the building's operations.	Drinking Water	\$18,834.40	\$13,594.82	15-Nov-24
102	2021-005295	Wapella, Town of	Upgrade 16 Water Main Valves	Replace 4 main water valves and any associated valves each year for 4 years to prevent water leaks which are costly, time consuming, and inconvenient to the residents.	Drinking Water	\$87,089.16	\$0.00	30-Sep-25
103	2021-005298	Kenaston, Village of	Replace 11 Water Meters, 150 Curb Stops and 10 Main Valves	Replace six residential and five commercial water meters and 150 curb stops that were not replaced in the previous phase. Also, replace ten main shut off valves for various sections of the community.	Drinking Water	\$103,045.60	\$6,790.43	31-Dec-27
104	2021-005305	Douglas, Rural Municipality of	Upgrade Richard Community Hall	Upgrade Richard Community Hall to improve energy efficiency and increase usage. The following will be retrofitted: two energy efficient furnaces, an energy efficient water heater, 127 m of LED lighting strips, two double and two single doors, six windows and bathroom fixtures will be replaced.	Recreational Infrastructure	\$50,200.00	\$0.00	30-Sep-25
105	2021-005331	Terrell, Rural Municipality of	Reconstruct Ormiston Road	Reconstruct 4 km of road with clay capping and gravel to a surface that is 3.5 km by 9 m to accommodate primary weight traffic on 713 Grid and 717 Grid. Includes removal of 28 and install of 30 culverts, and installation of rip rap, silt fence, erosion control blanket and geotextile fabric.	Local Roads and Bridges	\$278,952.88	\$165,318.65	28-Jun-24

No.	Project ID#	Ultimate Recipient	Project Title	Project Description	Investment Category	Total Project Cost	Funds (CCBF) Spent in 2024	Estimated Project End Date
106	2021-005333	Abernethy, Rural Municipality of	Decommission Nuisance Grounds	Complete a soil assessment, site survey, groundwater assessment, hydrogeological assessment and hire a drilling contractor to help complete phase II of decommissioning the municipal nuisance grounds. Costs include labour as well as the listed assessments.	Solid Waste	\$25,150.00	\$0.00	31-Oct-26
107	2021-005351	Lucky Lake, Village of	Replace and Convert 160 Water Meters to Remote Reader Systems	This project will replace 160 water meters in village households, of which over 90 per cent have inefficient and/or failing water meters. The remote metering system will replace the current task where operations staff manually read water meters and office staff manually enter those readings into the utility billing system.	Drinking Water	\$77,500.00	\$0.00	31-Dec-25
108	2021-005368	Antelope Park, Rural Municipality of	Reconstruction of 30 km of Highway 317	Approximate 30 km of Highway 317 running through the RM is being reconstructed/rehabilitated to an appropriate grid road standard. There are a number of areas that need to be reconstructed due to the road being worn down to the base, while other areas will need minor construction work. Work is being administered by the municipality with the Ministry of Highways and Infrastructure funding a portion.	Highways	\$4,946,609.00	\$0.00	31-Dec-24
109	2021-005369	Milton, Rural Municipality of	Reconstruction of 16 km of Highway 317	Approximately 16 km of Highway 317 running through the RM is being reconstructed/rehabilitated to an appropriate grid road standard. There are a number of areas that need to be reconstructed due to the road being worn down to the base, while other areas will need minor construction work. Work is being administered by the municipality with the Ministry of Highways and Infrastructure funding a portion.	Highways	\$2,653,391.00	\$0.00	31-Dec-24
110	2021-005377	Roche Percee, Village of	Resurface Road and Replace Culverts at Souris Street and Highway 39 Connector	Resurface road and replace culvert at Souris Street and Highway 39 connector. Reconstruct 602 m x 16 m of Centre Street by roto-mixing existing asphalt, reshaping crown, compacting existing material and applying a dust suppressant. Culvert was upgraded to two 1,200 x 2.8 mm x 4 m and two 1,200 mm x 2.8 mm x 5 m with couplers. The height of the road, base and sub base did not change. The road (approximately 11,200 sq m) will be resurfaced with single chip seal.	Local Roads and Bridges	\$34,980.00	\$34,980.00	30-May-24
111	2021-005392	Richard, Village of	Installation of Pathway Lighting	Installation of pathway lighting to allow for the safety of activity of residents and visitors using sidewalks and street paths after dark. Three street lights will be situated in expanded areas.	Local Roads and Bridges	\$9,759.22	\$0.00	30-Jun-26

No.	Project ID#	Ultimate Recipient	Project Title	Project Description	Investment Category	Total Project Cost	Funds (CCBF) Spent in 2024	Estimated Project End Date
112	2021-005397	Calder, Village of	Install Seven Curb Stops	Install curb stops in seven locations in the village to facilitate water shut offs. When the water infrastructure was added to the village, no curb stops were installed. This makes it impossible to control the shut down of sections of the village for infrastructure repair without shutting down the water plant itself, causing a boil water advisory to be issued for the community.	Drinking Water	\$28,000.00	\$0.00	31-Mar-26
113	2021-005401	Prairie Rose, Rural Municipality of	Decommission Jansen Landfill at NW 31-32-19-W2	Decommission existing landfill cell 900 m x 200 m by removing unacceptable refuse, compacting and clay capping to the proper slope, dig test holes and add vent hole. This landfill has been replaced with a transfer station. Village of Jansen has split costs on this providing \$150,000.00 with \$62,083.35 from CCBF.	Solid Waste	\$150,000.00	\$0.00	24-Mar-25
114	2021-005413	Punnichy, Village of	Replace Four Hydrants	The hydrant replacement project will involve excavating, removing old hydrants and valves, installing four new hydrants and valves, backfilling and laying gravel for levelling the area around each hydrant. The new equipment will improve service capacity and provide quality output of water in four sections of the village.	Drinking Water	\$60,335.00	\$0.00	30-Nov-25
115	2021-005415	Ebenezer, Village of	Install 12 Curb Stops on First and Second Avenues	Install 12 curb stops to the households on First and Second Ave, which do not currently have one, enabling us to shut off water to any household during water leaks or nonpayment of utility bills.	Drinking Water	\$22,330.98	\$19,140.38	31-Jul-24
116	2021-005418	Goodeve, Village of	Decommission Landfill	Consult with an engineer to assist in closing and decommissioning the municipal landfill in accordance with the Saskatchewan Environmental Code. Including groundwater monitoring and environmental assessment. The landfill measures approximately 8,255.59 sq m.	Solid Waste	\$30,000.00	\$0.00	31-Oct-28
117	2021-005424	White City, Town of	Multi-Use Pathway Network Improvement Project 2020-2024	This Multi-Use Pathway Network Improvement project will address the multi-use pathway gaps and enhance pedestrian accessibility/mobility on existing arterial and collector streets that lack adequate infrastructure to support the pedestrian friendly environment of the Town of White City. Approximately 2,716 m of pathways will be constructed in five areas of the pathway system with an average width of 1.5 m and thickness as follows: 150 mm compact subgrade, 100 mm granular base, 50 mm HMAC geotextile.	Local Roads and Bridges	\$715,357.00	\$35,886.90	31-Dec-28

No.	Project ID#	Ultimate Recipient	Project Title	Project Description	Investment Category	Total Project Cost	Funds (CCBF) Spent in 2024	Estimated Project End Date
118	2021-005429	Kelliher, Village of	Decommission Former Waste Disposal Grounds	Completion of an environmental site assessment on the village's inactive landfill, as well as development of a corrective action plan. Groundwater monitoring will also be required as per direction from the Ministry of Environment. The landfill itself measures 160 sq m while the property it occupies measures 0.023 sq km.	Solid Waste	\$65,000.00	\$4,225.00	31-Oct-27
119	2021-005447	Willow Creek, Rural Municipality of	Replace Two Culverts at NNE and NNW 24-47-18-W2	Replace a 1500 mm x 21 m CSP culvert and a 1500 mm x 18 m CSP culvert to maintain the integrity of Grid 789 (Coxby Road). This will involve various heavy equipment to dig out the old culverts and install the new culverts to the proper standard.	Local Roads and Bridges	\$35,573.87	\$7,573.87	31-Mar-25
120	2021-005471	Rhein, Village of	Decommission Landfill	Decommission the 0.01258 sq km landfill. Costs for the project include an environmental study, project management and reporting, labour and equipment for testing, analytical reporting, groundwater monitoring, as well as the final reclamation stages of the landfill.	Solid Waste	\$83,068.65	\$12,000.00	1-May-26
121	2021-005476	Raymore, Town of	Waterline Extension from 1st Avenue to Railway Avenue	Extension of the waterline under the CN track to extend water service to the south side of the municipality towards Railway Avenue. It will involve installation of a 200 mm x 1,075 m HDPE water main, a 150 mm x 225 m HDPE water main, and associated hydrants and valves.	Drinking Water	\$170,238.84	\$104,980.92	13-Nov-24
122	2021-005479	Air Ronge, Northern Village of	Upgrade Heritage Park	Upgrade Heritage Park by adding various play structures, constructing a 1,450 sq m parking lot (with eight curb stops installed along the side), adding permanent cook stations and picnic tables to the picnic areas, and completing necessary landscaping including tree clearing, grading to ensure adequate drainage, removal of old dirt road, and planting new grass.	Recreational Infrastructure	\$520,000.00	\$0.00	31-Dec-25
123	2021-005482	Battle River, Rural Municipality of	Repave 6.38 km of Old Highway 4	Repave the remaining 6.38 km of the old Highway 4.	Local Roads and Bridges	\$1,186,400.00	\$84,800.08	31-Oct-29
124	2021-005503	Rouleau, Town of	Resurface 100 Block of Main Street	Resurface 100 block of Main Street. Work will include lift of asphalt on 170 m of road.	Local Roads and Bridges	\$642,000.00	\$0.00	30-Sep-26
125	2021-005525	Kincaid, Village of	Upgrade Furnace at Fitness Centre	Upgrade existing furnace at the fitness centre to reduce operating costs and improve the quality of output.	Community Energy Systems	\$4,847.00	\$0.00	31-Mar-28
126	2021-005531	White Fox, Village of	Upgrade Sewage Pump System	Replace two sewage pumps to increase capacity and efficiency. The current pumps are undersized and past their service life. A new tin-sided building measuring 7.32 m x 7.32 m will be built with installation of an emergency power generator to address outages resulting from extreme weather events.	Wastewater	\$128,051.97	\$21,170.96	31-Dec-24

No.	Project ID#	Ultimate Recipient	Project Title	Project Description	Investment Category	Total Project Cost	Funds (CCBF) Spent in 2024	Estimated Project End Date
127	2021-005553	Fertile Belt, Rural Municipality of	Resurfacing 1.2 km of Pavement on Grid 637	Resurface 1.2 km of Grid 637 from the outskirts of Esterhazy going south. Includes applying a 50 mm pavement lift on a 9 m road top.	Local Roads and Bridges	\$100,700.00	\$100,700.00	7-Jun-24
128	2021-005580	Chorney Beach, Resort Village of	Flood Proofing Phase 2	Upgrade and reinforce existing retaining walls on Lakeshore Drive and placing large rock in areas that no retaining wall was completed in the event that the water raises again to protect water system and septic tanks.	Wastewater	\$25,000.00	\$17,808.00	30-Sep-25
129	2021-005592	Cupar, Town of	Upgrade Eight Water Main Shut-Off Valves	Install eight water main isolation valves so that select maintenance work can take place without disrupting water service to the entire community. Location: two along Highway 22, between Donald Street and Stanley Street; one at Lansdowne Street and Qu' Appelle Avenue; one at Lansdowne Street and Railway Avenue; one at North end of Donald Road; one at South end and Donald Road: two on Grey Street (Highway) and Grey Street and Qu' Appelle Avenue.	Drinking Water	\$121,492.52	\$86,070.37	30-Nov-24
130	2021-005617	Quinton, Village of	Community Hall Renovations and Energy Efficiency Upgrades	Community Hall renovations and upgrades to lighting, water heater, furnace, and hall kitchen window.	Community Energy Systems	\$12,000.00	\$0.00	31-Dec-26
131	2021-005664	Asquith, Town of	Fire Hall - Phase 2 - Energy Efficiency	The fire hall addition is being done in phases, with the energy efficiency being phase 2 and includes in-floor heating, boiler system, and poured cement floor. This will reduce energy use and overall operational costs. Fire hall is 367.7 sq m.	Community Energy Systems	\$600,000.00	\$0.00	30-Sep-25
132	2021-005674	Archerwill, Village of	Construct Local Campground and Road	On the south side of town, west of Highway 35, a 121.9 m x 7.3 m gravel access road will be constructed along the north side of the bush. New campsites will be created by cutting into the bush to remove trees, have clay and gravel put down and the ground levelled to create three to six camping sites. This new campground will be available for tourists to stay during summer and act as a tourist attraction for the community.	Tourism Infrastructure	\$27,561.42	\$11,921.51	30-Jun-25
133	2021-005675	Archerwill, Village of	Install New Water Meter and Curb Stops	Install a water meter at the car wash and install curbs throughout the municipality to allow the village to isolate areas with issues so water does not need to be turned off to the whole village. Ten to 15 curb stops will be installed with this project, with more being installed at a later date.	Drinking Water	\$27,000.00	\$620.10	31-Dec-25
134	2021-005681	Storthoaks, Village of	Install New Culvert on 1st Street West	Installation of a new culvert (1.6 m x 500 mm x 12 m) across 1st Street West, due to water collection staying on the road and causing more road maintenance. With a culvert installed, the water (rain and snow) runoff will no longer sit and deteriorate the street surface.	Local Roads and Bridges	\$1,500.00	\$0.00	1-Jan-25

No.	Project ID#	Ultimate Recipient	Project Title	Project Description	Investment Category	Total Project Cost	Funds (CCBF) Spent in 2024	Estimated Project End Date
135	2021-005685	Storthoaks, Village of	Replace Culverts on Chicoine Avenue and 1st Street East	Remove and replace two 500 mm x 1.6 m x 12 m culverts on Chicoine Avenue and 1st Street East to improve drainage on the roads.	Local Roads and Bridges	\$2,820.52	\$2,820.52	8-Nov-24
136	2021-005691	Goodwater, Village of	Rebuild Access Road at ENE 20-05-13-W2	An access road measuring 1.6 km x 8.6 m will have the existing road surface removed, the base and sub-base built up and a sand seal coating placed on top. This project will improve access to the village and is being jointly completed with the RM of Lomond No. 37.	Local Roads and Bridges	\$242,870.00	\$3,211.75	9-Sep-24
137	2021-005693	District of Lakeland, Rural Municipality of	Realign 1 km of Neis Drive	Road will be realigned to move portions that are currently on private property, incorporate drainage, remove existing curves and widen the road at the same time. One existing culvert was replaced with a 400 mm x 12 m and one 400 mm x 12 m new culvert was installed. The work includes a 2:1 slope to lessen the number of trees that is required to be removed and an alternate drainage plan to filter runoff prior to it reaching the lake.	Local Roads and Bridges	\$257,992.09	\$246,890.96	8-Nov-24
138	2021-005728	Blaine Lake, Rural Municipality of	Upgrade Energy Efficiency of Municipal Office	Upgrade energy efficiency of municipal office including insulating attic, installing about 30 LED light fixtures (upgrading electrical to code), and fans for air movement. Changes for wheelchair accessibility and upgrades to washroom for accessibility will be municipal cost.	Community Energy Systems	\$20,000.00	\$0.00	31-Mar-27
139	2021-005732	Manor, Village of	Water System Assessment and Upgrade	Complete an assessment of water system from the water source, treatment, and distribution system. Based on recommendations, upgrade the water system by rehabilitation of filters, removal and replacement of filter media (all with corrected chemical composition that will work better), addition of various gauges, injectors, valves and sensors and preprogramming of the PLC (Programmable Logic Controller) in order to meet or exceed Canadian Drinking Water Standards and Saskatchewan Water Security Agency requirements. This assessment is required by Water Security Agency.	Drinking Water	\$45,000.00	\$2,289.60	30-Dec-25
140	2021-005754	Cadillac, Village of	Install 52 to 57 Curb Stops	Install curb stops at each property in the municipality. Approximately 57 curb stops will be required in total, with approximately 52 properties currently missing individual curb stops for effective isolated water shut-off. Costs include freight, curb stops, service box and rods, liners, and labour.	Drinking Water	\$50,245.90	\$0.00	31-Dec-25

No.	Project ID#	Ultimate Recipient	Project Title	Project Description	Investment Category	Total Project Cost	Funds (CCBF) Spent in 2024	Estimated Project End Date
141	2021-005805	Patuanak, Northern Hamlet of	Upgrade Well Pumps and Electrical	Replace two pumps, two motors and two control boxes at water treatment plant. This will maintain the water supply and reduce number of water advisories.	Drinking Water	\$22,365.32	\$0.00	31-Dec-25
142	2021-005810	Fort San, Resort Village of	Paving Various Streets and Walking Trail	Project involved paving with 5 cm compacted hot mix the walking trail from the campground to Gordon's subdivision (240 m x 1.8 m) and onward through Fort San (546 m x 1.8 m). Portions of Gordon subdivision were paved and a portion of Lilac Grove repaved with 12.5 mm asphalt.	Local Roads and Bridges	\$37,349.79	\$24,309.25	22-Oct-24
143	2021-005845	Excel, Rural Municipality of	Replace 575 m of Sewer Line in Viceroy Between Dufferin Street and Curzon Street	Replace existing sewer lines with 575 m of 50 mm Poly Pipe sewer line between Dufferin Street and Curzon Street in the Hamlet of Viceroy.	Wastewater	\$30,000.00	\$0.00	31-Oct-25
144	2021-005857	Leroy, Rural Municipality of	Replace Two Bridges on Grid 761 with Culverts	The project will be for the replacement of two 6 m x 9 m bridges with culverts. Two 1,800 mm x 18 m steel culverts on NNE9-35-19-W2 and three 2,300 mm x 18 m steel culverts on NNE 11-35-19-W2.	Local Roads and Bridges	\$1,101,907.00	\$0.00	3-Jul-24
145	2021-005880	Aberdeen, Rural Municipality of	Update Zoning Bylaw and Official Community Plan in Support of Asset Management	Hire an outside firm to review and update the municipality's Zoning Bylaw and Official Community Plan to align with their asset management and strategic plans.	Capacity Building	\$50,000.00	\$8,962.66	31-Oct-25
146	2021-005896	McKillop, Rural Municipality of	Upgrade Sun Dale Water Plant Intake	Replace the intake line to improve the efficiency of the existing water treatment plant and to increase the volume of water being treated. The project involved underwater work, excavating and replacing numerous lines and parts.	Drinking Water	\$313,912.68	\$72,505.80	31-Dec-27
147	2021-005904	Halbrite, Village of	Install Generator at Water Treatment Plant	Install a fixed gas generator as a power back-up in the water treatment plant, eliminating challenges with power outages.	Drinking Water	\$16,510.31	\$16,510.31	20-Dec-24
148	2021-005923	Lost River, Rural Municipality of	Reconstruct 3.2 km of Grid Road at E 17 and 20-32-02-W3	Reconstruct Grid E 17 and 20-32-02-W3 by digging out existing gravel road and reconstructing 3.2km of grid road in its place.	Local Roads and Bridges	\$366,890.00	\$0.00	31-Oct-23
149	2021-005941	Bengough, Town of	Standalone Study - Engineering Study for Lagoon Expansion	Engineering plan to expand lagoon due to increase of wastewater volume from the new reverse osmosis system at the water treatment plant. The costs for this project only include engineering, not construction/labor.	Wastewater	\$300,000.00	\$0.00	27-Aug-27
150	2021-005958	Lipton, Village of	Replace and Upgrade 17 Hydrants	Replace seven non-functioning hydrants and install 10 new hydrants.	Drinking Water	\$216,670.67	\$13,631.60	31-Jul-27

No.	Project ID#	Ultimate Recipient	Project Title	Project Description	Investment Category	Total Project Cost	Funds (CCBF) Spent in 2024	Estimated Project End Date
151	2021-005965	Unity, Town of	Repave Town Roads	Install woven geo-textiles in the roads within the town to solve ground water issues and strengthen the base in order to extend the useful life of the roads. The scope of the project includes: Asphalt removal and disposal (22,931 sq m); wick drains and mirafi geo-textiles (25,305 sq m); asphalt concrete pavement - 35 mm (22,105 sq m) and 50 mm (22,105 sq m). Locations include portions of 1st Avenue West, 4th Avenue East, 2nd Avenue West and 5th Avenue West.	Local Roads and Bridges	\$3,167,778.02	\$408,756.02	31-Dec-26
152	2021-005996	Rosthern, Rural Municipality of	Upgrade 0.4 km of Nichlawa Road at N 32-41-02-W3	Raise 0.4 km of road by 0.6 m and reduce road top width from 8 m to 6.8 m, correct crown and add road gravel.	Local Roads and Bridges	\$48,000.00	\$0.00	31-Dec-25
153	2021-005997	Rosthern, Rural Municipality of	Upgrade 0.3 km of Bergthal Road at W 28-42-02-W3	Raise 0.3 km of road by 0.6 m and reduce road top width from 8 m to 6.8 m, correct crown and add road gravel.	Local Roads and Bridges	\$47,000.00	\$0.00	31-Dec-25
154	2021-005998	Rosthern, Rural Municipality of	Upgrade 3.2 km of Cul De Sac North Road at W 26 and 35-41-02-W3	Upgrade 3.2 km of road, using potash to strengthen and road gravel, correct crown and narrow from 8 m to 6.8 m road top.	Local Roads and Bridges	\$50,000.00	\$0.00	31-Dec-25
155	2021-005999	Rosthern, Rural Municipality of	Clay Cap 0.6 km of Adamiwka Road at W 31-42-03-W3	Apply clay cap and gravel to 0.6 km of Adamiwka Road with a 8.6 m road top width.	Local Roads and Bridges	\$47,500.00	\$0.00	31-Dec-25
156	2021-006000	Rosthern, Rural Municipality of	Reconstruct 2.1 km of Road South of Landfill at W 27 and 34-41-03-W3	Reconstruct 2.1 km of road south of landfill by correcting side slopes and back slopes placing clay capping topped with gravel.	Local Roads and Bridges	\$100,000.00	\$0.00	31-Dec-25
157	2021-006001	Rosthern, Rural Municipality of	Clay Cap 2.7 km of East Blumenthal Road at S 34-40-03-W3	Clay cap and gravel 2.7 km of East Blumenthal Road and narrow road top width from 10 m to 7.4 m.	Local Roads and Bridges	\$100,000.00	\$0.00	31-Dec-25
158	2021-006018	Maple Creek, Town of	Construct New Swimming Facility	Replace the 41 year old recreational centre with a new swimming facility using cast-in-place reinforced concrete. There will be a lap pool (12.5 m x 25 m) with diving stands and a leisure pool (8 m x 16 m) with jets and slide.	Recreational Infrastructure	\$4,060,484.55	\$746,903.18	1-Jun-25
159	2021-006030	Gravelbourg, Town of	Replace 515 Water Meters	Replace approximately 515 water meters throughout the town to ones with electronic readers that can be read remotely.	Drinking Water	\$90,000.00	\$0.00	31-Mar-27
160	2021-006031	Gravelbourg, Town of	Install Storm Sewer Pipe and Backfill Ditch	The town has an open ditch that takes storm water to the river. The Water Security Agency requires that this ditch be enclosed to mitigate the risk to land and to travelers along the highway. Plastic pipe (107 cm N12) will be installed and the 1,500 m long open trench/ditch will be backfilled to grade.	Wastewater	\$721,105.94	\$100,000.00	31-Mar-25

No.	Project ID#	Ultimate Recipient	Project Title	Project Description	Investment Category	Total Project Cost	Funds (CCBF) Spent in 2024	Estimated Project End Date
161	2021-006084	Waseca, Village of	Standalone Study - Engineer and Design Replacement of 826 m of Lagoon Main Line	Complete engineer design for a 150 mm low pressure sewer main to replace existing main lines, for future construction costs and estimates for projects. This new main wastewater line will see the replacement of the deteriorating current 50 mm and 100 mm lines with a new 150 mm diameter line running the length of 826 m.	Wastewater	\$24,550.00	\$0.00	1-Mar-32
162	2021-006094	Beatty, Village of	Installation of Seven Curb Stops	The Village plans to install 7 new curb stops to residential water lines throughout the Village.	Drinking Water	\$11,089.78	\$0.00	31-Dec-25
163	2021-006121	Estevan, City of	Upgrade Pumps and Electrical at Smith Street Reservoir	Replace the main breaker, motor control centre, and old variable and constant speed motor drive. Also, replace the pumps with two variable speed motors and smaller pumps that would work in a lead lag situation to increase efficiency of the Smith Street Reservoir and make the facility more energy efficient.	Drinking Water	\$600,000.00	\$73,680.81	31-Dec-25
164	2021-006126	Alvena, Village of	Uncover, Upgrade and Extend Seven Manholes	Expose and raise seven manholes leading to lagoon that were buried under the farm land.	Wastewater	\$29,643.63	\$0.00	31-Aug-26
165	2122-006130	Willow Creek, Rural Municipality of	Upgrade Fairy Glen Bridge at ESE 03-47-18-W2	Upgrade three primary abutment piles, upgrade 18 pier piles, and replace missing or severely damaged pier planking and six stringers. Additionally, restore four wing wall piles and embankments and armor with riprap.	Local Roads and Bridges	\$597,300.00	\$0.00	31-Mar-26
166	2122-006131	Willow Creek, Rural Municipality of	Upgrade Norwood Bridge at NNE 34-45-16-W2	Upgrade five pier piles and replace missing or severely damaged pier planking.	Local Roads and Bridges	\$184,176.50	\$13,276.50	31-Mar-26
167	2122-006142	Lang, Village of	Upgrade Water Distribution Line in Water Treatment Plant	Install a main distribution line in order to establish a secure and contaminant-free distribution of water from the raw water supply to the treated water supply.	Drinking Water	\$13,866.05	\$0.00	31-Mar-29
168	2122-006162	Fosston, Village of	Install Three Hydrants	Install three new hydrants within the village. The expected outcome is maintaining high quality water delivery by enabling adequate flushing of the system. The hydrant system will remove sediment from the water lines. Sediment removal improves water quality by reducing turbidity.	Drinking Water	\$30,000.00	\$0.00	30-Sep-25
169	2122-006178	Ernfold, Village of	Construct New Cell and Perimeter Fencing at Landfill	Installation of a 30.5 m x 2.4 m perimeter containment fence, and construction of a new 378 cu m (18 m x 6 m x 3.5 m) waste cell.	Solid Waste	\$30,000.00	\$0.00	31-Oct-25
170	2122-006179	Coulee, Rural Municipality of	Upgrade Office Building Energy Efficiency	Replace eight windows, back door, basement door, and add siding with insulation on exterior.	Community Energy Systems	\$65,000.00	\$0.00	31-Dec-25
171	2122-006222	Pilger, Village of	Upgrade Two Furnaces in Recreation Centre	Replace two old furnaces in the recreation centre to more energy efficient furnaces.	Community Energy Systems	\$14,000.00	\$0.00	31-Jul-25

No.	Project ID#	Ultimate Recipient	Project Title	Project Description	Investment Category	Total Project Cost	Funds (CCBF) Spent in 2024	Estimated Project End Date
172	2122-006237	Golden Prairie, Village of	Standalone Study - Landfill Decommissioning Assessment and Engineering	In preparation of decommissioning the landfill and converting it to a transfer station an engineering assessment had to be completed. Once complete, the process to decommission the landfill and construct a transfer station will begin.	Solid Waste	\$37,651.50	\$9,250.00	31-Dec-25
173	2122-006245	Radisson, Town of	Upgrade Lagoon	The upgrade project will consist of locating a new site for the lagoon, conducting fieldwork investigations, and redesigning the lagoon expansion for a new cell.	Wastewater	\$1,400,000.00	\$250,233.12	31-Dec-26
174	2122-006255	McKillop, Rural Municipality of	Develop Sun Dale Drinking Water Fill Station	Install a drinking water fill station at the Sun Dale water treatment plant including vacuum breaker, expansion of water treatment facilities, an all weather outdoor payment system and a distribution meter. Increasing capacity to supply drinking water to residents and ratepayers.	Drinking Water	\$79,500.00	\$0.00	31-Dec-26
175	2122-006259	Jans Bay, Northern Hamlet of	Upgrade Outdoor Skating Rink	Construction of a 5 m x 5 m cement pad, 4.8 m x 4.8 m building for two separate warming shelters, power supply, heating, and approximately 24 m of fencing around the building.	Recreational Infrastructure	\$80,303.14	\$20,198.93	31-Mar-24
176	2122-006261	Waldron, Village of	Upgrade Waldron Hall Building	Upgrade Waldron Hall by improving building envelope, insulation and siding, and replacing one door. The structure is 255 sq m. The work involves installation of house wrap, strapping, alum drip flashing, sealant, and town hall sign.	Recreational Infrastructure	\$29,875.47	\$0.00	31-Mar-25
177	2122-006276	Tramping Lake, Village of	Renovate Tramping Lake's Hall	Renovate the Village of Tramping Lake's hall. The project will involve replacing the front door, four toilets, and two sinks. Additionally, the bathroom and stage area flooring will be replaced with vinyl plank flooring.	Recreational Infrastructure	\$7,000.00	\$0.00	31-Dec-25
178	2122-006277	Tramping Lake, Village of	Replace 10 Water Shut-off Valves	Replace 10 water shut off-valves that are currently not operational.	Drinking Water	\$20,000.00	\$0.00	31-Dec-25
179	2122-006311	St. Philips, Rural Municipality of	Replacement of Culverts	Replace two old culverts measuring 1.2 m by 15.2 m each with one new culvert measuring 1.8 m by 15.2 m. Anticipated outcomes include increased capacity and estimated service life, and reduced travel distance.	Local Roads and Bridges	\$12,963.37	\$12,963.37	23-Sep-21
180	2122-006353	Ituna, Town of	Replace Ituna Community Arena Building Shell	Replace the shell of the 40.8 m x 73.2 m x 6.1 m arena building structure. The inside of the arena will remain the same. Costs for the project include materials and construction.	Sport Infrastructure	\$954,954.95	\$0.00	31-Jan-24

No.	Project ID#	Ultimate Recipient	Project Title	Project Description	Investment Category	Total Project Cost	Funds (CCBF) Spent in 2024	Estimated Project End Date
181	2122-006370	Nipawin, Town of	Construct Four Dressing Rooms at the Jubilee Arena	Upgrade the existing Jubilee Arena, including the addition of four dressing rooms (each 4.88 m x 7.01 m), for a total area of 445 sq m. Also included in this project is the construction of a corridor, referee's room, mechanical room, lobby, two public washrooms, and a connecting passage. This upgrade will increase the number of users that benefit from the infrastructure and improve the movement of spectators and players within the Centennial Arena.	Sport Infrastructure	\$1,673,528.00	\$0.00	31-Dec-24
182	2223-006411	Archerwill, Village of	Replacement of Water Filtration System	Install three new water filtration systems for the village's drinking water. The main objective and expected outcome is the provision of clean and potable drinking water for the municipality.	Drinking Water	\$27,348.94	\$0.00	31-Dec-25
183	2223-006436	Marriott, Rural Municipality of	Upgrade 8.1 km of Valley Centre Road	The upgrade of 8.1 km of Valley Centre Road involves clay capping the road base to a thickness of 0.46 m. The road is 9.14 m wide with a side slope of 3:1. This upgrade will increase the road capacity.	Local Roads and Bridges	\$102,129.36	\$0.00	30-Nov-27
184	2223-006437	Melville, City of	Expand Municipal Landfill with Two New Cells	The current landfill is reaching capacity and this project will construct two out of six cells in the design. The cells will be constructed of 1 m compacted clay liner and will be 91.3 m x 119.4 m and 91.3 m x 119.3 m in size. The new leachate pond will measure 58.2 m x 84.4 m and includes landfill gas venting pipes, leachate collection system, and leachate storage pond. Also included is a new entry to the landfill, weigh scale, guardhouse and equipment storage building.	Solid Waste	\$5,520,119.00	\$0.00	30-Nov-24
185	2223-006445	Moose Jaw, City of	Renovate 3,300 m Sanitary Sewer Lines	Renovate 3,300 m sanitary sewer pipes. The project includes sanitary sewer CCTV inspections, condition assessments and cured-in-place pipe lining. The lining work will renovate the existing deteriorating pipe by providing a new structural build. The project is to extend the service life of the deteriorating wastewater piping network and minimize inflow and infiltration.	Wastewater	\$3,292,000.00	\$428,367.23	15-May-24
186	2223-006446	Hazenmore, Village of	Upgrade 1,707 m of Road	Upgrade several roads by spreading a new clay base and laying a 5 cm gravel top. The project includes constructing 304.8 m x 6.1 m on each of Herbert Street, Edward Street, William Street, and Wright Street, and 487.7 m x 6.1 m on Phair Avenue. The project will increase the estimated service life of the roads.	Local Roads and Bridges	\$10,400.00	\$0.00	31-Dec-25

No.	Project ID#	Ultimate Recipient	Project Title	Project Description	Investment Category	Total Project Cost	Funds (CCBF) Spent in 2024	Estimated Project End Date
187	2223-006447	Arcola, Town of	Reline Existing Sewer Line	Reline a portion of the existing sewer line on Souris Avenue. The project is to camera and clean 6,400 m of sewer lines in the town and then reline approximately 300 m. The project is running a new sleeve inside the existing clay, asbestos, concrete, or PVC pipe so the transfer of sewage will continue at minimal disturbance to the existing system. The goal is to increase the life of the sewer line infrastructure while limiting damages to roadwork and other assets.	Wastewater	\$371,576.37	\$53,624.52	30-Aug-23
188	2223-006449	Estevan, City of	Upgrade Distribution Pump 3 and Pipes	Replace deteriorating distribution pump with a newer energy efficient pump. Also included in this project is the replacement of feed pipes. This is to ensure a more effective delivery of water.	Drinking Water	\$160,000.00	\$2,752.67	31-Dec-25
189	2223-006453	Saltcoats, Town of	Pave 400 Block Allan Avenue	Remove 30 m x 7 m x 2 m of base area, lay road fabric, replace material and compact to grade. The project will apply 757 m x 21 m asphalt as well.	Local Roads and Bridges	\$141,419.90	\$30,787.07	10-Sep-23
190	2223-006459	Arborfield, Town of	Upgrade Water Pump House	Upgrades to the raw water pump house include removal and replacement with an upgraded electrical panel, larger capacity 7.5 HP pump, Schedule 80 PVC piping to the water treatment plant, and Schedule 80 true union ball valves for each pump. This will allow servicing for the pumps and flushing of the water line.	Drinking Water	\$44,000.00	\$9,165.82	31-Dec-25
191	2223-006460	Edenwold, Rural Municipality of	Develop Asset Management Program	Hire a contractor to develop an asset management database. This will allow tracking current and future assets to help guide asset forecasting, and management planning.	Capacity Building	\$39,134.65	\$19,475.00	31-Dec-24
192	2223-006467	Beauval, Northern Village of	Construct 1 km x 12 m Road at Sagamyak Subdivision	Construct an approximate 1 km x 12 m road at Sagamyak subdivision. Clear brush, shape, construct and gravel road. Includes 500 cu m of clay to cover road and 400 cu m of road gravel. Construction will be on Weesakeets Avenue, Ominuk Street, and Francis Avenue.	Local Roads and Bridges	\$102,816.00	\$0.00	30-Jun-25
193	2223-006495	Excel, Rural Municipality of	Upgrade Ormiston Community Hall	Replace ceiling with suspended ceiling to improve sound proofing and quality. Upgrade 8 x 2.4 m lighting to LED to reduce energy consumption and improve lighting quality. Upgrade electrical, flooring, and walls. The project will ensure the building stays safe and available for community events.	Recreational Infrastructure	\$40,000.00	\$0.00	31-Oct-25
194	2223-006505	Leask, Village of	Replace Water Meters	Purchase and install 200 new water meters, including shut-off valves where required. Includes equipment to read the meters.	Drinking Water	\$120,785.49	\$0.00	31-Jan-24

No.	Project ID#	Ultimate Recipient	Project Title	Project Description	Investment Category	Total Project Cost	Funds (CCBF) Spent in 2024	Estimated Project End Date
195	2223-006513	Excelsior, Rural Municipality of	Upgrade Waldeck Road South	The project is to mulch, shape, pack, remix, and upgrade Range Road 3123 starting at Highway No.1 for 3.2 km south. The length of the road is 2 km and the width 7.3 m.	Local Roads and Bridges	\$53,000.00	\$53,000.00	8-Aug-22
196	2223-006520	Star City, Rural Municipality of	Replace 18.3 m Dancey Bridge at NNE 04-45-18-W2	Remove 18.3 m x 7.3 m timber bridge and replace it with a new bridge of the same size at NNE 04-45-18-W2. Includes timbers, concrete piles, concrete stringers, abutment pile caps, wing wall planking, piers, rip-rap, geo-textile fabric, granular backfill, bridge rails and gravel.	Local Roads and Bridges	\$1,500,000.00	\$0.00	31-Mar-26
197	2223-006527	Norquay, Town of	Replace the Main Water Line on 1st Avenue South	Replace approximately 230 m of water line with PVC water line. This project will include digging up the old line, replacing it with new piping and any necessary connections. Material involved will include PVC water pipes, connectors, sand and gravel to cover the new line. The project will directly service 12 households with capacity to hold more for future builds.	Drinking Water	\$105,000.00	\$33,878.66	30-Jul-25
198	2223-006531	Wallace, Rural Municipality of	Culvert Replacement & Installation Project	The project is to upgrade and replace road culverts at 23 separate locations within the municipality that covers a distance of approximately 340 km.	Local Roads and Bridges	\$361,733.10	\$239,276.10	31-Dec-25
199	2223-006540	Warman, City of	Reconstruct Lift Station 3	Reconstruction involves a total rebuild of lift station 3, including dry well and pump house and all new mechanical and pumps. The project is to increase capacity at the lift station to 75-80 litres per second and to better manage the lift station.	Wastewater	\$5,200,000.00	\$123,546.57	30-Apr-25
200	2223-006546	Kinistino, Rural Municipality of	Upgrade to Energy Efficient Heating and Cooling in Municipal Office	Replace the original furnaces and air conditioning units with energy efficient units in the municipal office. Project includes two 90,000 BTU furnaces and two 2.5 ton air conditioners plus the cost to install required electrical. The project will reduce energy consumption by an estimated ten percent per month.	Community Energy Systems	\$21,750.00	\$0.00	31-Oct-25
201	2223-006551	Star City, Town of	Decommission Landfill	Converting closed landfill site into a licensed compost area. Phase II environmental site assessment is complete and installing two monitors for groundwater samples. The monitors will ensure closure procedures are followed.	Solid Waste	\$130,000.00	\$0.00	30-Jun-26

No.	Project ID#	Ultimate Recipient	Project Title	Project Description	Investment Category	Total Project Cost	Funds (CCBF) Spent in 2024	Estimated Project End Date
202	2223-006552	Star City, Town of	Upgrade Skating Rink	Upgrade the geothermal ice arena. The project will include installing two new overhead doors with a door opener, replacing the entrance carpet, upgrading the concession area with a new countertop (2.54 m x 1.7 m) and flooring, upgrading the public washrooms with new flooring and fixtures, and upgrading the flooring in the dressing room (21.83 sq m). The arena acts as an economic hub of the community. The arena will be utilized for additional summer activities to enhance its potential as a valuable asset to the community. Any upgrades to the arena will benefit the community and contribute to the economic spin-off generated by rink users. This highlights the town's commitment to the long-term enhancement of its significant assets.	Sport Infrastructure	\$36,800.00	\$0.00	1-Nov-24
203	2223-006554	Shamrock, Village of	Decommission Landfill	Complete closure of landfill including environmental site assessment and correction. Develop transfer station for clean wood and metal.	Solid Waste	\$25,000.00	\$0.00	31-Dec-25
204	2223-006563	Orkney, Rural Municipality of	Replace Fandrey Road Bridge	Remove, dispose of, and replace the bridge with a new bridge structure, thereby completing the connection deficiencies on the road. The current bridge is a timber bridge and will be removed and replaced with a prefab concrete eight-meter span bridge and steel guard rails. The waterway will be blocked for the replacement of the piles/piers. Rip rap will be placed around the piles and along the banks to mitigate flow control. The length and width of the bridge are 8 m with a span of 45 sq m.	Local Roads and Bridges	\$1,300,000.00	\$147,000.50	30-Apr-25
205	2223-006565	Lone Tree, Rural Municipality of	Upgrade 3.2 km of North Road	Upgrade 3.2 km of North Road. Construction includes pulling the shoulders, establishing ditches, and narrowing the road surface. The upgrade involves dirt work, gravel placement, and seeding the slope with grass. The entire road is 29 km long with an average width of 8.8 meters. This upgrade will enhance the serviceability of the road and reduce the need for regular maintenance.	Local Roads and Bridges	\$72,040.00	\$0.00	31-Dec-26
206	2223-006566	Lone Tree, Rural Municipality of	Install Five Culverts	Install 5 culverts to reduce the washing away or the roads in the spring due to water run off. Project will include installing culverts, scraper work, gravel and grass seed.	Local Roads and Bridges	\$36,622.37	\$33,461.39	31-Dec-26

No.	Project ID#	Ultimate Recipient	Project Title	Project Description	Investment Category	Total Project Cost	Funds (CCBF) Spent in 2024	Estimated Project End Date
207	2223-006567	Moose Jaw, City of	Replace and Install 16th Avenue North West Water Feeder Mains - Phase 1	The project is along 16th Avenue Northwest from Caribou Street West to Stadacona Street West and involves installation of new 340 m of 300 mm diameter PVC water main replacing the old 450 mm diameter ductile iron pipe and replacement of catch basins (CB) and CB leads. It also includes surface works such as asphalt pavement restoration and installation of concrete sidewalks, curbs, gutters, and pedestrian ramps.	Drinking Water	\$4,200,000.00	\$2,295,219.17	6-Dec-24
208	2223-006569	Caronport, Village of	Replace 240 Water Meters	Replace 240 water meters, 1.6 cm by 1.9 cm, including transmitters. The project will help detect leaks and breakages and ensure accurate water usage records.	Drinking Water	\$76,258.90	\$76,258.90	31-Aug-24
209	2223-006571	Mankota, Village of	Replace 18.3 m of Water Line on Wallace Street and 1st Street	Replace clay water line with plastic pipe for 12.2 m on Wallace Street and 6.1 m on 1st Street. There have been numerous breaks in this area and the project will minimize the breaks and the water disruption to customers.	Drinking Water	\$15,000.00	\$0.00	31-Dec-25
210	2223-006572	Emerald, Rural Municipality of	Reclamation of 3.22 km Grid 639	Reclamation of 3.22 km of Grid 639 by pulverizing 20 to 30 cm of the existing surface, packing the current material back into the road, and gravelling. The current road has an 8.6 m top with a 4:1 slope. The project will increase the estimated service life of the road.	Local Roads and Bridges	\$71,000.00	\$0.00	31-Oct-25
211	2223-006574	White City, Town of	Upgrade Betteridge Road and Emerald Park Road	The portion of Betteridge Road being upgraded is approximately 2.5 km, and the portion of Emerald Park Road being upgraded is about 550 m. In total, over 3 km of road is being upgraded. The road is being widened from 14 m to 32 m and increased from two lanes to four lanes. The road upgrades include the installation of culverts, road reconfiguration, widening, and paving. The project aims to upgrade the serviceability and usability of the current Betteridge Road and Emerald Park Road, which will become the corridor to the new Town Center Development.	Local Roads and Bridges	\$15,048,562.50	\$255,570.64	31-Dec-30
212	2223-006579	Ridgedale, Village of	Upgrade Fire Hall Shingles	Upgrade and enhance the fire halls old shingles with energy-efficient roofing. Metal roofing will improve geothermal heating, extend the useful life of the building, and enhance energy efficiency.	Community Energy Systems	\$8,000.00	\$0.00	31-Dec-26

No.	Project ID#	Ultimate Recipient	Project Title	Project Description	Investment Category	Total Project Cost	Funds (CCBF) Spent in 2024	Estimated Project End Date
213	2223-006580	Lloydminster, City of	Revitalization of Central Business District- Phase 1	The replacement of underground utilities, roadway excavation, and streetscape construction along 50 Street between 49 Avenue and 50 Avenue, including the intersection of 50 Avenue and 50 Street, is the first construction phase associated with implementing the Downtown Area Revitalization Plan (DARP) adopted by the City of Lloydminster Council in 2018. The project's goal is to complete the first phase of an expected multi-year program focusing on bringing the vision of the DARP to reality and revitalizing the downtown core of Lloydminster.	Local Roads and Bridges	\$4,625,000.00	\$0.00	29-Oct-24
214	2223-006581	Drake, Village of	Upgrade Pump at Water Treatment Plant	The project is to replace the obsolete and non-working water treatment pump with a new one. This will ensure continuous water supply to the village as the old one was approximately 12 to 15 years old.	Drinking Water	\$33,367.32	\$33,367.32	31-Oct-22
215	2223-006583	Loon Lake, Rural Municipality of	Replacement of Dopko Bridge	The project involved repairing and replacing the existing Dopko Bridge by installing 2 X 2200 mm X 20 m galvanized CSP culverts with a 2.8 mm wall thickness. The inlet elevation design was 505.50 m, and the outlet elevation design was 505.40 m. Steel end stiffeners were installed on the inlet side of the culverts to withstand heavy ice flows during spring melt. A 4 m clay plug was installed on the inlet side, and the rip rap apron was extended 2.2 m and 130 m past the end of the culverts for a total width of 103 m. The type II rip rap was between 150 to 300 mm in diameter.	Local Roads and Bridges	\$1,000,000.00	\$0.00	31-Aug-27
216	2223-006585	Debden, Village of	Replace Curb Stops and Main Line Water Valves	The project is to replace fifteen curb stops and ten main line water valves to make sure each curb stop is working and to be able to isolate individual breaks to each property as opposed to shutting off the main valves when maintenance is required. Currently some main valves are not working in the community. Because of this, when there is need to shut off the water, it is not as isolated as it could be. More of the community is under an advisory than they would be if each valve was working. Both of these replacements will decrease water advisories within the community.	Drinking Water	\$50,000.00	\$18,392.59	31-Mar-25

No.	Project ID#	Ultimate Recipient	Project Title	Project Description	Investment Category	Total Project Cost	Funds (CCBF) Spent in 2024	Estimated Project End Date
217	2223-006589	Richmond, Village of	Upgrade Water Treatment Plant	The project includes installing and replacing the two pumps, replacing the electrical pump controller, installing one new filter and starters for clean water town pumps, float control, and upgrading control wiring. This project will ensure that the municipality has a low-level pump shut-off in place to trigger the alarm of water issues. The project will also ensure the availability of drinking water, and ensure the water treatment plant runs efficiently.	Drinking Water	\$35,000.00	\$0.00	25-Oct-25
218	2223-006592	Regina, City of	Road and Sidewalk Renewal at Multiple Locations	Rehabilitate roads and sidewalks at multiple places. Over three years from 2021 to 2023, complete street infrastructure renewal projects on 7.3 km x 22 m of expressway roads and 3.6 km of sidewalk; 8.2 km x 14 m of arterial roads and 19.4 km of sidewalk; and 9.7 km x 11 m of collector roads and 14.7 km of sidewalk. Additionally, complete residential road renewal projects on 61.7 km x 11 m of local roads and 14.6 km of sidewalk. The objective is to maintain the transportation network in fair to good condition and have an extended life cycle.	Local Roads and Bridges	\$118,625,369.71	\$16,262,780.42	31-Dec-24
219	2223-006596	Big River, Rural Municipality of	Standalone Study - Stabilize Bodmin Bridge Road	Conduct a feasibility study to identify what is required to stabilize the road west of the Bodmin Bridge road. The study includes site inspection, topographic survey, drainage analysis, and geotechnical investigation, which are required prior to installing a new single span bridge to replace the existing bridge.	Local Roads and Bridges	\$65,190.19	\$32,037.15	30-Sep-24
220	2223-006597	Weyakwin, Northern Hamlet of	Upgrade Kitchen at Parcel C-Rec Center	The project upgraded three existing, eighty percent energy efficient furnaces with new ninety-six percent energy efficient furnaces and included the installation of a Heat Recovery Ventilator. It also included plumbing works performed for the installation of a deep fryer, gas range/grill, range hood, exhaust fan, gas lines, and electrical wiring at the Parcel C-Rec Center.	Recreational Infrastructure	\$41,340.00	\$0.00	6-Jan-22
221	2223-006603	Hyas, Village of	Energy Efficiency Upgrades at Water Treatment Plant	Install one metal clad door and one double thermal 66 cm x 83 cm vinyl slider window at the water treatment plant. This is an upgrade to units installed in 1959 and will decrease energy use, greenhouse gas emissions, and operational costs.	Community Energy Systems	\$1,564.20	\$742.00	30-Nov-24
222	2223-006606	Riverhurst, Village of	Install Standby Generator at Lift Station	Install a generator at the lift station. The generator will be used during periods of extensive power outages or uncontrolled storm events to prevent back-up of sewage into households, possible environmental contamination, public health issues, and property damage.	Wastewater	\$25,323.10	\$7,470.73	12-Sep-24

No.	Project ID#	Ultimate Recipient	Project Title	Project Description	Investment Category	Total Project Cost	Funds (CCBF) Spent in 2024	Estimated Project End Date
223	2324-006617	Piapot, Rural Municipality of	Upgrade Water Distribution Plant	Upgrade the water distribution plant. This project includes the replacement of the existing doors, submersible pump, deteriorating pipes and valves, wall heater, green sand filler mediums, and the installation of a permanent generator to handle power outages. The project will see an increase in efficiency, volume, consistency, and the availability of water to the public.	Drinking Water	\$36,905.98	\$2,715.56	25-Oct-24
224	2324-006623	Dalmeny, Town of	Reconstruct Roads & Replace One Water Main	Due to the high cost of road reconstruction and water main replacement, the town wants to complete street improvements at this time. Also, one water main of 150 mm in size in Dalmeny that was installed circa 1977 will be upgraded prior to the road reconstruction. Victor Terrace Street, which is 310 m in length and 10.36 m wide, will be reconstructed. The details of the work involve road excavation and fill, work to the base, concrete structuring, and asphalt paving.	Local Roads and Bridges	\$2,519,626.10	\$525,192.98	31-Dec-31
225	2324-006625	Redvers, Town of	Construct Second Water Well	Construct new water well (number 5), to be a second water source for the town. Also includes some rehabilitation of the existing well. Costs include water well construct, raw water connection to the supply main, flushing out the adaptor, a pump, a cable riser, and engineering costs. A second water source is required by the Water Security Agency.	Drinking Water	\$713,502.79	\$177,670.18	30-Jun-25
226	2324-006626	Shellbrook, Town of	Improve Pedestrian Lighting on 2nd Avenue West	Install ten new and four converted streetlights to 5500LM LED on 2nd Avenue West, which will help keep pedestrians safe in the municipality as they walk to the hospital. The street is particularly dark during the long winter months and sees much foot traffic heading to and from the hospital.	Local Roads and Bridges	\$46,445.91	\$46,445.91	30-Sep-24
227	2324-006629	Hazenmore, Village of	Install Generator at Village Hall	Installation of a generator at the village hall to supply heat to residents during long term power outages or disasters if they occur. It will protect the residents and provide them with a warm space if needed. It is fixed and the size is 10,000 watts.	Recreational Infrastructure	\$21,253.36	\$21,253.36	31-Oct-24
228	2324-006631	Pangman, Village of	Revitalize Second Ball Diamond	The community plans to revitalize their second ball diamond. The existing fence for the field was old and dilapidated so it has been removed. The municipality plans to replace the fence with chain link (800 ft), posts (approximately 110), staples (full box), 2' x 4' x 12' lumber for top rail (70 pieces), and shale (50 yards).	Recreational Infrastructure	\$7,800.00	\$5,183.15	31-May-25

No.	Project ID#	Ultimate Recipient	Project Title	Project Description	Investment Category	Total Project Cost	Funds (CCBF) Spent in 2024	Estimated Project End Date
229	2324-006633	Vanguard, Village of	Drill New Well for Drinking Water	Drill a new approximately 12 m well, construct a well house with wiring installation, and install a new pump. This project will ensure a constant supply of drinking water and alleviate the risk of well failure.	Drinking Water	\$79,279.72	\$79,279.72	27-Dec-23
230	2324-006634	Milden, Rural Municipality of	Update Zoning Bylaw and Official Community Plan	The municipality will be updating their Official Community Plan (OCP) and Zoning Bylaw (ZB) that were adopted in 2002. This update is highly needed for the RM to move forward with their Asset Management Plan and address the needs of the municipality as it progresses.	Capacity Building	\$23,195.00	\$6,935.00	31-Dec-24
231	2324-006635	Round Valley, Rural Municipality of	Upgrade 1.61 km on Adanac Grid Off Highway 14 North	This project is to upgrade 1.61 km of Adanac Road north to connect with Highway 14. The length of the road is 2.4 km and the width of the road is 9 m at the top with 30.48 m of right away. Dry clay was put on top to clay cap the road, then incorporated with gravel, and finally road gravel was put on to finish it. This road connects with the area where the Adanac Bridge was replaced with culverts. Further it serves many agriculture producers that travel this road to get to our local inland terminals.	Local Roads and Bridges	\$442,868.93	\$124,818.00	31-Oct-21
232	2324-006640	Edenwold, Rural Municipality of	Install SCADA System at the Emerald Park Water Treatment Plant	The Emerald Park Water Treatment Plant is being upgraded to improve control and monitoring of the water system, helping ensure better water quality for residents. The upgrade includes new equipment and software for tracking data and allows full remote control of key systems like pumps, pressure, and alarms. An Android-compatible alarm dialer was also added.	Drinking Water	\$240,075.49	\$138,781.11	31-Dec-24
233	2324-006648	Kelvington, Rural Municipality of	Repair Bridge 212-37-22N	The repairs to Bridge 212-37-22N will include repairing all structural defects critical to keeping the bridge open and the application of preservatives in all pile caps and piles on both abutments to extend the useful life of the bridge. Cobra Rod preservatives will be installed in all pile caps and piles on both abutments. The repair also involves the installation of two pile caps and seven engineered pile clamps; the grinders will be removed and re-installed upon completion. Some fill materials will be placed to reconstruct the embankment, followed by the installation of a geo textile and rip rap. Two cleats, three damaged posts, and three wing wall planks that have been broken off will be replaced. The length of the bridge is 12 m and the width is 8.5 m.	Local Roads and Bridges	\$94,412.60	\$2,104.60	27-Jan-24

No.	Project ID#	Ultimate Recipient	Project Title	Project Description	Investment Category	Total Project Cost	Funds (CCBF) Spent in 2024	Estimated Project End Date
234	2324-006649	Kelvington, Rural Municipality of	Repair Bridge 212-37-10N	The repairs to Bridge 212-37-10N will include repairing all structural defects critical to keeping the bridge open and the application of preservatives in all pile caps and piles on both abutments to extend the useful life of the bridge. Cobra Rod preservatives will be installed in all pile caps and piles on both abutments. One full pile medic and four engineered pile clamps will be installed. The repairs also involve placing fill material to reconstruct the embankment and the installation of a geo textile and rip rap. Two cleats, three damaged posts, and three wing wall planks that have been broken off will be replaced. This type of armoring will prevent the water from undermining the bridge and protect primary piles. The length of the bridge is 12 m and the width is 8.5 m.	Local Roads and Bridges	\$48,286.70	\$15,398.20	27-Jan-24
235	2324-006652	Hazenmore, Village of	Replace Fence and Gate around the Transfer Station	To remove and replace existing fence and gates. The current condition of the fence leaves the transfer station vulnerable to non-compliance issues as someone can go in and leave waste not accepted. The fence and gate around the transfer station would be removed and replaced to keep the transfer station clean and locked from trespassers. The double gate is 457.2 mm wide, and all four sides of the fence are 17.5 ft long.	Solid Waste	\$5,000.00	\$0.00	31-Dec-25
236	2324-006653	Kipling, Town of	Replace Ball Diamond Washroom	This project involves the demolition and replacement of the ball diamond washroom with a new larger washroom facility. The present facility has reached the end of its useful life. The expected outcome is that the new facility will be able to handle larger events. The facility is also open to residents and visitors that use the community walking trail. The approximate size of the new washroom facility will be 20 ft by 15 ft and costs are expected to be approximately \$223 per square foot.	Recreational Infrastructure	\$67,000.00	\$0.00	31-Oct-25
237	2324-006655	Parkside, Village of	Install Gas Furnace and Insulate Shop Door	Install a gas furnace and a shop door that is insulated. The installation is needed to regulate the temperature of the shop and make it possible to perform repair and maintenance work during the winter season.	Community Energy Systems	\$8,000.00	\$0.00	30-Jul-25

No.	Project ID#	Ultimate Recipient	Project Title	Project Description	Investment Category	Total Project Cost	Funds (CCBF) Spent in 2024	Estimated Project End Date
238	2324-006656	Abernethy, Rural Municipality of	Clay Cap Grid 606 (Sintaluta Grid)	Clay cap road leading to Sintaluta Bridge/RM of Indian Head. The municipality will be clay capping approximately 7 miles adjoining the clay cap portion that was completed in 2020. The project involves adding a clay top, packing, and graveling to extend the life of the road. The length of the road is 0.7 miles and width is 26 to 28 feet.	Local Roads and Bridges	\$100,000.00	\$0.00	1-Oct-25
239	2324-006661	Sturgis, Town of	Upgrade Water Treatment Plant	Ultraviolet reactors have been installed with piping, flanges, fittings, and media replacement. The project aims to build a new structure to house the new ultraviolet water treatment plant. All necessary pipe supports will be in place to ensure that the existing building can be removed without affecting the new piping structure. The project also includes a new check valve for the air scour blower, tie-back restraints, and a new combination of air vacuum valves installed on top of three filters.	Drinking Water	\$469,459.85	\$469,459.85	14-Feb-24
240	2324-006667	Albertville, Village of	Shape and Seal Coat Road at Unity Street and St. James Avenue	Shape and oil seal 600 m of road at Unity Street East and 800 m of road at St. James Avenue South to outskirts of village. Also, 3,400 sq m (entirety) of Unity Street West will also be completed. Oil sealant will harden the surface of the road.	Local Roads and Bridges	\$38,147.27	\$0.00	30-Nov-25
241	2324-006671	Edenwold, Rural Municipality of	Clay Cap and Resurface Range Road 2173	Clay cap and resurface Range Road 2173. The road will be upgraded with clay capping and resurfaced to extend its useful life and ensure it remains accessible and safe for the residents of the community. The length of the road is 6.78 km and the width is 8.6 m.	Local Roads and Bridges	\$887,751.53	\$872,528.47	31-Aug-25
242	2324-006672	Edenwold, Rural Municipality of	Pave Pedestrian Pathways in Emerald Park	This project involves paving a new 12 m path connecting an existing residential community on Woods Crescent in Emerald Park to an existing pedestrian path along South Plains Road in Emerald Park. After this project is complete, Woods Crescent residents will have improved access to active transportation infrastructure and will be safer traveling across a busy road. The work that will be done involves excavation of the existing ground, placement of a granular base, and paving. The length of the road to be paved is 45 m and the width is 2 m.	Local Roads and Bridges	\$6,297.75	\$6,297.75	31-Aug-24
243	2324-006673	Edenwold, Rural Municipality of	Rehabilitate Bridge 218-16-19N	The project involved rehabilitating Bridge 218-16-19N to extend its service life. The initial 24 m repair scope was expanded to include an additional 1.22 m of medic wrap on each pier pile to address deficiencies identified during construction.	Local Roads and Bridges	\$128,247.89	\$128,247.89	31-Dec-24

No.	Project ID#	Ultimate Recipient	Project Title	Project Description	Investment Category	Total Project Cost	Funds (CCBF) Spent in 2024	Estimated Project End Date
244	2324-006674	Edenwold, Rural Municipality of	Rehabilitate Bridge 218-16-09E	The project involved rehabilitating Bridge 218-16-09E to extend its service life and ensure safe access for the community. The 24 m bridge repair scope was expanded to include treating and wrapping a 101.6 mm section of rotted pile, replacing a damaged stringer, and installing 45.72 m of new wheel guard due to vehicle impact.	Local Roads and Bridges	\$48,012.75	\$48,012.75	31-Dec-24
245	2324-006679	Rudy, Rural Municipality of	Construction of New Office Building	The project is to construct a new modular office structure that is complete with triple-pane windows, an energy-efficient furnace, energy-efficient lighting, and insulation up to current building standards. The building will help with meeting space availability for community groups, such as the local Conservation District, Water Utility Board, and cultural associations. Additionally, it will accommodate municipal administration and RM Council meeting functions that were previously held in a shared (less available) space.	Community Energy Systems	\$201,580.10	\$201,580.10	30-Dec-24
246	2324-006680	St. Louis, Rural Municipality of	Upgrade Water Meters	The municipality wants to upgrade the water meters to smart meters in Domremy. There are currently 64 active accounts with about 20 meters that need to be replaced. They want to expand the system to all meters and later include the hamlets of Hoey and Bellevue. New smart meters allow remote meter readings, eliminating the need for an operator to go door to door for meter readings. The system also allows ratepayers to monitor their use and identify leaks (water loss).	Drinking Water	\$70,000.00	\$0.00	31-Dec-25
247	2324-006681	Prince Albert, City of	Replace Community Centre Playground and Spray Park	The project entails removing the old spray pad and playground equipment and the construction of a new spray pad. It will also include construction of a new playground including new garbage cans, bench seating, picnic tables, lighting, and security. There will be asphalt completed. Total development for the project site with playground & spray park is to be 4,370 sq ft. Excavation and base prep for spray pad would be 2,376 sq ft. There will be a 431.8 mm excavation to allow for 152.4 mm of sand and 152.4 mm of base and rebar tied at 304.8 mm O.C. Concrete pad to be 127 mm thick, 32MPA, and control joints to be every 254 X 254 mm of all joints to be caulked.	Recreational Infrastructure	\$650,000.00	\$0.00	29-Aug-24

No.	Project ID#	Ultimate Recipient	Project Title	Project Description	Investment Category	Total Project Cost	Funds (CCBF) Spent in 2024	Estimated Project End Date
248	2324-006683	Macnutt, Village of	Upgrade Water Plant Pump	Replace one pressure pump in the Water Treatment Plant and install new electrical connections for the pump. This upgrade aims to maintain essential infrastructure in optimal condition and support the municipality's long-term goal of self-sustainability.	Drinking Water	\$7,354.12	\$7,354.12	20-Jun-24
249	2324-006690	Shellbrook, Rural Municipality of	Rebuild Portion of Airport Road	Rebuilding a portion of Heavy Haul Road. This application would be to cover the tender package from Associated Engineering. The work involves repairing a designated section of the grid road through failure portion repairs, waste excavation, installation of combi grid, and subgrade preparation. The road would be clay capped with 300 mm thickness, traffic gravel would be incorporated into the top 150 mm, and surface traffic gravel would be applied to rebuild and reshape the road. The length of the road is 90 m and the width is 4 m.	Local Roads and Bridges	\$17,800.00	\$0.00	31-Oct-25
250	2324-006695	Rocanville, Town of	Install Water Treatment Backup Generator	Install a natural gas backup generator at the water treatment plant to guarantee potable water in emergency situations when power is off. It is a fixed generator and its size is 50 kW.	Drinking Water	\$67,815.30	\$15,785.79	1-Oct-24
251	2324-006697	Balgonie, Town of	Upgrade Balgonie Ball Diamonds	Improvements to existing softball diamonds including irrigation and dugouts. Improvements and expansion of baseball diamond including irrigation, fence, backstop, dugouts, sod, shale, and landscaping. The project will upgrade the state of three softball diamonds and one baseball diamond with significant improvement. This will increase the number of annual events that can be hosted at these facilities and visitors within the community.	Recreational Infrastructure	\$350,815.07	\$61,342.65	31-Dec-24
252	2324-006698	Excel, Rural Municipality of	Upgrade Verwood Community Hall	Upgrade the Verwood Community Hall by replacing the second half of the roof, which has an old shingle roof and rotten wood underneath it, with new wood and tin. The total roof area that will be replaced is 217.58 sq m, which will allow the building as a whole to heat and cool more efficiently. These upgrades will extend the lifespan of the building and increase the number of users and annual events.	Recreational Infrastructure	\$10,500.00	\$0.00	1-Oct-25

No.	Project ID#	Ultimate Recipient	Project Title	Project Description	Investment Category	Total Project Cost	Funds (CCBF) Spent in 2024	Estimated Project End Date
253	2324-006699	North Battleford, City of	Replace four Signal Light Poles and Traffic Camera	Replace four signal lights that vibrate excessively in the wind. Due to the vibration, one signal light arm was damaged. After inspection by KGS Group consulting engineers, they recommended that all lights, poles and arms be replaced. Install an emergency pre-emption receiver and control panel cabinet. The work will also include new wiring for the intersection lights.	Local Roads and Bridges	\$364,510.98	\$240,986.21	30-Sep-24
254	2324-006700	Key West, Rural Municipality of	Reconstruct Town Planning Road 074	The project is to widen and build-up the road to take it from a seasonal road to an all weather road. There will be clay added to the road base, sourced from the adjacent agricultural land, and then gravel to complete the project. The work will entail cutting out a hill on the adjacent agricultural land, cutting ditches along either side of the roadway, and placing clay in the roadway to widen the road and correct the crown to improve drainage. The length of the road is 3.22 km and the width that is currently 457.2 mm will be widened to 609.60 mm.	Local Roads and Bridges	\$44,149.00	\$44,149.00	23-Jul-24
255	2324-006704	North Battleford, City of	Upgrade Aquatic Center Roof	Upgrade Roof 3 and divide into 6 sections (as opposed to 1 section) to address thermal expansion and contraction issues. Roof 3 and 9 will have taller flashing installed to combat leakage under the membrane from snow build up, and the slope of the insulation under the membrane is being increased to improve the runoff from the roof.	Recreational Infrastructure	\$1,402,084.64	\$604,458.82	30-Sep-24
256	2324-006708	Ridgedale, Village of	Update Zoning Bylaw and Official Community Plan	The project will establish planning documents in support of an asset management plan for the municipality and enhance the strategic framework for regional cooperation. It will also support the alignment of municipal resources and complementary zoning districts, land uses, and policies. The intention is to aim for inter-municipal cooperation and alignment of municipal planning bylaws, as opposed to a regional planning district.	Capacity Building	\$8,311.75	\$488.50	31-Dec-24
257	2324-006710	Bladworth, Village of	Upgrade the Water System	Upgrade the water system by digging a new water well that will adjoin to the existing well to ensure a steady supply of water for the municipality.	Drinking Water	\$46,198.51	\$46,198.51	31-Dec-26
258	2324-006716	Heart's Hill, Rural Municipality of	Pave 6.44 km of Ring Road	Pave 6.44 km of Ring Road. Complete 150 mm of top granular base course followed by 80 mm of hot mix asphalt concrete on an existing gravel road in the municipality. This road serves as a primary pathway that connects two provincial highways.	Local Roads and Bridges	\$6,653,955.90	\$18,939.35	30-Nov-24

No.	Project ID#	Ultimate Recipient	Project Title	Project Description	Investment Category	Total Project Cost	Funds (CCBF) Spent in 2024	Estimated Project End Date
259	2324-006717	Arborfield, Town of	Upgrade Bryden Park	Upgrades to Bryden Park include: electrical upgrade, kitchen upgrade, campground upgrade, and construction of a new concession with covered patio. Expected outcomes would be an improved campground with facilities to attract visitors as well as to host private or public events. Also, a new concession with covered patio provides a venue for sporting events or other cultural events in an outdoor setting.	Tourism Infrastructure	\$64,294.14	\$10,778.05	31-Dec-24
260	2324-006724	North Battleford, City of	Upgrade Rooftop Air Handling Units	The Aquatic Centre replaced its rooftop air handling units. The new unit features redesigned heat exchange for better exhaust efficiencies. The new unit uses 316 stain steel for critical components addressing durability issues compared to the old unit. By doing this, the city is expecting to increase energy efficiency and the life expectancy of the units.	Resilience	\$840,172.82	\$801,595.32	30-Apr-25
261	2324-006725	Regina, City of	Upgrade Ticketing and Fare Collection System	Upgrade and replace the current fare system with an account-based mobile ticketing and fare collection system to improve customer experience and increase ridership by increasing the efficiency, accessibility, and usability of the fare collection system. This cloud-based system will be installed on all our current fleet (123 fixed route transit buses and 34 para-transit buses) and will have a mobile app and secure website. It will be connected to 123 validator units, cash boxes, and antennas to transmit data. Once the new system is in place, customers will be able to pay for bus fare using their phone, debit card, and credit card on the bus. It will also allow customers to visit a website to purchase bus fare or load a pass into their card. This will eliminate the need for a customer to visit a physical location to buy bus fares.	Public Transit	\$1,746,000.00	\$1,500,000.00	31-Dec-24
262	2324-006729	Hudson Bay, Rural Municipality of	Replacement of Municipality Bridge	This project involves the removal of an existing damaged bridge and replacement with a large-diameter culvert. The length of the bridge is 12.2 m and the width is 7.32 m, and it has timber piles, a timber abutment, a timber backwall, and timber stringers. The replacement of the bridge is necessary to provide a safe route for traffic to access residential and agricultural properties within the RM.	Local Roads and Bridges	\$67,110.60	\$67,110.60	31-Dec-22

No.	Project ID#	Ultimate Recipient	Project Title	Project Description	Investment Category	Total Project Cost	Funds (CCBF) Spent in 2024	Estimated Project End Date
263	2324-006733	Holdfast, Village of	Upgrade Heater at the Town Shop	A new, energy-efficient, 100,000 BTU heater is being installed to replace the old one. The shop is used to store the village's newest fire truck. The replacement will save energy for the village, ensure the fire truck works efficiently in cold months, and reduce the overall energy consumption by 40 to 50 per cent while reducing emissions.	Community Energy Systems	\$4,491.95	\$0.00	30-Jun-25
264	2324-006734	Holdfast, Village of	Upgrade Firehall Heating Unit	The project will upgrade the heating unit in the main firehall to reduce overall energy consumption by 40 to 50 per cent and reduce emissions of greenhouse gases. The newly installed heating unit is 45,000 BTU.	Community Energy Systems	\$3,308.05	\$0.00	30-Jun-25
265	2324-006742	Regina Beach, Town of	Replace Sidewalks	Replace sidewalks on the west side of Centre Street (from Triffons to Railway), one block north of the town office brick and sitting area, and the east side of Centre Street from 1st Avenue East to Waterfront.	Local Roads and Bridges	\$157,500.00	\$157,500.00	30-Jun-24
266	2324-006744	Elbow, Village of	Installation of Industrial Subdivision Water Line	Installation of one main industrial water line to connect the subdivision to the village's water system. Also, the addition of 14 water lines to connect each of the 14 lots to the main line. This will ensure the availability of drinking water and increase the number of households served with clean drinking water in the village.	Drinking Water	\$478,449.93	\$170,755.15	8-Jul-24
267	2324-006745	North Grove, Resort Village of	Upgrade Road Surface	Upgrade road surface from gravel and light oil to pavement. The potholes on the road will also be seal-coated to smooth out the road surface for safer travel. The length of the road is 7 km, and the breadth is between 6.70 to 7.62 m.	Local Roads and Bridges	\$63,308.46	\$63,308.46	30-Aug-24
268	2324-006751	Big Quill, Rural Municipality of	Replacement of East Bridge	The project will replace the existing old timber bridge that is in need of repairs to make it usable and safe. The bridge structure will be removed and replaced with 3.05 m diameter steel culverts that are 18 m long to ensure they can handle the same flow as the current bridge. The bridge is 6.1 m long and 6.4 m wide.	Local Roads and Bridges	\$88,754.28	\$88,754.28	4-Nov-24
269	2324-006752	Big Quill, Rural Municipality of	Replacement of North Bridge	The project will replace the existing old timber bridge that is in need of repairs to make it usable and safe. The bridge structure will be removed and replaced with 3.05 m diameter steel culverts that are 18 m long to ensure they can handle the same flow as the current bridge. The bridge is 12.2 m long and 6.4 m wide.	Local Roads and Bridges	\$86,694.28	\$86,694.28	4-Nov-24

No.	Project ID#	Ultimate Recipient	Project Title	Project Description	Investment Category	Total Project Cost	Funds (CCBF) Spent in 2024	Estimated Project End Date
270	2324-006755	Disley, Village of	Insulate the Village Shop Roof	Insulate the village shop's roof and gable ends with approximately 5 cm of medium-density spray-applied polyurethane insulation to decrease energy costs, extend the useful life of the building, and protect the village equipment stored inside.	Community Energy Systems	\$15,317.00	\$15,317.00	6-Aug-24
271	2324-006756	Marquis, Village of	Upgrade Municipal Sewer Lines	Upgrade all sewer lines in the village so that the sewer lift station will be flushed and cleaned, and a video of the lines created. This will give the new council and administration a snapshot of the condition of the lines, allowing them to set a timeline for maintenance and for future preventative flushing.	Wastewater	\$10,048.80	\$10,048.80	15-Aug-20
272	2324-006757	Marquis, Village of	Resurface Main Street and McFadden Avenue	Resurface stretches of Main Street (320m x 30m) and McFadden Avenue (200m x 19.5m) where needed. The work entails patching potholes. This work will provide dust free, surfaced access for Village businesses and residents.	Local Roads and Bridges	\$25,016.00	\$25,016.00	30-Sep-20
273	2324-006759	Rush Lake, Village of	Upgrade 3rd Avenue	Upgrade 3rd Avenue in Rush Lake, which is the main road leading into and through the village. It is also part of a main road in the RM of Excelsior No. 166 that connects Highway 1 to a large rural area to the north. This street is in need of extensive soil and gravel work in order to raise the surface and create better ditches for drainage off the street. Two culverts located under the street will be upgraded to plastic.	Local Roads and Bridges	\$8,287.44	\$8,287.44	14-Nov-24
274	2324-006760	St. Benedict, Village of	Upgrade Local Municipal Roads	The project is to grade the gravel and lay down a dust control adhesive that bonds firmly to leave a smooth finish. Each of the roads is 0.762 m wide by 152.4 m long.	Local Roads and Bridges	\$11,311.20	\$11,311.20	27-May-24
275	2324-006762	Tuxford, Village of	Install a Wireless Water Fill Machine	Install a wireless water-filling machine. The municipality's current water-filling system is analog, coin-operated, energy-sapping, and time-consuming. Installing a wireless system would save residents from non-value-adding processes. The new system includes report generation for administrative purposes, customer profiles, and automatic updates to customers when their refill needs to be topped up. The project aims to increase the number of premises served, improve service delivery to the residents, and improve report generation.	Drinking Water	\$12,739.18	\$7,282.85	10-Jul-24

No.	Project ID#	Ultimate Recipient	Project Title	Project Description	Investment Category	Total Project Cost	Funds (CCBF) Spent in 2024	Estimated Project End Date
276	2324-006763	Stockholm, Village of	Pavement of Village Roads	The project involved adding an extra pavement layer to repair cracks on several roads. Excavation was carried out at four locations for water service repairs and asphalt overlay, with the expected outcome of significantly improving driving conditions. The road width is 7.32 m and its length is approximately 91.44 m.	Local Roads and Bridges	\$16,913.47	\$16,913.47	8-Jun-23
277	2324-006764	Stockholm, Village of	Repairs to Sewer Lines	The main sewer line on Ohlen Street was replaced for the entire half block, and the manhole was also replaced. The project's objective was to conduct spot repairs and reline the majority of sewer lines in the village. The primary goal of this project was to extend the service life of the sewer lines.	Wastewater	\$166,870.00	\$166,870.00	24-Feb-23
278	2324-006765	Smeaton, Village of	Install Five Curb Stops	Install five curb stops to five separate homes within the municipality as there are none. This will give the municipality the ability to shut the water off when needed for emergencies, thereby reducing the chances of water contamination if a break should occur and minimizing boil water advisories.	Drinking Water	\$12,885.48	\$12,885.48	23-Sep-24
279	2324-006766	Smeaton, Village of	Replacement of Furnace at Office	This project is to replace the natural gas furnace with a new energy-efficient one. It will extend the useful life for many years, decrease energy use, and reduce operational costs.	Community Energy Systems	\$6,522.67	\$6,522.67	23-Nov-23
280	2324-006767	Loon Lake, Village of	Upgrade VFD Pressure Transmitter in Water Treatment Plant	This project is to install distribution pump variable frequency drives (VFDs) at the village water treatment plant. The new drives will allow for internal control of the lead/lag function and for the drives to switch automatically, with the lag taking over immediately if the lead fails to start.	Drinking Water	\$8,164.65	\$8,164.65	22-Aug-23
281	2324-006768	Loon Lake, Village of	Acquisition of Regional Waste Landfill	This project is to purchase a regional waste collection and disposal site. It will provide the village with a reduced rate for tonnage hauled and also provide a long-term viable solution for the village's solid waste.	Solid Waste	\$69,080.00	\$0.00	7-Feb-19
282	2324-006769	Liberty, Village of	Install Energy Efficient Heating and Cooling Upgrades to Municipal Buildings	The project involves the installation of energy-efficient heating and cooling systems to facilitate economies of scale. There will be two A/C units in the municipal hall: a 5-ton unit upstairs and a 3.5-ton unit downstairs. Additionally, a 60,000 BTU furnace will be installed in the village office, a 75,000 BTU heater in the fire hall, and a 30,000 BTU overhead heater in the municipal building.	Community Energy Systems	\$30,786.98	\$30,786.98	31-Oct-24

No.	Project ID#	Ultimate Recipient	Project Title	Project Description	Investment Category	Total Project Cost	Funds (CCBF) Spent in 2024	Estimated Project End Date
283	2324-006774	Oxbow, Town of	Phase 2 - Upgrade Water Treatment Plant	Replace the three existing transfer pumps with an energy-efficient, approximately 15 cm pump. This pump hits a peak amount of pressure when the demand for water is there and will shut off when the demand lessens; meanwhile maintaining optimal line pressure, conserving energy, and creating clean water for the water tower. Other components that will be replaced are one stainless steel pump, column couplers, and one stainless steel line shaft coupling. The project will lead to a decrease in drinking water advisories and an increase in the constant supply of clean and protected drinking water to the residents.	Drinking Water	\$92,914.62	\$92,914.62	31-Oct-24
284	2324-006775	Val Marie, Rural Municipality of	Replace Jensen Bridge	Replace the 25.6 m steel truss bridge at NE 29-4-17-W3 with a new steel and precast concrete bridge.	Local Roads and Bridges	\$1,735,669.00	\$220,885.47	31-Dec-24
285	2324-006776	St. Philips, Rural Municipality of	Replace Beck Road Culvert	Replace the approximately 1.2 m x 15 m Beck Road culvert with an approximately 1.5 m x 22 m culvert. This will improve water flow, decrease travel distance, and increase the estimated useful life of the road.	Local Roads and Bridges	\$44,897.18	\$44,897.18	31-Oct-23
286	2324-006777	Paddockwood, Rural Municipality of	Upgrade Gill Bridge	Upgrade a bridge that is currently under weight restrictions. The objective is to repair the structural deflections, which will keep the bridge open and remove the weight restrictions. The upgrade will significantly extend the life of this bridge, allowing community members to save high-traffic bridges.	Local Roads and Bridges	\$120,023.80	\$120,023.80	23-Oct-24
287	2324-006778	Meeting Lake, Rural Municipality of	Upgrade Clay Cap Portion of Puto Road	Upgrade the clay capped portion of the road to accommodate traffic by local ratepayers and other ratepayers from afar, the grain industry, cattle industry, and tourism. The length of the road is approximately 5,000 m, and the width is approximately 7.5 m. The clay capped portion of the road is for safety and to eliminate alternate routes, which saves fuel and reduces greenhouse gas emissions.	Local Roads and Bridges	\$82,814.24	\$51,496.24	30-Nov-23
288	2324-006779	Marquis, Rural Municipality of	Upgrade Correction Line Road	Upgrade the correction line road in the municipality. This 3.2 km long and 1.67 m wide road upgrade will improve and extend the life of the infrastructure in place.	Local Roads and Bridges	\$155,788.20	\$155,788.20	15-May-19
289	2324-006780	Lost River, Rural Municipality of	Upgrade South Allan Grid	Upgrade South Allan Road to address the snow issues that occurred during the winter of 2022. The upgrade should cover a 1.6 km long road with a width of 8.6 meters.	Local Roads and Bridges	\$141,009.21	\$0.00	30-Sep-25

No.	Project ID#	Ultimate Recipient	Project Title	Project Description	Investment Category	Total Project Cost	Funds (CCBF) Spent in 2024	Estimated Project End Date
290	2324-006781	Dundurn, Rural Municipality of	Surfacing Haultain Ranch Road	This project was to complete a chip-seal surface within the Haultain Ranch subdivision of the RM of Dundurn No. 314. The chip surfacing was completed on 1.3 km of roadway with a width of approximately 6.4 m. The main objective of the surfacing was to extend the useful life of the roadway and encourage local use of the public roadways for cycling and walking.	Local Roads and Bridges	\$69,031.42	\$29,031.42	22-Aug-22
291	2324-006782	Lake Of The Rivers, Rural Municipality of	Rebuild Range East Road	Rebuild one mile of Range East Road into an all-weather grid road. The project involves rebuilding from Township 90 to Township 91 on the east side of section 2-9-30-W2. This section of road is used heavily for agricultural transportation. The goal of this construction is to stimulate economic growth in the community and to ensure ease of transportation for agricultural produce.	Local Roads and Bridges	\$74,200.00	\$74,200.00	9-Sep-23
292	2324-006783	Lacadena, Rural Municipality of	Construction of Potable Water Stand	Construct a potable water stand attached to the Saskatchewan Landing Regional Water Pipeline Utility water treatment plant. This will provide a location for public access to clean drinking water and replace the existing location, which is in very poor condition.	Drinking Water	\$37,215.53	\$37,215.53	7-Nov-24
293	2324-006784	Kinistino, Rural Municipality of	Upgrade Bridge at 220-48-11-E	Remove and replace the existing pile cap with a treated timber cap of the same size. Connections of pile caps to piles and caps to stringers must match existing or be designed to match loading. The contractor is responsible for the supply of materials, equipment, and labour to complete the work and also to provide traffic accommodation during cap replacement. The outcome will be to restore primary hauls over the bridge, which connects to one source of Rural Municipality Kinistino No. 459-owned gravel. The bridge width is 7.320 m, and the length is 6.1 m.	Local Roads and Bridges	\$65,348.71	\$65,348.71	25-Jul-24
294	2324-006785	Kinistino, Rural Municipality of	Upgrade Bridge at 219-47-10	The upgrade is to repair the deck and the abutment of this timber bridge from rot and increase pressure from springtime flows to avoid further deterioration and keep the bridge in safe and good running order. The bridge is 8.53 m in length and 6.1 m in width.	Local Roads and Bridges	\$38,266.00	\$38,266.00	30-Jun-23

No.	Project ID#	Ultimate Recipient	Project Title	Project Description	Investment Category	Total Project Cost	Funds (CCBF) Spent in 2024	Estimated Project End Date
295	2324-006786	Dundurn, Rural Municipality of	Surfacing Prairie Haven Road	This project was to complete a chip-seal surface within the Prairie Haven subdivision of the RM of Dundurn No. 314. The chip surfacing was completed on 1.8 km of roadway with a width of 6.1 m. The main objective of the surfacing was to extend the useful life of the roadway and encourage local use of the public roadways for cycling and walking.	Local Roads and Bridges	\$91,041.82	\$84,519.97	22-Aug-22
296	2324-006791	Barrier Valley, Rural Municipality of	Reclaiming Algrove Road	Reclaiming of roads 144W, 145W, and 146W. The existing top will be excavated, ground, and utilized as a base. The MG 30 product will be milled into road for clay cap replacement. MG 30 is used a replacement for clay clapping and only the driving surface of the road is to be milled and treated.	Local Roads and Bridges	\$161,553.63	\$161,553.63	31-Aug-24
297	2324-006792	Theodore, Village of	Upgrade Drinking Water Reservoir	Upgrade reservoirs by replacing the balance line transfer pipe between the two reservoirs and extending the line to the farthest end of the outer reservoir to facilitate chlorine circulation for all stored, filtered water. Replace and bury filtered water lines between the water treatment plant and reservoirs. Replace the collapsed sewer line that carries rejects/backwash water from the water treatment plant.	Drinking Water	\$109,413.15	\$109,413.15	22-Sep-23
298	2324-006793	Paynton, Rural Municipality of	Upgrade Municipal Fire Hall	The project is to upgrade the municipal fire hall building, which needs energy-efficient lights, windows, and spray insulation. These upgrades will reduce power and energy costs and greenhouse gas emissions.	Community Energy Systems	\$82,861.14	\$82,861.14	31-Oct-24
299	2324-006794	Kipling, Town of	Replacement of Library Furnace	This project will replace the 23 year-old existing library furnace in the municipality with a new 96 per cent energy-efficient furnace. Town also installed the Air conditioner at the Kipling Library.	Community Energy Systems	\$16,223.25	\$16,223.25	14-Aug-24
300	2324-006795	Weyburn, City of	Rebuild and Repave Roads and Sidewalks	Repave 4th Street from 6th Avenue to 10th Avenue, 4th Street from 2nd Avenue to 3rd Street, Saskatchewan Drive from King Street to the entrance of Riverwood, Legion Parking Lot, and five alleys in the downtown core. The project is the 2022 Infrastructure Revitalization Program, which worked on rebuilding the roads and sidewalks within the municipality. Also, the project included milling down the top surface, spot repairs, rebuilding sections, and repaving the road.	Local Roads and Bridges	\$684,506.84	\$684,506.84	1-Oct-23
301	2324-006796	Weyburn, City of	Rebuild and Repave Roads and Sidewalks	Rebuilding and repaving 16th Street and 1st Avenue, Brownlee Street, and 5th Street in the City of Weyburn. This project will extend the service life of these roads.	Local Roads and Bridges	\$1,261,430.44	\$1,143,305.44	1-Nov-23

No.	Project ID#	Ultimate Recipient	Project Title	Project Description	Investment Category	Total Project Cost	Funds (CCBF) Spent in 2024	Estimated Project End Date
302	2324-006797	Loon Lake, Village of	Replace RO Membrane in Water Treatment Plant	This project involves replacing 32 membranes in the water treatment plant. The process involves pushing water through an RO membrane with high pressure, which ensures that only purified water passes through while impurities such as salts, heavy metals, chemicals, pesticides, and microbial contaminants are left behind. The RO membrane filters effectively reduce the levels of metals in the water, ensuring that the water is safe for human consumption and meets the legislated standards.	Drinking Water	\$32,960.00	\$32,960.00	31-Dec-23
303	2324-006798	Laurier, Rural Municipality of	Clay Cap Part of Township Road 42	Clay cap one mile of Township Road 42 between Range Roads 163 and 164. The project involves stripping off the top layer of aggregate and adding additional clay to the existing road, widening it, reinstalling grade gravel, and ensuring that the topography of the road is properly sloped. The project aims to ease transportation for the residents, decrease average travel time, and prolong the useful life of the road.	Local Roads and Bridges	\$65,182.50	\$62,905.00	31-Oct-22
304	2324-006799	Kyle, Town of	Replace Sewer Pipeline	Replace the sewer pipeline. The Town of Kyle plans to install 403 m of 200 mm x 4.5 mm polyester felt liner on the Center Street sewer line from Railway Avenue to 2nd Avenue. The project is important to avert epidemic outbreaks due to sewer line failure. The aim of the project is to increase connections to the sanitary wastewater system and decrease non-compliance incidents.	Wastewater	\$98,735.00	\$89,380.32	26-May-23
305	2324-006800	Hodgeville, Village of	Upgrade Water Lines	Upgrade water lines from the main, including the curb stop, and replace the existing lines with new material. This project includes slowly replacing lines in all households and helping reduce the number of repairs needed due to waterline breaks in the winter.	Drinking Water	\$51,973.94	\$51,973.94	15-Nov-24
306	2324-006801	Birch Hills, Rural Municipality of	Upgrade Fire Hall Lights to LED	Upgrade the lighting in the municipal-owned fire hall to LED-wrapped fixtures. The fire department is jointly owned by the RM of Birch Hills No. 460 and the Town of Birch Hills. This will increase operational savings and decrease greenhouse gas emissions.	Community Energy Systems	\$4,843.54	\$2,551.95	30-Apr-24

No.	Project ID#	Ultimate Recipient	Project Title	Project Description	Investment Category	Total Project Cost	Funds (CCBF) Spent in 2024	Estimated Project End Date
307	2324-006802	Leask, Village of	Upgrade Water Treatment Plant	Install two submersible pumps and a level controller in the water distribution reservoir, a dialer to voice alarm, and a computer to run remote webgate HMI software. It also includes the installation of a variable frequency drive (VFD) to maintain consistent water pressure at the water treatment plant, two new line reactors for the VFD PLC program, and a keypad on the panel door for the VFD. Also, five automatic ball valves will be upgraded and there will be back door installed to allow access to the membranes without having to pull the system apart.	Drinking Water	\$105,000.00	\$92,185.10	30-Jun-25
308	2324-006803	North Battleford, City of	Upgrade Don Ross Arena Ice Plant	Replace the original Freon ice plant with an ammonia ice plant at the Don Ross Center Arena. This will use heat by product.	Community Energy Systems	\$866,457.11	\$866,457.11	30-Nov-24
309	2324-006804	North Battleford, City of	Replacement of Ammonia Chiller at Access Communication Centre	Replace an ammonia chiller at the Access Communication Center. A chiller is where the brine returns with heat from the ice rink surface to be absorbed by the much colder liquid refrigerant (ammonia). The ammonia will then boil and vaporize as it absorbs the brine's heat. The cooled brine then recirculates around the rink. This is a critical and high-risk component of an ammonia ice plant and must function properly.	Community Energy Systems	\$108,941.50	\$108,941.50	31-Oct-24
310	2324-006805	North Battleford, City of	Construct and Pave Alley between 91st Street and 92nd Street	Construct a low-profile concrete curb and gutter down the east lane to provide a place for water to pool and drain to each end of the lane. The remaining width of the lane will be paved with 50 mm of asphalt. Materials that will be used are gravel, portland cement concrete, and asphalt paving. The legal width of the alley is 6.1 meters, the low-profile concrete curb is 0.45 meters wide, the asphalt paving will be 5.1 meters wide, and the length of the lane is 160 meters.	Local Roads and Bridges	\$80,000.00	\$0.00	31-Oct-25
311	2324-006806	North Battleford, City of	Install Crosswalk Lights at 17th Avenue and 100th Street	Install two crosswalk signal lights over 100th Street and between the 100th Street and 17th Avenue intersections. The signs equipped with flashing lights to indicate a stoppage in traffic when activated by pedestrians wishing to cross 100th Street.	Local Roads and Bridges	\$99,400.00	\$99,385.30	28-Feb-25
312	2324-006807	North Battleford, City of	Sidewalk Construction	Install a pedestrian connection that is 2 meters wide and 280 meters long. Asphalt and concrete will be the materials that are used. This will enhance the pedestrian link to the Innovation Plex facilities and create a decent pedestrian connection between the city's center and the business district near the Frontier Mall.	Local Roads and Bridges	\$87,500.00	\$0.00	31-Dec-25

No.	Project ID#	Ultimate Recipient	Project Title	Project Description	Investment Category	Total Project Cost	Funds (CCBF) Spent in 2024	Estimated Project End Date
313	2324-006808	Excelsior, Rural Municipality of	Upgrade Stewart Valley Bridge	Upgrade Stewart Valley Bridge from further erosion by using proper aggregate and placing blocks along the bank of the creek along the bridge to divert the water. A hundred concrete blocks that were used have dimensions of 1.524 m in length, 0.762 m in width, and 0.762 m in height.	Local Roads and Bridges	\$49,977.66	\$25,716.66	24-Nov-23
314	2324-006810	Dundurn, Town of	Upgrade to Energy Efficient Lights at Municipal Buildings	This project is to upgrade to energy-efficient lights at the community hall and Dundurn Sports Centre. This will increase the life cycle cost of the lighting in terms of energy consumption, maintenance requirements, and the expected lifespan of the lighting.	Community Energy Systems	\$5,156.64	\$5,156.64	20-Dec-23
315	2324-006811	Dundurn, Town of	Upgrade Sidewalks	This project is to upgrade concrete sidewalks in several locations in the municipality including 1st Street, 2nd Street, and Dundurn Avenue. This will increase public usage of the infrastructure.	Local Roads and Bridges	\$26,070.70	\$26,070.70	22-Sep-23
316	2324-006812	Beaver River, Rural Municipality of	Upgrade to Range Road 3251	Upgrade to Range Road 3251 by applying a mixture of calcium chloride brine, magnesium hydroxide, other alkalis, and iron that is ideal for base stabilization. Mixture benefits include greater density, less compactive effort, moisture control, frost protection, surface uniformity, improved bonding, a dust-free surface, and environmental advantages, which should save maintenance time and money in the long run for the municipality.	Local Roads and Bridges	\$60,567.66	\$60,567.66	15-Jun-23
317	2324-006813	Sasman, Rural Municipality of	Upgrade Two Culverts	The project involved replacing two old culverts with two new ones with a diameter of 1,600 mm to ensure proper water flow throughout the year.	Local Roads and Bridges	\$12,358.25	\$12,358.25	13-Aug-24
318	2324-006814	Fort Qu'Appelle, Town of	Pave Municipal Roads	Pave municipal roads by milling and filling Bay Avenue, Boundary Avenue, 3rd Street North, 7th Street South, and 2nd Street North. These roads are heavily traveled and deteriorating. Bay and Boundary access Highway 10.	Local Roads and Bridges	\$796,375.64	\$700,000.00	30-Jun-24
319	2324-006815	Lanigan, Town of	Upgrade Water Meters	Replace 400 old water meters with a new 100 per cent Automated Meter Reading (AMR) or Advanced Metering Infrastructure (AMI) solution for the whole community. The upgrade will provide alerts on consumption patterns, current leak status, days of week, days of no flow, and reverse flow event notifications. Also, the information from the water meters can be data logged, allowing retrieval for the last 96 days.	Drinking Water	\$185,383.60	\$185,383.60	18-Dec-24

No.	Project ID#	Ultimate Recipient	Project Title	Project Description	Investment Category	Total Project Cost	Funds (CCBF) Spent in 2024	Estimated Project End Date
320	2324-006816	Plenty, Village of	Installation of Water Main Valves	Install nine turn-off valves in the water mains so that the municipality will gain control of different sections of the water main when having to fix or replace the main. If there is a water break, the total village water must be turned off as there are no turn-off valves located or installed in the water main line to isolate one or two block sections so that a water break can be fixed.	Drinking Water	\$37,480.26	\$37,480.26	31-Dec-24
321	2324-006818	Imperial, Town of	Replacement of Fire Hydrants and a Water Valve	Replace two fire hydrants with 254 mm century hydrants, and a 152.4 mm shut-off valve at the base. Also, 508 mm of 152.4 mm cast pipe was replaced with 152.4 mm PVC pipe connecting the hydrant to the main water line. The replacement allowed for better flushing of sediment from the drinking water lines.	Drinking Water	\$38,725.17	\$38,725.17	5-Sep-24
322	2324-006819	Beatty, Village of	Installation of Culvert and Road Upgrade	The project is to widen the existing road by 6.4 m to encourage heavier vehicles to use the outer limits of the town. The road will also be extended by 2.4 m at the corner intersection, with culverts installed so that semis and larger vehicles and equipment can make the turn.	Local Roads and Bridges	\$18,459.05	\$18,459.05	31-Oct-24
323	2324-006822	Cochin, Resort Village of	Rehabilitation of Breakwater	Revitalize and rehabilitate approximately 0.49 km of the existing berm on the lake side of the community to provide protection from rising water and reduce wave action. Haul in rip rap and gravel to support and rebuild the existing berm and reinforce the breakwater barrier. The work will enhance environmental protection from erosion by closing off water flow from other lakes by improving shoreline stability, providing habitat protection, and improving water quality. It will also allow increased accessibility and enhanced use.	Resilience	\$1,465,711.00	\$0.00	3-Mar-25
324	2324-006823	Estevan, City of	Replacement of Water Main Line	This project is to replace the water main line in the 800 block of 1st Street. After completion of the water main, sidewalks will be assessed and replaced if they are in poor condition or are damaged during construction. The road will be repaved after all work is completed.	Drinking Water	\$1,000,000.00	\$567,058.01	10-Dec-24
325	2324-006825	Manitou Beach, Resort Village of	Replacement of Two Fire Hydrants	Restore and replace two fire hydrants for drinking water in the municipality that are not working due to various reasons. One is a relatively easy replacement located on Kabeyen Avenue, while the other is situated on Sean Street. Both require valve and culvert replacements to make them functional.	Drinking Water	\$40,427.87	\$40,427.87	28-Sep-22

No.	Project ID#	Ultimate Recipient	Project Title	Project Description	Investment Category	Total Project Cost	Funds (CCBF) Spent in 2024	Estimated Project End Date
326	2324-006827	Manitou Beach, Resort Village of	Install Energy Efficient Water Heater	Upgrade and install a new boiler to serve the village shop. It is an energy-efficient water heater that is necessary to lower the carbon footprint in the municipality.	Community Energy Systems	\$14,384.00	\$14,384.00	11-Aug-23
327	2324-006828	Manitou Beach, Resort Village of	Upgrade Well at Water Treatment Plant	Design, upgrade, and create efficiencies for the service out well that provides water to the Water Treatment Plant for the community. This well allows the municipality to add a swab launcher and clean the line from the well to the water treatment plant, where there tends to be a great build up.	Drinking Water	\$47,700.00	\$47,700.00	3-Mar-21
328	2324-006829	Manitou Beach, Resort Village of	Replace Valves at Water Treatment Plant	Repair the valves inside the reservoir holding tanks at the water treatment plant for the municipality. The valves are currently non-operational and seriously limit the plant's capacity to hold potable water, which is critical for serving the community's needs. To replace and install the valves, the tanks will need to be cleaned before using them to hold potable water, as per the requirements of the Water Security Agency.	Drinking Water	\$14,946.00	\$14,946.00	22-Mar-22
329	2324-006830	Manitou Beach, Resort Village of	Installation of Septic Line and Manhole	Install a manhole and connect it to an all-season septic line that is also being installed at the same time. This will increase connections to sanitary wastewater systems and capacity for the collection of wastewater in the community.	Wastewater	\$34,110.80	\$34,110.80	17-Nov-23
330	2324-006832	Kindersley, Town of	Upgrade 11th Avenue East to Heavy Haul Road	Replace the road on 11th Avenue East, from Main Street East to 2nd Street East, with a heavy haul road. The length of the road being replaced is 328 m and the width is 13.4 m. The road replacement requires complete removal of the existing asphalt surface and excavating to a depth of 51 cm. It also includes performing 15 cm of subgrade preparation, installing geotextile, and placing 25 cm of granular sub-base, 15 cm of granular base, and 10 cm of hot mix asphalt. Because of the moisture issue weeping tile had to be installed and the curb and gutter had to be replaced as it crumbled. The extra work to create a solid base and the new curb & gutter changed the scope of this project and increased the project cost.	Local Roads and Bridges	\$690,224.26	\$690,224.26	24-Jul-24
331	2324-006833	Mount Pleasant, Rural Municipality of	Construction of Class 7 Access Road	Construct a 0.8 km long and 7.6 m wide clay cap for a Class 7 grid road due to heavy traffic deterioration.	Local Roads and Bridges	\$69,112.84	\$69,112.84	30-Sep-22

No.	Project ID#	Ultimate Recipient	Project Title	Project Description	Investment Category	Total Project Cost	Funds (CCBF) Spent in 2024	Estimated Project End Date
332	2324-006835	Marriott, Rural Municipality of	Replacing Oversize Culvert	Replace three oversized culverts within the municipality. These culverts range from 1800 mm to 2200 mm in diameter. The replacement includes the removal of old culverts, installation, and backfill of the new culverts.	Local Roads and Bridges	\$45,588.85	\$625.99	1-Jan-24
333	2324-006838	Grant, Rural Municipality of	Acquisition of Fire Hall Building	Purchase an existing building for a fire hall for Grant Fire and Rescue to house firefighting equipment and apparatus and to provide space for training and administration. The project outcome is to build stronger and more resilient communities.	Fire Halls	\$350,000.00	\$324,982.54	31-Dec-25
334	2324-006839	Halbrite, Village of	Pave The First Block of Souris Street	Pave the first block of Souris Street, from Access Road to Coteau Avenue. The dimension of the project is 106.68 meters and 30.48 meters. This paving will require less time and materials for future repair and will result in a better surfaced road overall.	Local Roads and Bridges	\$17,390.15	\$17,390.15	18-Sep-23
335	2324-006840	Caron, Rural Municipality of	Expansion of Water Storage Capacity	Expand water storage capacity for the Hamlet of Caron, including modifications to the existing reservoir and changes to the piping design to improve flow through all the fiberglass tanks and water quality. The main objective and expected outcome is to accommodate recent, future, and long-term population growth and continue to meet Water Security Agency requirements.	Drinking Water	\$128,921.66	\$128,921.66	18-Oct-24
336	2324-006841	Quinton, Village of	Renovate Hall Heating System	Replace two furnaces with new energy-efficient units in the community hall. The project will extend the useful lifetime of the building and improve the rental experience for individuals and groups.	Community Energy Systems	\$20,000.00	\$0.00	31-Dec-26
337	2324-006842	Quinton, Village of	Renovate Water Treatment Plant	Renovate the water treatment plant mechanical system to improve the quality of the drinking water and meet provincial requirements. The village is currently under a boil water advisory, and the water is high in magnesium, ammonia, iron, and solids. The water treatment plant filter media needs to be changed, and the whole piping system up to the filters must be rebuilt. Renovation will also include installation of flow indicator meters for filters and replacement of filter transfer pumps and distribution pumps. Finally, the Aerator will be replaced and put back into service.	Drinking Water	\$25,000.00	\$0.00	1-Jan-28

No.	Project ID#	Ultimate Recipient	Project Title	Project Description	Investment Category	Total Project Cost	Funds (CCBF) Spent in 2024	Estimated Project End Date
338	2324-006843	Moose Jaw, City of	Replacement of Watermain - Phase IX	Replace approximately 1,580 meters of watermains with approved materials and associated fittings, valves, and hydrants. The work includes approximately 520 meters of feeder main that will be replaced by water distribution mains and approximately 1,100 meters of feeder main with approved materials and associated fittings and valves. There will also be trenchless installation of approximately 520 m of 350 mm DR 11 HDPE water distribution main and appurtenances.	Drinking Water	\$9,835,000.00	\$1,117,477.49	30-Oct-24
339	2324-006844	Moose Jaw, City of	Pavement of Roadways and Sidewalks	Road resurfacing consists of milling and paving approximately 2.8 km of asphalt roadway, concrete sidewalk, and curb and gutter within the road resurfacing area.	Local Roads and Bridges	\$2,800,000.00	\$1,515,738.00	2-Oct-24
340	2324-006846	Pelican Pointe, Resort Village of	Energy Efficiency Upgrade to Community Building	Upgrade the community building by replacing the vinyl siding on the building. It will improve the efficiency of the building and reduce the energy consumed to heat and cool it.	Community Energy Systems	\$3,502.87	\$3,502.87	27-Oct-25
341	2324-006848	Cote, Rural Municipality of	Install Water Heater and Unit Heaters for New Municipal Shop	Install two unit heaters with stainless steel sidewall venting, thermostats, a gas line, and permits. An electric water heater with associated piping would also be installed. The main goal of the project is to decrease energy usage and operational savings.	Community Energy Systems	\$20,960.47	\$20,960.47	30-Nov-24
342	2324-006849	St. George's Hill, Northern Hamlet of	Construction of Cemetery Fence	Replace the old fence erected around the cemetery with a new fence. The municipality purchased the building materials and the work was done by community volunteers.	Cultural Infrastructure	\$8,505.13	\$7,609.13	31-Aug-22
343	2324-006850	Browning, Rural Municipality of	Clay Cap Range Road 2043	The Range Road 2043 construction involved clay capping 6.43 km of road with a width of 8 meters. The road was repaired in two sections of 3.21 km stretches: E 4-9-4-4-W2M and E 28-33-4-4-W2M. Clay and gravel were used for the road surface. This project aimed to accommodate the increased oil traffic and improve access to new oil wells and farmland.	Local Roads and Bridges	\$544,393.67	\$137,839.75	31-Aug-21
344	2324-006852	Excel, Rural Municipality of	Upgrade Verwood Community Hall Bathrooms	Upgrade the Verwood Community Hall bathroom facilities. The hall is used for many different functions throughout the year and is one of only two halls available for use in the area. These upgrades will help extend the lifespan of the building and ensure it does not deteriorate.	Recreational Infrastructure	\$7,368.26	\$7,368.26	10-Jun-24

No.	Project ID#	Ultimate Recipient	Project Title	Project Description	Investment Category	Total Project Cost	Funds (CCBF) Spent in 2024	Estimated Project End Date
345	2324-006853	Kyle, Town of	Replacement of Sewer Lines	Replace damaged sewer lines, starting with the worst, as per the video inspection, to serve as a long-term repair. There will be approximately 353 m total of 200 mm x 4.5 mm polyester felt liner installed in four areas. It consists of 110 m of lining starting at Railway down 1st Street West, 83 m of lining partially down 2nd Street West down to 1st Avenue, and 159 m of lining starting at Railway to 1st Avenue East.	Wastewater	\$91,780.00	\$25,369.00	19-Aug-24
346	2324-006854	Star City, Town of	Replacement of Fire Hydrants and Valves	Replace two fire hydrants and two valves for two different locations. The fire hydrants are connected to treated drinking water lines in the town.	Drinking Water	\$18,500.00	\$16,886.73	30-Jun-25
347	2324-006856	Wood River, Rural Municipality of	Bridge Substructure Repairs at ENE 4-7-6-W3	Bridge substructure repairs include the installation rod preservatives in pile caps and wood piles in both abutments, the installation of engineered pile clamps and shim pile clamps to make them square to piles, the installation of three pile medic wraps, and the repair broken planking on pile caps. By repairing the structural deficiencies and installing preservatives, the bridge substructures will maintain the current condition and increase the life span of this condition for at least another five years.	Local Roads and Bridges	\$53,111.30	\$53,111.30	15-Jan-24
348	2324-006857	Wood River, Rural Municipality of	Bridge Substructure Repairs at N 10-7-5-W3	Installation of three engineered pile clamps, resetting an abutment pile cap so it is square with the piles, installation of pile medic wrap, replacing a broken cleat on an abutment, reconstructing the embankment, and installation of geotextile and rip rap. By repairing the structural deficiencies and installing preservatives, the bridge substructures will maintain the bridge's current condition and increase its life span.	Local Roads and Bridges	\$60,298.10	\$60,298.10	15-Jan-24
349	2324-006859	Francis, Town of	Replacement of Water Line	Replace the old waterline from the spring to the water treatment plant to improve the water quality coming into the plant. It will also reduce the turbidity in the water, therefore reducing boil water advisories and the quantity of chemicals used in the water. This is the only line that comes into the town to serve the municipality.	Drinking Water	\$100,000.00	\$0.00	31-Oct-25
350	2324-006860	Fillmore, Village of	Sand Seal Parker Avenue	Sand seal Parker Avenue to improve the durability of the road, increase in estimated service life and the public usage of infrastructure with a more affordable alternative to pavement/asphalt.	Local Roads and Bridges	\$40,311.00	\$40,311.00	18-Oct-21

No.	Project ID#	Ultimate Recipient	Project Title	Project Description	Investment Category	Total Project Cost	Funds (CCBF) Spent in 2024	Estimated Project End Date
351	2324-006861	Fillmore, Village of	The Village Office and Library Roof Replacement	Removing old shingles and replacing them with new ones at the village office, which also includes the library. The main objective is to increase the estimated service life of the roof and ensure there are no leaks that could cause infrastructure failure. The new shingles help to maintain indoor temperatures, reducing the energy bill. The library is the only one in town, an important part of the community, and helps bring people together through various programs.	Cultural Infrastructure	\$13,966.03	\$13,966.03	19-Jun-23
352	2324-006862	Fillmore, Village of	Replacement of Fire Hydrants	Replace fire hydrants that are connected to the drinking water lines within the Village of Fillmore. Those hydrants were dated and required replacement to ensure that they run efficiently in the event of an emergency.	Drinking Water	\$60,503.40	\$60,503.40	30-Sep-23
353	2324-006863	Cambria, Rural Municipality of	Micro Surfacing of Road 606	Upgrade Grid Road 606 by micro surfacing. The 606 roadway is a stretch of 15.2 km of road. The road has an 8-meter-wide top. The work will include an initial tack coat for bonding purposes followed by type III micro surfacing, which is a mixed aggregate that is applied over the existing asphalt. Minor repair work, including patching of holes, will be completed prior to the micro surfacing. The goal is to maintain the road surface for an extended period of time without having to repave.	Local Roads and Bridges	\$967,028.77	\$108,610.45	11-Jun-24
354	2324-006864	Frobisher, Village of	Install Reverse Osmosis Water System	Install a reverse osmosis water system that will allow residents of the municipality to fill water jugs with safe, potable drinking water. The project also includes all electrical and plumbing modifications required in the water treatment plant to allow for the Reverse Osmosis system.	Drinking Water	\$24,675.63	\$24,675.63	25-Jan-22
355	2324-006867	Milden, Rural Municipality of	Culvert Replacement Bridge 293	The municipality plans to remove the structure and replace it with large-diameter culverts. Due to a 5T restriction, this bridge is restricting a main traffic road through the municipality. This renewal project will lead to an increase in the bridge's estimated service life and capacity for vehicles or load limit, as well as a decrease in travel distance.	Local Roads and Bridges	\$372,468.74	\$100,223.28	22-Nov-24

No.	Project ID#	Ultimate Recipient	Project Title	Project Description	Investment Category	Total Project Cost	Funds (CCBF) Spent in 2024	Estimated Project End Date
356	2324-006868	Aylsham, Village of	Upgrade Water Treatment Plant Pump	Upgrade the pump at the Water Treatment Plant with an energy-efficient model to decrease water service disruptions and to reduce the power consumption. Pump failures requiring repairs cause the water system to lose pressure, this upset condition is required to be reported to the Water Security Agency and results in a Boil Water Advisory for the community, which lasts a minimum of three days before water services can return to normal operations.	Drinking Water	\$1,881.50	\$1,219.00	24-Oct-25
357	2324-006869	Quill Lake, Village of	Replace Water and Sewer Services	The replacement of 25 water and sewer service lines, each 0.15m diameter by 6.1m in length. Twenty-one households, one library, 1 medical clinic, and two unoccupied lots will be affected.	Drinking Water	\$125,080.00	\$125,080.00	28-Aug-24
358	2324-006870	Saskatoon, City of	Pave Roads and Construct Sidewalks	Renovate and rehabilitate local, arterial, and collector roads and high-volume expressways. The work includes constructing 32.7 km of sidewalks and 182 km of roadways.	Local Roads and Bridges	\$40,200,000.00	\$22,507,580.20	31-Dec-25
359	2324-006871	Saskatoon, City of	Repair Circle Drive North Bridge	Rehabilitation of the Circle Drive North Bridge, both eastbound and westbound. The Circle Drive North Bridge consists of two separate bridge decks (eastbound and westbound) founded on a shared pier system. The eastbound and westbound bridge structures are curved, five-span, three-lane steel girder bridges.	Local Roads and Bridges	\$9,000,905.38	\$8,083,888.50	1-Oct-23
360	2324-006872	Coalfields, Rural Municipality of	Clay Cap Range Road 2041	Clay-capping 9.6 km of municipal road: including all materials to upgrade road surface, culverts and approaches. This project will extend the life of the road: adding the crown back to the road allowing for proper drainage.	Local Roads and Bridges	\$539,639.43	\$225,571.23	20-Oct-20
361	2324-006873	Lawtonia, Rural Municipality of	Dendron Bridge Culvert Conversion	The existing bridge will be removed and replaced with three 1,800-mm corrugated steel culverts that are 18 meters long to accommodate water flows. This project aligns with the municipality's asset management plan and provides reliable transportation routes for commodities produced in the municipality.	Local Roads and Bridges	\$100,863.24	\$100,863.24	1-Aug-24
362	2324-006874	Lomond, Rural Municipality of	Replacement of Maxim Bridge	Replace the bridge located across Long Creek East SE 20-4-15-W2M, which includes upgrading the piles and increasing the width to 9.75 m. This will increase the vehicle capacity and weight limit and extend the service life of the bridge from five years to 100 years.	Local Roads and Bridges	\$1,737,948.48	\$89,357.40	2-Aug-24
363	2324-006875	Mountain View, Rural Municipality of	Culverts Installation	Repaired the junction of two gravel roads that are located in a slough by raising the road 1.5 meters and having three culverts installed. This will provide safe road conditions for the increased oil and gas industry activity in the municipality.	Local Roads and Bridges	\$107,266.70	\$107,266.70	6-Nov-18

No.	Project ID#	Ultimate Recipient	Project Title	Project Description	Investment Category	Total Project Cost	Funds (CCBF) Spent in 2024	Estimated Project End Date
364	2324-006876	Oakdale, Rural Municipality of	Asset Management Plan	Completion of an Asset Management Plan for the municipality to provide the most current list of assets and replacement schedule to support long-term planning	Capacity Building	\$31,830.40	\$31,830.40	2-Feb-21
365	2324-006878	Balcarres, Town of	Purchase Rink Dehumidifier	Purchase and install dehumidifier in the rink to remove moisture from the air at low temperatures and low humidity levels, thus producing the low dew point levels to maintain a healthy ice rink.	Sport Infrastructure	\$50,099.32	\$47,842.59	3-Nov-23
366	2324-006879	Balcarres, Town of	Apply Chip Seal on Main Street	Apply liquid asphalt to the existing pavement, then a layer of 3/8 crushed gravel (chips) is applied. The gravel is compacted and embedded into the asphalt. The chip seal will cover 3251.6064 square m. Once completed, the chip seal will fill and seal cracks of old pavement and keep water from penetrating the road structure, minimizing the effects of aging.	Local Roads and Bridges	\$38,850.00	\$37,100.00	3-May-23
367	2324-006880	Central Butte, Town of	Replacement of Lagoon Valve	Replace one valve in the lagoon to make it functional, decrease non-compliance incidents, and increase the estimated service life of connection pipes.	Wastewater	\$46,110.00	\$46,110.00	3-Jul-24
368	2324-006881	Star City, Town of	Replacement of Sidewalk	Replace two portions of sidewalks in the municipality. The first location is 8 x 635 mm section along Main Street. It consists of a 101.6 mm concrete with a 4,300 psi, 32 mpa and 10 mm rebar with a rolled curb. The work involves removing the old concrete, tamp filled to proper elevation and pinned to existing concrete. The second location is in front of the Senior's Housing Unit, which is 152 x 101.6 mm long in front of the building. It consists of 101.6 mm concrete with 4,300 psi, 32 mpa, 10 mm rebar. The old sidewalk will be removed, and new concrete will be pinned to the existing sidewalk.	Local Roads and Bridges	\$27,242.00	\$27,242.00	16-Aug-24
369	2324-006882	Canwood, Village of	Resurface Main Street	Resurface Main Street with asphalt paving after a water line break. The municipality prepared the road and completed paving to extend its service life. The Main Street was repaved over a section that had to be dug up for the water line repair.	Local Roads and Bridges	\$16,000.00	\$1,460.80	31-Jul-23
370	2324-006883	Laird, Village of	Upgrade Water System	Recommission the two small cisterns by core drilling and installing the necessary valves and pipes so they will be connected in line with the current water flow through the rest of the system. This will increase the capacity by about 10% and create a convenient location to draw water from to supply the truck fill with its own pump and to maintain the normal pressure of the distribution system.	Drinking Water	\$13,000.00	\$0.00	28-Nov-25

No.	Project ID#	Ultimate Recipient	Project Title	Project Description	Investment Category	Total Project Cost	Funds (CCBF) Spent in 2024	Estimated Project End Date
371	2324-006885	Middle Lake, Village of	Replacement of Sidewalk	Replace sidewalk to ensure safe walkways within the municipality. 15.24 m was replaced in front of 208 First Avenue South and 9.14 m replaced in front of 204 First Street South. The length of the sidewalk is 24.4 m and width is 1.2 m.	Local Roads and Bridges	\$9,328.00	\$9,328.00	3-Sep-24
372	2324-006886	Middle Lake, Village of	Replacement of Lagoon Valve	Replace valves at lagoon to prevent accidental leakage at the sewer lift station.	Wastewater	\$5,939.08	\$5,939.08	4-Apr-19
373	2324-006888	Zenon Park, Village of	Construction of New Fire Hall	The project is to build a 60 x 60 m three bay fire hall to house a fire truck, rescue van, and tanker. This fire department has two rural municipalities and one village in its area. Building includes a meeting room as well as space for training and administration.	Fire Halls	\$493,000.00	\$46,866.32	31-Jul-25
374	2324-007214	Watson, Town of	Acquisition of Fire Hall Building	Acquire an existing building to be used as a fire hall to house fire equipment and provide adequate space and expansion into a regional fire department. The project will increase the ability of the municipality to work with the larger region for some services, including fire services.	Fire Halls	\$750,000.00	\$226,381.40	31-Dec-24
375	2425-006889	Birch Hills, Rural Municipality of	Solar Panels Installation	Install solar panels at the RM shop, where the majority of the public works equipment is maintained and repaired and where the municipal graders are stored. It is also aligned with the reduction of costs for power usage, the added benefit of being a renewable energy source, and being environmentally friendly.	Community Energy Systems	\$51,000.00	\$23,067.08	17-Jan-25
376	2425-006890	Birch Hills, Rural Municipality of	Energy Efficiency Upgrade to the Shop	Replace two exterior passageway doors and one window, as well as replace the attic insulation with a higher R-value, and install an air exchanger in the municipal shop to reduce the amount of condensation in the shop resulting from snow, ice, and rain on the graders and also for energy efficiency.	Community Energy Systems	\$27,317.07	\$27,317.07	30-Nov-24
377	2425-006891	Bratt's Lake, Rural Municipality of	Bridge Replacement at ENE 13-13-22-W2	Remove the existing bridge and replace it with large-diameter cement culverts. This replacement decreases travel distance and travel time from Point A to B, increases capacity (no number of vehicles or load limit), and increases the estimated service life.	Local Roads and Bridges	\$1,000,000.00	\$200,737.74	31-May-25
378	2425-006895	Garry, Rural Municipality of	Clay Cap W 13-26-7-W2	The re-clay capping of 1.609 km of road allowance at W 13-26-7-W2 using a minimum of 15 to 20 cm of clay. This project is to maintain safe roadways, increase in load limit capacity and increase the estimated service life.	Local Roads and Bridges	\$112,998.15	\$112,998.15	25-Jul-24

No.	Project ID#	Ultimate Recipient	Project Title	Project Description	Investment Category	Total Project Cost	Funds (CCBF) Spent in 2024	Estimated Project End Date
379	2425-006896	Ituna Bon Accord, Rural Municipality of	Clay Cap Wengrowich Road	Clay Cap 1.6 km of Wengrowich Road to extend the useful life of this road, reduce greenhouse gas emissions, accommodate the amount of traffic, easy to maintain and make it safer to drive on.	Local Roads and Bridges	\$73,563.96	\$73,563.96	15-Nov-21
380	2425-006897	Strasbourg, Town of	Upgrade to LED Lighting at Strasbourg Memorial Hall	Replacement of twenty-two fluorescent ceiling lights with high-efficiency LED lighting for the Strasbourg Memorial Hall, the Town's community centre.	Community Energy Systems	\$10,930.72	\$10,930.72	30-Jun-23
381	2425-006898	Fox Valley, Village of	Replace The Community Hall Sidewalk	Replace the old, crumbled, and unsafe sidewalk with a new one. This replacement creates a new useful life of 30 years and safe accessibility for seniors and wheelchairs. The sidewalk is 36.57 meters in length and 2.74 meters in width.	Local Roads and Bridges	\$11,130.00	\$11,130.00	22-Jun-23
382	2425-006899	Fox Valley, Village of	Reverse Osmosis Membranes Replacement	Install six new membranes in the reverse osmosis system in the water treatment plant for the village drinking water to replace the old membranes that had reached their useful life.	Drinking Water	\$6,325.00	\$6,325.00	20-Nov-23
383	2425-006900	Eatonia, Town of	Upgrade Sewer Line	Upgrade sewer lines installed in 1956. Install approximately 180 m of 200 mm x 4.5 mm polyester felt liner. This will ensure that there will be no leaks.	Wastewater	\$55,173.00	\$55,173.00	28-Oct-21
384	2425-006901	Grand Coulee, Town of	Remediation of Drainage	Remediate the drainage ditches in the municipality to reduce roadway erosion, prevent the risk of property flooding, and improve overall functionality and resilience.	Resilience	\$154,604.82	\$154,604.82	30-Nov-24
385	2425-006902	Grand Coulee, Town of	Remediation of Community Hall	Remediate the ventilation system in the town's community hall to reduce humidity and mold. This would allow the hall to be used properly and extend the service life of the building.	Recreational Infrastructure	\$123,796.33	\$123,796.33	1-Aug-25
386	2425-006903	Leader, Town of	Community Hall Roof Retrofit	Installation of a 836.1274 m2 sloped sealed roof (SSR) which is to be retrofitted onto the existing building in place of the flat roof at the Leader Community Centre.	Recreational Infrastructure	\$204,386.36	\$204,386.36	31-Mar-23
387	2425-006904	Leader, Town of	Pave 300 and 400 Block of 1st Street East	Pave approximately 171.8706 square meters along the 300 and 400 blocks of 1st Street East. In 2021, the town replaced 269 m of waterline along the street. The dirt placed to fill in the line replacement has now settled and is ready to be paved.	Local Roads and Bridges	\$104,021.78	\$104,021.78	19-Oct-23

No.	Project ID#	Ultimate Recipient	Project Title	Project Description	Investment Category	Total Project Cost	Funds (CCBF) Spent in 2024	Estimated Project End Date
388	2425-006905	Leader, Town of	Paving Around New Integrated Healthcare Facility	The street and avenue were damaged beyond repair during the construction of the new integrated healthcare facility. The town will be removing the old pavement, creating a good base, and then paving these areas. The approximate area to pave is approximately 1,097 sqm.	Local Roads and Bridges	\$216,902.91	\$216,902.91	19-Oct-23
389	2425-006906	Dodsland, Village of	Replacement of Arena Glass	Replaced the arena glass in the community recreation center. The glass was old and brittle and breaking easy. In order to keep patrons safe, all the glass was replaced.	Sport Infrastructure	\$31,025.51	\$31,025.51	31-Jan-24
390	2425-006907	Corman Park, Rural Municipality of	Resurface Range Road	Resurfacing on Range Road 3050 from its intersection with Township Road 400 to 1.6 km south; for a total distance of 1.6 km. The design parameters for this project include: 8 meter paved road top width; 250mm surface mixing and compaction; 150 mm subbase; 160 mm granular base; and 80 mm asphalt.	Local Roads and Bridges	\$1,635,569.23	\$578,222.02	15-Oct-23
391	2425-006908	Garden River, Rural Municipality of	Replacement of Palibroda Bridge	Install a new bridge at 222-51-20E. The old wooden bridge will be removed. The Palibroda bridge to be replaced is 12.49 m long and 7.62 m wide which includes the change from a single span bridge to a double span bridge and the replacement of backing.	Local Roads and Bridges	\$280,370.00	\$280,370.00	30-Sep-24
392	2425-006909	Meath Park, Village of	Replacement of Water Main Isolation Valve	Replace some water main isolation valves that no longer work in the municipality. The expectation is to replace at least three water main isolation valves.	Drinking Water	\$22,400.58	\$22,400.58	11-Oct-24
393	2425-006910	Fox Valley, Rural Municipality of	New Community Hall	Built a new Community Hall. The existing community hall was demolished, and a brand new facility was built. The new facility is wheelchair accessible and was built to be energy-efficient.	Recreational Infrastructure	\$199,907.52	\$176,601.83	27-Oct-23
394	2425-006911	Enniskillen, Rural Municipality of	Stabilization of 601 South Road	Apply a road stabilizer on 3.7 km of the 601 South Road of Glen Ewen. This road stabilizer provides a smoother, harder surface and extends the road's useful life. The product also reduces the dust on the road.	Local Roads and Bridges	\$173,900.00	\$143,548.00	20-May-21
395	2425-006913	Golden West, Rural Municipality of	Clay Cap 3.2 km of Municipal Road	Clay cap 3.2 km of the municipal road, which includes replacing culverts nearing the end of their useful life, reshaping the road width to its original 8 m road top, and adding clay to create a new hard surface and smooth out low spots. Additional gravel will be packed into the clay to resurface the road.	Local Roads and Bridges	\$169,600.00	\$93,818.20	30-Aug-23

No.	Project ID#	Ultimate Recipient	Project Title	Project Description	Investment Category	Total Project Cost	Funds (CCBF) Spent in 2024	Estimated Project End Date
396	2425-006914	Pense, Town of	Water Plant Upgrade	The upgrade at the water plant will consist of removing the deteriorating main water distribution headers and upgrading to a stainless-steel header system. The heating and ventilation system will be upgraded to improve air quality and control moisture to prevent corrosion of the pipes. An automatic startup system for the backup generator will be installed to ensure that 250 households always have safe reliable drinking water.	Drinking Water	\$735,843.12	\$249,134.78	28-Nov-23
397	2425-006919	Vibank, Village of	Install and Replace Water Distribution Line Isolation Valves	Install and replace water distribution line isolation valves to allow the segregation of the village water distribution system into halves. The work will consist of the excavation of the valve sites and the replacement of the valves. Isolating segments of the distribution system will provide the opportunity to send cleaning devices through the distribution lines.	Drinking Water	\$82,235.84	\$24,820.11	31-Dec-24
398	2425-006920	Arborfield, Rural Municipality of	Holdstock Bridge Repair	Repair the bridge to strengthen split piles and protect back wall by stub and epoxy-wrap split piles to mitigate potential future damage. The bridge has experienced an ongoing deterioration in certain structural elements.	Local Roads and Bridges	\$33,938.30	\$32,429.10	30-Apr-25
399	2425-006921	Pense, Rural Municipality of	Road Stabilization	Apply MG30 road stabilization to 1.2 km of road. This will provide a safer route for heavy haul traffic to commercial plants. MG30 is a proprietary mixed brine that was designed for roadways with little to no clay in the aggregate, and has many additional applications, such as dust abatement, base stabilization, and aggregate loss prevention. With the use of MG30, roads develop stronger bases and have reduced aggregate loss, up to 42%, when compared to untreated roads. MG30 is making waves in cost reduction, lessening environmental impact while improving performance, quality and reliability.	Local Roads and Bridges	\$78,000.00	\$2,235.20	13-Sep-24
400	2425-006922	Ponass Lake, Rural Municipality of	Clay Cap Township Road 370	Clay caps approximately 4.8 km of Township Road 370 between Highway 35 and Range Road 2141. The clay capping will increase the useful life of the road.	Local Roads and Bridges	\$35,959.71	\$35,959.71	1-Nov-23
401	2425-006923	Walpole, Rural Municipality of	Construction 3.2 km of Zion Road	Road construction for 3.21 km includes building up the road with clay for the proper top, lift, and slope of the road. 501.68 square meters of gravel were hauled and spread to complete the construction. The project will increase in estimated service life and load limit capacity while also decreasing in travel distance and average travel time.	Local Roads and Bridges	\$232,503.22	\$94,932.80	31-Dec-23

No.	Project ID#	Ultimate Recipient	Project Title	Project Description	Investment Category	Total Project Cost	Funds (CCBF) Spent in 2024	Estimated Project End Date
402	2425-006924	Arm River, Rural Municipality of	Upgrade Air Conditioner in the Municipal Office	Upgrade to an energy-efficient air conditioner in the municipal office to keep up in hot weather and keep the operational costs to a minimum.	Community Energy Systems	\$5,290.84	\$2,526.09	5-Jun-23
403	2425-006926	Spalding, Rural Municipality of	Upgrade Grid 756 East Road	Upgrade Grid 756 East by road reclamation which involves using a multipurpose machine to grind rock, crush stones and stabilize soil. This operation produces a newly constructed roadway surface. The process also increase the longevity of the road.	Local Roads and Bridges	\$9,187.02	\$9,187.02	9-Aug-24
404	2425-006927	Willner, Rural Municipality of	Upgrade Air Conditioner in the Municipal Office	Upgrade the air conditioner in the municipal office to keep up in hot weather and keep the operational costs to a minimum.	Community Energy Systems	\$2,645.42	\$2,526.09	5-Jun-23
405	2425-006928	Creelman, Village of	Upgrade of Stanley Street Lift Station	Remove the existing non-compliant lift station building, upgrade pumps and piping with a capacity 2.6 times greater than the 20-year peak dry weather design flow, and install appropriate above ground covers and safety features.	Wastewater	\$77,237.40	\$41,184.19	10-Oct-22
406	2425-006930	Bengough, Rural Municipality of	Reconstruct Grid 705 Curve	Build up a curve on one of the main grid roads, the 705 (west). Over the years, the curve had deteriorated to an unsafe state with increased vehicular traffic and heavy traffic. The length of the road is 27.35 km and, for the most part, has a width of 30.48 m. The actual project covered a distance of 1.2 km.	Local Roads and Bridges	\$170,408.70	\$122,226.53	31-Jul-23
407	2425-006931	Martin, Rural Municipality of	Clay Cap 1.6 km of Township Road 140.6	Rebuild and clay cap 1.6 km of Township Road 140.6 and apply MG30 to the road surface. 334.06 sq m of clay was added to the road. This will increase the estimated service life of the road.	Local Roads and Bridges	\$68,038.70	\$68,038.70	18-Sep-23
408	2425-006933	Spalding, Village of	Upgrade to the Community Hall	Upgrade and install 81 tins of siding in the community hall, which will increase the number of residents who benefit from the infrastructure and extend the building's service life. Each tin is 1.2 m x 3.6 m.	Recreational Infrastructure	\$28,211.71	\$28,211.71	16-Feb-24
409	2425-006934	Lloydminster, City of	Upgrade Arterial and Collector Roads	Repair and replace Arterial and Collector road infrastructure including including new sidewalks and repairs to existing sidewalks. The street improvement program also includes roadway rehabilitation from gravel to asphalt, curb and gutter repairs, and roadway patching.	Local Roads and Bridges	\$3,000,000.00	\$755,313.00	25-Nov-24
410	2425-006935	Moosomin, Rural Municipality of	Clay Cap Township Road 135	Clay cap Township Road 135. The dimension of the work is 6.43 km in length and 7.62 m in width. This project is to increase in estimated service life and load limit capacity.	Local Roads and Bridges	\$88,633.35	\$88,633.35	1-Oct-23

No.	Project ID#	Ultimate Recipient	Project Title	Project Description	Investment Category	Total Project Cost	Funds (CCBF) Spent in 2024	Estimated Project End Date
411	2425-006936	Yellow Grass, Town of	Repair Municipal Streets	Repair the cracks and broken pavement around the town of Yellow Grass. The project has the contractor cut out damaged asphalt, remove 10.16 cm of base, lay Geo-tech, level and pack 10.16 cm of tailings, and pave 7.62 cm with hot asphalt. These repairs will help preserve the pavement in the municipality for many years.	Local Roads and Bridges	\$237,433.88	\$237,433.88	31-Aug-23
412	2425-006937	Kinley, Village of	Install Curb Stops	Installation of two curb stops to new connections to the sewer line that will increase in connections to sanitary wastewater system.	Wastewater	\$3,286.65	\$3,286.65	27-Sep-22
413	2425-006938	Silton, Village of	Upgrade Railway Avenue Pavement	Extending the pavement through the intersection of Railway Avenue and Taylor Street. The dimensions of the project will be 19.8 m in width and 202.7 m in length. This will increase the estimated service life of the road.	Local Roads and Bridges	\$6,042.00	\$6,042.00	31-Jul-24
414	2425-006939	Clinworth, Rural Municipality of	Contract Engineering in Advance of Landfill Decommissioning	Contract engineering services for Phase II Environmental Site Assessment (ESA) and reclamation (D&R) plan for landfill decommissioning of the Portreeve Waste Disposal Site.	Solid Waste	\$49,875.00	\$44,912.50	30-Jun-25
415	2425-006941	Osage, Village of	Install Pump	Install a pump and all the components to mix the ozone into the water to increase the disinfection process providing safer water quality.	Drinking Water	\$1,030.97	\$1,030.97	31-Jan-23
416	2425-006942	Rose Valley, Town of	Reverse Osmosis Water Treatment Membrane Replacement	Replacement of 28 reverse osmosis membranes in the town's potable water treatment system, to ensure the system continues to produce quality potable water and to decrease the concentration of contaminants to meet or exceed the national or provincial standards.	Drinking Water	\$28,300.00	\$28,300.00	31-May-24
417	2425-006943	Enfield, Rural Municipality of	Rebuild 9.7 km of Township Road 190	Reconstruct 9.7 km of Township Road 190 on the Enfield/Chaplin correction line that is in rough shape and needs to be built up for better and safer access. The road is primarily used for grain hauling within the municipality.	Local Roads and Bridges	\$67,400.00	\$46,363.25	1-Oct-25
418	2425-006944	Tramping Lake, Rural Municipality of	Upgrade 3.2 km of Road in Division 1	Upgrade 3.2 km of road in Division 1 within the municipality by hiring a wheel tractor scraper to build up the road, install new culverts, and apply new gravel. The current road is too low and needs to be built up to accommodate the larger agricultural equipment used in the farming industry.	Local Roads and Bridges	\$27,117.81	\$27,117.81	31-Oct-24
419	2425-006945	Bjorkdale, Village of	Repave Railway Avenue	Repave 490 sq m of Railway Avenue from the 100 block of Railway East to the end of the 200 block. Asphalt will be supplied and placed, including preparation work, tack coating, and the installation of a swale on the street to help with drainage.	Local Roads and Bridges	\$74,928.96	\$74,928.96	2-Sep-24

No.	Project ID#	Ultimate Recipient	Project Title	Project Description	Investment Category	Total Project Cost	Funds (CCBF) Spent in 2024	Estimated Project End Date
420	2425-006946	Meadow Lake, Rural Municipality of	Upgrade 3.2 km Roadway Between Highway 4 and Meadow River Road	Upgrade 3.2 km of road between Highway 4 and Meadow River Road. The existing road will be scraped down to the suitable base, digging and filling in soft spots where peat comes through. Five culverts will be installed to allow for proper drainage. A drainage layer of sand will be added (approximately 50,000 m3) and held in place by non-woven geotextile (approximately 32,400 m3). A clay base top it to increase the height of road to protect against erosion. Municipality added an extra drainage and GeoTech.	Local Roads and Bridges	\$1,468,126.00	\$471,695.23	31-Aug-24
421	2425-006947	Baildon, Rural Municipality of	Replace Three Culverts	Replace three culverts, 21.0 m in length and 1.27 m in diameter.	Local Roads and Bridges	\$6,685.21	\$6,685.21	30-Jul-24
422	2425-006948	Rosedale, Rural Municipality of	Upgrade Bridge 304-30-15	Upgrade bridge substructure to maintain CL62.5 T load rating and increase condition from 3 to 2 by restoring abutment piles and caps.	Local Roads and Bridges	\$46,498.60	\$46,498.60	30-Aug-19
423	2425-006949	Rosedale, Rural Municipality of	Upgrade Bridge 304-30-31	Upgrade bridge substructure to maintain CL62.5 T load rating and upgrade condition state rating from 3 to 2 by restoring abutment piles and caps.	Local Roads and Bridges	\$84,023.96	\$84,023.96	25-Feb-19
424	2425-006950	Spiritwood, Rural Municipality of	Replacement of Grid No. 696 Bridge	Remove the existing bridge on Grid No. 696 and replace with a new bridge. The bridge has exceeded its lifetime expectancy and required extensive repairs to sustain primary weight traffic. The length of the bridge is 6 m and width 7.3 m.	Local Roads and Bridges	\$238,500.00	\$238,500.00	31-Oct-23
425	2425-006951	Spiritwood, Rural Municipality of	Replacement of Township Road 533 Bridge	Remove the existing timber bridge located on Twp Rd 533 and replace with a new bridge. The bridge has exceeded its lifetime expectancy and requires extensive repairs to sustain any traffic. The length of the bridge is 6 m and width is 7.3 m.	Local Roads and Bridges	\$201,484.80	\$201,484.80	31-Oct-23
426	2425-006952	Frobisher, Village of	Rebuild Well House	Rebuild the well house that stores the water well infrastructure, including piping, pressure tank, chlorine pump, etc., and supplies the village drinking water reverse osmosis system. Furthermore, the current building is aged and lacks energy efficiency. By rebuilding and properly insulating it, heat loss will be reduced in cold winter months, thereby reducing the power bill.	Community Energy Systems	\$21,200.00	\$21,200.00	24-Jul-24
427	2425-006953	St. Louis, Village of	Replacement of Sidewalk and Street Resurfacing	Remove and resurface approximately 525 sq m of municipal street asphalt that has deteriorated due to water drainage damage and age at various locations within the municipality and approximately 111 sq m of municipal concrete sidewalk that has deteriorated over the past several years.	Local Roads and Bridges	\$51,612.00	\$0.00	15-Aug-25

No.	Project ID#	Ultimate Recipient	Project Title	Project Description	Investment Category	Total Project Cost	Funds (CCBF) Spent in 2024	Estimated Project End Date
428	2425-006954	Birch Hills, Rural Municipality of	Office Exterior Doors Replacement	The replacement of three exterior doors and one lobby door for the municipal office with new energy-efficient doors. This will decrease energy usage and greenhouse gas emissions while also increasing operational savings.	Community Energy Systems	\$30,422.00	\$0.00	31-Mar-25
429	2425-006955	Birch Hills, Rural Municipality of	Upgrade to LED Lights	Upgrade the remaining fluorescent lights in the municipal office to LED light fixtures to reduce the cost of power and improve energy efficiency.	Community Energy Systems	\$2,311.43	\$2,311.43	6-Sep-24
430	2425-006957	Pangman, Village of	Replace Community Gazebo	Install a new approximately 7.3 x 7.3 m gazebo to allow for larger gatherings in the community park. Intended uses include: farmers market, family reunions, community picnics and recreation.	Recreational Infrastructure	\$35,000.00	\$16,388.66	29-Aug-25
431	2425-006958	Burstall, Town of	Dredge Lagoon	Dredge sewage lagoon to increase waste collection capacity.	Wastewater	\$308,986.40	\$114,617.50	31-Dec-25
432	2425-006959	Radisson, Town of	Replacement of Water Line and Curb Stop	Replace the old water line with a new water line at 300 Main Street. The town retained Unicon to dig up an old curb stop and replace it with a new curb stop at Albert Street.	Drinking Water	\$10,479.80	\$10,479.80	9-May-23
433	2425-006960	Springside, Town of	Chip Sealing	Chip sealing of 4,645 sq m of streets in the Town of Springside. Pavement was sprayed with a coat of liquid asphalt mixed with 30 percent water to prepare the base; then washed chip aggregate was spread using a chip spreader; finally, a pneumatic roller compacted the aggregate into the asphalt before it cooled. The project's outcome will increase the estimated service life of the streets.	Local Roads and Bridges	\$53,000.00	\$53,000.00	15-Jun-22
434	2425-006961	Whitewood, Town of	Upgrade Tennis Court	Upgrade the old tennis court area, which needs a facelift. The project will level and pave to ensure safety for users. The town intends to switch over to pickleball, and in the winter, there is an outdoor rink for the community.	Sport Infrastructure	\$29,629.62	\$3,792.80	30-Jun-24
435	2425-006965	Markinch, Village of	Installation of Water Meter	Installation of a new water meter. The expected outcome is to be able to monitor the water usage. The water meter is beneficial not only for proper billing but also for monitoring and fixing any leaks or water issues in the municipality.	Drinking Water	\$500.00	\$255.20	17-Jun-24
436	2425-006966	Sheho, Village of	Upgrade Water Treatment Plant	Upgrade the water treatment plant with a whole new system. This includes new tanks, new systems, etc. Upgrading all components in the water treatment plant will allow the municipality to provide residents with drinking water.	Drinking Water	\$160,000.00	\$15,651.25	31-Mar-25
437	2425-006967	Kindersley, Rural Municipality of	Incorporate Soil Stabilizer With Gravel on Grid Road #657	Incorporate soil stabilizer with gravel on grid road #657 to preserve existing gravel. The source of gravel within the municipality is quickly depleting making preservation and gravel reclamation necessary within the municipality.	Local Roads and Bridges	\$548,933.70	\$325,776.20	31-Dec-24

No.	Project ID#	Ultimate Recipient	Project Title	Project Description	Investment Category	Total Project Cost	Funds (CCBF) Spent in 2024	Estimated Project End Date
438	2425-006968	Mervin, Rural Municipality of	Reconstruct 1.6 km of Road	Reconstruct 1.6 km of road by surfacing it with hot mix asphalt to increase its estimated service life.	Local Roads and Bridges	\$456,231.30	\$80,949.00	1-Aug-23
439	2425-006970	Coleville, Village of	Installation of Generator at Community Hall	Install back-up power generator at the Coleville Community Hall and Emergency Evacuation Centre so that in the event of an emergency, the hall could shelter residents.	Recreational Infrastructure	\$19,946.84	\$19,946.84	1-Nov-19
440	2425-006971	Coleville, Village of	Upgrade Water Tower	Upgrade the village water tower by sandblasting & recoating the inside to extend the useful life of the water tower.	Drinking Water	\$45,380.10	\$45,380.10	22-Jul-22
441	2425-006972	Coleville, Village of	Replacement of Sewer Line	Repair and replace a portion of the sewerline on Fourth Avenue East due to collapsing	Wastewater	\$10,606.04	\$10,606.04	23-Jun-22
442	2425-006974	Limerick, Village of	Replace Limerick Opportunity Centre Roof	Replace existing roof area with a ballasted rock EPDM membrane system. The roof area to be replaced will include a 203.2 mm EPS insulation system which yields an R-32. The measurement of the roof surface area that will be replaced is 846.16 square meters.	Community Energy Systems	\$72,754.69	\$48,198.95	7-Jun-24
443	2425-006975	Sedley, Village of	New Sedley Community Playground	Build a new playground behind Sedley Tennis Court. The area will have a new play structure, teeter-totter and other new playground equipment. This new playground will replace the old playground that is being dismantled.	Recreational Infrastructure	\$73,000.00	\$68,976.09	31-Jul-25
444	2425-006976	Val Marie, Village of	Sidewalk Improvement	Improve 265 meters of sidewalks by removing the old ones, leveling the base, and forming and re-pouring cement sidewalks in the same locations. This will increase public usage of infrastructure and decrease vehicle use.	Local Roads and Bridges	\$101,686.86	\$56,010.56	30-Jul-24
445	2425-006977	Stonehenge, Rural Municipality of	Replace Limerick Opportunity Centre Roof	Replace existing roof area with a ballasted rock EPDM membrane system. The roof area to be replaced will include a 203.2 mm EPS insulation system which yields an R-32. The measurement of the roof surface area that will be replaced is 846.16 square meters.	Community Energy Systems	\$102,214.03	\$1,672.00	7-Jun-24
446	2425-006978	Arlington, Rural Municipality of	Replace Culverts at Rock Creek	Replace two existing washed-out culverts with three new 2,700 mm x 22 m culverts. Objective is to reopen road for traffic which is mainly agricultural and oil industry traffic.	Local Roads and Bridges	\$184,776.72	\$138,540.50	4-Oct-23
447	2425-006979	Beechy, Village of	Resurface Local Roads with Asphalt	Resurface local roads within the municipality, repair and fill potholes in village roads with asphalt. Additionally, paving was conducted, including digouts, base work where needed, sweeping, tack oil application, and overlaying the roads with hot asphalt.	Local Roads and Bridges	\$132,123.70	\$132,123.70	21-Jun-22

No.	Project ID#	Ultimate Recipient	Project Title	Project Description	Investment Category	Total Project Cost	Funds (CCBF) Spent in 2024	Estimated Project End Date
448	2425-006980	Norton, Rural Municipality of	Conduct Fire Hall Feasibility Study	Conduct a feasibility study that involves a geotechnical investigation for building a new fire hall to increase capacity for the municipality's fire fighting equipment and ensure it will fit as their fleet has expanded. The new building will be energy efficient and requires geotechnical investigation prior to starting any drawings.	Fire Halls	\$11,600.00	\$11,600.00	31-Dec-25
449	2425-006981	The Gap, Rural Municipality of	Recap 2 km of Township Road 52	Recap 2 km of Township Road 52 by resurfacing it with 3.8 cm of traffic gravel, followed by 15.2 cm of clay cap. The outcome of the project will be to extend the useful life of the asset.	Local Roads and Bridges	\$54,527.50	\$54,527.50	30-Sep-24
450	2425-006982	Ceylon, Village of	Replace Community Centre Flooring	Upgrade the Prairie Pride Community Centre, which will involve replacing approximately 501.68 sq m of existing vinyl composition tile. The new flooring will improve the facility's aesthetic and function, allowing for an increase in the number of annual events hosted there. The asbestos abatement was completed to remove the existing vinyl composition tile. The asbestos abatement had a significantly higher cost than the conventional tile	Recreational Infrastructure	\$78,028.12	\$55,478.81	9-Nov-24
451	2425-006985	Douglas, Rural Municipality of	Clay Cap Alticane Road	Clay cap Alticane Road for a total length of 6.4 km, 8 m in width. The road will be built from Borrow Pits obtained along the road construction to minimize costs. There will be approximately 48,000 cubic metres required to re-establish the original road width and proper specs to build the road up to the original grade with a 3 to 1 slope. The main objective is to extend the life of a road currently being used for large amounts of agricultural commodities for an anticipated extension of the life of the road of 50+ years.	Local Roads and Bridges	\$1,038,000.00	\$0.00	31-Oct-25
452	2425-006986	Elfros, Rural Municipality of	Rebuild Little Quill Road	Rebuild 715 meters length 8 meters wide of Little Quill Road, by applying clay and gravel to provide a reliable, quality traffic surface. Three culverts, 450mm x 14m, were installed to prevent localized flooding and washout during spring.	Local Roads and Bridges	\$75,931.83	\$75,931.83	30-Sep-22
453	2425-006987	Lacadena, Rural Municipality of	Replacement of Grid 647 Bridge	Remove and dispose a short-span bridge and install three 2200 mm corrugated steel pipe culverts on grid 647 over Smith Creek in the municipality.	Local Roads and Bridges	\$529,097.67	\$227,196.66	15-Dec-23
454	2425-006989	South Lake, Resort Village of	Chip Seal 1 km of Road	Chip seal 1 km of road from 501 Tatanka Drive to 703 Tatanka drive. The objective of the project is to extend the useful life of the road.	Local Roads and Bridges	\$48,750.00	\$40,590.65	24-Jul-24
455	2425-006990	Aberdeen, Town of	Sidewalk and Curb Construction	Construct a sidewalk with a curb in front of 10 units of senior housing. The sidewalk will be 1.8 meters wide and 115 meters long. The object is to increase public usage of the infrastructure.	Local Roads and Bridges	\$71,825.60	\$71,825.60	31-Aug-24

No.	Project ID#	Ultimate Recipient	Project Title	Project Description	Investment Category	Total Project Cost	Funds (CCBF) Spent in 2024	Estimated Project End Date
456	2425-006991	Esterhazy, Town of	Replacement of Water Meters	Replace 1200 domestic water meters and 100 commercial-sized water meters and install two network arrays in the community to ensure continuous communication with the meters. Many meters in the community are over thirty years old and are no longer capable of reading flows accurately. This technology also allows for real-time monitoring of the system, enabling the town to locate even minor leaks and address them before they become major issues. It also enables the property owner to detect all internal leakage from fixtures, etc., saving both valuable treated water and expenses.	Drinking Water	\$1,168,983.96	\$1,168,983.96	31-Dec-24
457	2425-006994	Kipling, Town of	Recap Pavement of 3rd and 6th Avenue	Plan, prep, and pave the 200 block of 6th Avenue and the 200 block of 3rd Avenue	Local Roads and Bridges	\$101,943.68	\$101,943.68	23-Aug-23
458	2425-006995	Wilkie, Town of	Construction of New Wilkie Swimming Pool	Build a new 371.6 square meters outdoor swimming pool with beach entry, water slide and diving board. The project will also include the construction of a new 371.6 square meters building for change room, lifeguard office, and mechanical room. The new pool will replace a very aging swimming pool that is at the end of its useful life. The new pool will improve access for all abilities and ages with the beach entry and zero barrier change room building.	Recreational Infrastructure	\$2,676,150.00	\$447,835.57	31-Dec-25
459	2425-006996	Sun Valley, Resort Village of	Crack Seal 4.3 km of Road	Crack seal 4.3 km of road to extend the service life of the infrastructure.	Local Roads and Bridges	\$8,480.00	\$8,480.00	1-May-24
460	2425-006998	Canwood, Rural Municipality of	Replace Wreford Bridge With Culvert	Replace a bridge with two culverts. The size of the first one is height 15.20 m and Width 16.60 m. The height of the second one is 15.20 m and width 7 m.	Local Roads and Bridges	\$650,000.00	\$0.00	30-Sep-25
461	2425-006999	Moose Jaw, Rural Municipality of	Clay Cap Range Road 2270	Upgrade 2.3 km of Range Road 2270 with clay cap to ensure traffic continues to take the shortest route possible to the City of Moose Jaw.	Local Roads and Bridges	\$185,818.00	\$185,818.00	12-Jun-24
462	2425-007000	Delisle, Town of	Construction of South End of Potash Trail	Expand southward the constructed road surface of Potash Trail. It will be a heavy-load gravel road in conjunction with a major new industry that will be starting in the vicinity. The extension work involves topsoil stripping, roadway construction with a gravel surface, and placement of a 50 cm culvert. The length of the road is 68.5 m, and the width is 8 m. This new road extension will benefit the new industry starting in the area as well as other future industries.	Local Roads and Bridges	\$35,314.60	\$35,314.60	18-Nov-24
463	2425-007004	Speers, Village of	Upgrade Water Pumps	Upgrade the drinking water pumps such as the waterworks pump, chemical pump, and the sprinkler pump to make sure the water is pumping properly within the village.	Drinking Water	\$6,222.81	\$6,222.81	7-Feb-22

No.	Project ID#	Ultimate Recipient	Project Title	Project Description	Investment Category	Total Project Cost	Funds (CCBF) Spent in 2024	Estimated Project End Date
464	2425-007006	Victory, Rural Municipality of	Replacement of Culvert at ENE 9-21-10-W3	Replace the culvert at the E NE 9-21-10-W3. Replacing the 1.8 m x 24 m culvert with a 1.6 m x 36 m culvert will improve the safety of the traveling public and ratepayers as this culvert is starting to fail.	Local Roads and Bridges	\$213,160.56	\$92,362.47	29-Nov-24
465	2425-007008	Monet, Rural Municipality of	Installation of Back Up Generator at Uniplex	Install back-up generator to be used as backup power for the Elrose-Monet Uniplex. The Uniplex is the municipality's skating and curling rink and indoor swimming pool. It is listed on a joint emergency plan as the evacuation centre. In the case of an extended power failure the Uniplex could function as normal or can be utilized as an emergency centre. A half of the cost was capitalized by the Town of Elrose and half by the RM.	Recreational Infrastructure	\$41,975.92	\$21,015.08	1-Jan-22
466	2425-007009	Monet, Rural Municipality of	Upgrade Water Treatment Plant	Upgrade a bottom fill with a 76.2 mm hose adapter to the truck-fill at the municipal water treatment plant to the existing top fill. The project also added a key fob system to the existing coin box for both the existing top fill and new bottom fill, as well as a concrete pad to divert spilled water away from the building. The project will increase accessibility to the potable water supply within the municipality.	Drinking Water	\$53,545.30	\$53,545.30	31-Oct-24
467	2425-007010	Imperial, Town of	Curling Rink Roof Replacement	Replace the curling rink roof by installing new arena shield 15.24 cm fiberglass insulation over the purlins to increase the energy efficiency of the building as well as stop leaks from occurring.	Sport Infrastructure	\$156,219.62	\$120,931.29	3-Dec-24
468	2425-007012	Shellbrook, Rural Municipality of	Repair Holbein North Road	Repair two road sections of Highway No. 693 within the municipality with lengths of 80 m and 400 m. The repairs include waste excavation, installation of woven geotextile, construction of roadway embankments, and placement of granular base course. Repairs will be made to improve the usage of public infrastructure.	Local Roads and Bridges	\$535,871.22	\$260,871.22	31-Dec-24
469	2425-007014	Spy Hill, Village of	Road Chip Seal	Chip sealed the road from 1st Street to King Street. The project was 944.88 m long and 7.31 m wide. The outcomes include increasing the load limit capacity, public usage of infrastructure, and estimated service life of the road.	Local Roads and Bridges	\$47,700.00	\$47,700.00	17-Jun-24
470	2425-007015	Lampman, Town of	Repair Water Well	Repair drinking water wells to improve water quality.	Drinking Water	\$77,361.84	\$77,361.84	31-Mar-24
471	2425-007016	Buckland, Rural Municipality of	Pave Buckland Road	Pave Buckland Road for approximately 1 km to increase the load limit capacity and estimated service life, as well as to decrease travel time.	Local Roads and Bridges	\$439,243.15	\$398,334.22	31-Dec-25

No.	Project ID#	Ultimate Recipient	Project Title	Project Description	Investment Category	Total Project Cost	Funds (CCBF) Spent in 2024	Estimated Project End Date
472	2425-007017	Cupar, Rural Municipality of	Clay Cap East of 29 and 32-23-16-W2 on 640 Grid	Add a layer of clay to the road to create a safer driving surface. The road is well-used, with a daily traffic count of 190 vehicles at the south end. It is on the Clearing the Path Corridor, which provides a network of primary weight roads to improve economic development. The length is 2.1 km, and the road width was tendered at a minimum of 8.6 m.	Local Roads and Bridges	\$150,665.98	\$150,665.98	8-Jun-23
473	2425-007018	Riverhurst, Village of	Upgrade Sewage Lift Station	Upgrade Sewage Lift Station which involves rehabilitation for the overall condition that indicates it has very little to no service life left and could fail without warning. A rating of around 70 per cent may warrant some parts being replaced due to their critical role in the pumping system.	Wastewater	\$62,222.00	\$62,222.00	31-Oct-24
474	2425-007019	Melville, City of	Renew Sidewalk, Walking Trail, and City Roads	Repave 2,062 m2 of Melville city roads. Mill and fill of three Major Urban Connectors - Columbia Street from 8th Avenue to Prince Rupert Street (360 m), Queen Street from Halifax Street to 7th Avenue (700 m), and Veterans Road from 7th Avenue West to 9th Avenue W (235 meters). Pave secondary streets - Mall Road (115 m2), 740 7th Avenue West (440m2), and Montreal Street and 7th Avenue E (210m2). Walking trail renovation of Prince Edward to Park Boulevard (1081 m2) and Pool Pathways (556 m2) by placing overlay on the existing asphalt. Sidewalk installation, as part of the City of Melville Transportation Master Plan, these are the locations identified as locations that lack pedestrian infrastructure. 7th Avenue from Dielscheider to Highway #10 and then from Highway #10 to Heritage Drive (to the hospital) 200 m, 3rd Avenue East from Manitoba Street to Montreal Street (where Davison Elementary School is located) 364 m and Halifax Street to Main Street from Halifax/Prince Rupert to the mall entrance 300 m. The following two works were added to this IIP: Mill and overlay of Columbia Street from Prince Williams to Veteran's Way (1,375 sq m). Mill and overlay of Mall Road from Prince Williams to Veteran's Way (1,325 sq m).	Local Roads and Bridges	\$1,122,606.45	\$1,062,397.19	31-Aug-24

No.	Project ID#	Ultimate Recipient	Project Title	Project Description	Investment Category	Total Project Cost	Funds (CCBF) Spent in 2024	Estimated Project End Date
475	2425-007021	Melville, City of	Replace Lift Station #3 Pipe	Complete rebuild of the piping in the dry cell of the City's Lift Station #3. The catchment area that this pump station services is approximately 366 serviced lots including an elementary school, with an estimated population of 1,325. The work to be completed is: set up temporary pumping, excavate exterior piping, replace both outside 15.24 cm valves, replace piping through wall with stainless steel. Backfill excavation, remove existing 10.16 cm piping, replace with new 10.16 cm stainless steel, replace existing valves and check valves, install new 10.16 cm flow meter, remove temporary pumping.	Wastewater	\$149,721.63	\$149,721.63	20-Dec-24
476	2425-007022	Melville, City of	Reline Sewer Manholes	Reline 8 manholes. The process involves applying a durable and impermeable lining to the interior surfaces of manholes, effectively restoring structural integrity.	Wastewater	\$87,768.00	\$87,768.00	30-Jun-24
477	2425-007023	Buckland, Rural Municipality of	Rebuild Montgomery Street and 3rd Avenue	Rebuild Montgomery Street and 3rd Avenue. The road has been failing despite several attempts at surface repair. The plan is to rebuild the base and apply gravellock which is a road stabilizer product.	Local Roads and Bridges	\$130,203.00	\$0.00	1-Nov-25
478	2425-007025	Spiritwood, Town of	Repair First Street East and Second Street West	Asphalt repairs and street patching of areas on 1st Street East and 2nd Street West for a total distance of 1,881.54 sq m. The project involves milling asphalt, installing fabric, and compacting areas with hot mix and asphalt for repairs and patching. This project will increase the estimated service life and public usage of the infrastructure. 1st Street East is a direct emergency route to the health facility in town, and 2nd Street West is a heavily used roadway for businesses and the elementary schools in town.	Local Roads and Bridges	\$169,600.00	\$169,600.00	16-Aug-24
479	2425-007026	Kamsack, Town of	Construct Transfer Station	Construct transfer station due to the Town of Kamsack's landfill being set to close in 2025. This transfer station is engineered and designed to allow larger vehicles to dump solid waste into four bins that will be transferred to a registered landfill. This project will effect every resident in the Town of Kamsack.	Solid Waste	\$1,228,954.08	\$585,514.70	20-Dec-24
480	2425-007028	Rush Lake, Village of	Upgrade Sewer Line	Upgrade the sewer line located under 2nd Avenue from 4th Street to 5th Street to increase its durability. Excessive breaks in this section of the line have shown that the quality of this pipe is substandard compared to the rest of the sewer system. The village wants to upgrade this section to be on par with the rest of the system.	Wastewater	\$2,734.80	\$2,734.80	5-Aug-24

No.	Project ID#	Ultimate Recipient	Project Title	Project Description	Investment Category	Total Project Cost	Funds (CCBF) Spent in 2024	Estimated Project End Date
481	2425-007029	Rush Lake, Village of	Rework Plumbing for Rink Flood Water	Rework the plumbing in the Community Skating Rink to flood the natural ice surface with chlorine-free water. The plumbing would be tied from the village backup well directly into the holding tank, and the rink would be flooded on its own separate waterline.	Recreational Infrastructure	\$3,985.60	\$3,985.60	12-Nov-24
482	2425-007030	Viscount, Village of	Hydrant and Valve Replacement	Replace the hydrant and valve on the corner of Drake Avenue and Francis Street. The hydrant being replaced is from the 1960s and is well past the life expectancy.	Drinking Water	\$11,660.00	\$11,660.00	21-Mar-21
483	2425-007031	Viscount, Village of	Replace Sewer Line	Replace municipal sewer lines in various locations due to age and deterioration.	Wastewater	\$28,847.90	\$27,727.19	30-Jun-23
484	2425-007033	Lumsden, Rural Municipality of	Clay Cap 12 km of Pense Grid Road	Clay cap portion of the Pense Grid road that falls within the jurisdiction of the municipality. The project will cover approximately 12 km of road.	Local Roads and Bridges	\$1,464,081.00	\$756,095.43	31-Oct-21
485	2425-007034	Carnduff, Town of	Upgrade and Replace Four Fire Hydrants	Replace four non-functioning fire hydrants with improved features. The locations are scattered throughout the town. The expected outcomes will ensure the ability to properly flush and circulate water lines, and provide access to the water supply in times of an emergency, such as a fire or water line break.	Drinking Water	\$75,094.82	\$75,094.82	2-Dec-24
486	2425-007035	Lumsden, Town of	Rehabilitation of Municipal Roads	Rehabilitate municipal roads by repaving eight major roads in town with the objective of improving local roads infrastructure in the municipality.	Local Roads and Bridges	\$941,723.00	\$725,302.88	14-Dec-24
487	2425-007037	Caronport, Village of	Pavement of College Drive	Pave College Drive, which includes shaping of the existing material, installation of a tack coat, and installation of 76.2 mm of asphalt. The road width would be 7.62 m wide.	Local Roads and Bridges	\$68,237.50	\$68,237.50	30-Sep-24
488	2425-007038	Caronport, Village of	Pavement of Dogwood Street	Construct an asphalt surface on Dogwood Street from the existing asphalt on the south end to Larch Street. This includes shaping the existing material, installing a tack coat, and installing 7.62 cm of asphalt. The road width would be 6.1 m wide.	Local Roads and Bridges	\$84,694.00	\$84,694.00	30-Sep-24
489	2425-007039	Caronport, Village of	Repair South End of Larch Street	Repair Larch Street near the south end, where it has failed. This would involve removing the broken asphalt, recompacting the existing material, and installing 7.62 cm of asphalt, which would be 22.86 m long by the width of the road.	Local Roads and Bridges	\$17,490.00	\$17,490.00	30-Sep-24
490	2425-007041	Caronport, Village of	Repair Larch Street	Construct an asphalt surface on Larch Street between the two existing asphalt sections. This repair would consist of shaping the existing material, installing a tack coat, and installing 7.62 cm of asphalt. The road width would be 6.7 m wide.	Local Roads and Bridges	\$61,268.00	\$61,268.00	30-Sep-24

No.	Project ID#	Ultimate Recipient	Project Title	Project Description	Investment Category	Total Project Cost	Funds (CCBF) Spent in 2024	Estimated Project End Date
491	2425-007042	Caronport, Village of	Pave Intersection at Dogwood and Larch Street	Repair the intersection of Larch and Dogwood Street. This would involve removing the broken asphalt, recompacting the existing material, and installing 76.2 mm of asphalt.	Local Roads and Bridges	\$9,412.80	\$9,412.80	30-Sep-24
492	2425-007043	Caronport, Village of	Repair Paving on Birch Street	Installation of 102.19 sq m of asphalt repairs on a section of Birch Street between Valleyview Drive and First Avenue to increase the estimated service life.	Local Roads and Bridges	\$12,720.00	\$12,720.00	30-Sep-24
493	2425-007044	Debden, Village of	Upgrade Lagoon Berm	Upgrade sections of the lagoon that are showing extensive signs of erosion. The project involves hauling in suitable fill and installing Flexamat, which is a vegetated concrete mat. On top of this, more fill and top will be applied with grass seed to one cell wall within the municipality.	Wastewater	\$41,000.00	\$37,005.10	30-Jun-25
494	2425-007046	Debden, Village of	Standalone Study - Drinking Water and Treatment Plant Assessment	Conduct an initial Drinking Water and Water Treatment Plant Assessment to determine what Plant upgrade the municipality will use to provide safe and potable water.	Drinking Water	\$7,391.75	\$7,391.75	31-Mar-26
495	2425-007051	Chitek Lake, Resort Village of	Improve Energy Efficiency to Village Shops	Upgrade two shop fans, control switches, and led lights to improve energy heating efficiency thought the building.	Community Energy Systems	\$5,626.48	\$5,626.48	23-Dec-24
496	2425-007052	Lac Pelletier, Rural Municipality of	Replacement of Culvert	Replace a culvert and building on the road at TWP124 between RR 3133 and RR 3132. There is a SaskTel line that is above the culvert and in the middle of the road. The municipality needs to change the culvert as it is a bad draining area.	Local Roads and Bridges	\$6,086.25	\$6,086.25	15-Aug-24
497	2425-007054	Old Post, Rural Municipality of	Repair Pickthall Road and Replace Culverts	Repair and upgarde 1.6 km on the Pickthall Grid Road and replace two 1200 mm culverts. The project will increase the estimated service life of the road infrastructure.	Local Roads and Bridges	\$116,726.35	\$116,726.35	26-Jul-18
498	2425-007055	St. Philips, Rural Municipality of	Install Energy Efficient Upgrades at RM Shop	Install energy efficient upgrades at the RM shop. This will include an energy efficient furnace, metal roof, metal doors and energy efficient LED lighting. This will decrease operating costs and ensuring that building is sustainable for several years to come.	Community Energy Systems	\$249,274.51	\$17,168.39	5-Jan-22
499	2425-007056	Vanscoy, Rural Municipality of	Seal Coat Municipal Roads	Seal coat roads at various locations within the municipality, totalling 106,560 sq m.	Local Roads and Bridges	\$298,726.45	\$298,726.45	31-Aug-24
500	2425-007057	Vanscoy, Rural Municipality of	Upgrade 0.8 km Roadway on RR 3091 and TWP 342 East	Upgrade 0.8 km of roadway on RR 3091 and TWP 342 East. The current road requires upgrading of the driving surface as it is deteriorating due to heavy traffic. The materials used for this project are 1003.3 m2 of clay and 250.8 m2 of gravel. The width of the road is 8 m, and the elevation is 1.2 m.	Local Roads and Bridges	\$25,756.00	\$25,756.00	9-Aug-24

501	2425-007058	Vanscoy, Rural Municipality of	Construct 0.40 km Roadway on RR 3092 NE 15-34-09 W3	Construct a new portion of roadway 0.40 km in length on RR 3092 NE 15-34-09 W3. There is no existing road in the area, and this road is being built because of a new residential property. Construction will include ditches on both sides of the road and one 450 mm x 12 m culvert. The width of the road is 7.4 m, and the elevation is 1 m.	Local Roads and Bridges	\$23,247.25	\$23,247.25	26-Sep-24
502	2425-007059	Vanscoy, Rural Municipality of	Construct 0.53 km Roadway on RR 3081 south TWP 343	Construct a new portion of roadway 0.53 km in length on RR 3081 south of TWP 343. There is no existing road in the area, and this road is being built because the existing property has no access. Construction will include ditches on both sides of the road, but no culverts are required. The road width is 7 m, and the elevation is about 1.2 m.	Local Roads and Bridges	\$55,013.64	\$47,513.64	30-May-25
503	2425-007060	Vanscoy, Rural Municipality of	Upgrade 1.6 km Roadway on RR 3080 South 766	Upgrade 1.6 KM roadway on RR 3080 south on 766. The current road requires upgrading as it is suffering major deterioration due to high traffic. The road upgrades require clay clapping and reshaping of existing ditches but no culverts. The width of the road is 8 meters, and the elevation is 1 meter.	Local Roads and Bridges	\$95,674.90	\$95,674.90	7-Nov-24
504	2425-007061	Vanscoy, Rural Municipality of	Upgrade 1.6 km Roadway on RR 3082 and TWP 364	Upgrade 1.6 km roadway on RR 3082 and TWP 364. The current road requires upgrading because the roadway is suffering major deterioration due to high traffic. Materials used for this upgrade are 1672.2 m2 of sand and clay and 334.4 m2 of gravel. The width of the road is 8 meters, and the elevation is 1 meter.	Local Roads and Bridges	\$111,313.68	\$111,313.68	20-Sep-24
505	2425-007062	Viscount, Rural Municipality of	Installation of Energy Efficient Upgrades at Municipal Shop	Construct new municipal shop with energy efficient aspects such as triple pane windows, LED lighting, in-floor heat, increased insulation, metal clad doors (man and overhead) and metal clad roofing. The main objective of the project is to be as energy efficient as possible.	Community Energy Systems	\$900,000.00	\$0.00	31-Oct-26
506	2425-007063	Viscount, Rural Municipality of	Construction of Regional Landfill	Construct new regional landfill and replace site located on SE 31-35-21-2 with a design life capacity of over 65 years. The existing regional landfill needs replacement because it has reached its capacity.	Solid Waste	\$9,300.00	\$9,300.00	1-Apr-22

No.	Project ID#	Ultimate Recipient	Project Title	Project Description	Investment Category	Total Project Cost	Funds (CCBF) Spent in 2024	Estimated Project End Date
507	2425-007064	Debden, Village of	Replace Two Fire Hydrants	Replace two fire hydrants in the village. The on-line hydrants in the municipality will all be replaced with off-line hydrants where possible. This will reduce having to shut off the main water supply when conducting maintenance, therefore reducing boiler water advisories.	Drinking Water	\$20,186.47	\$20,186.47	29-Nov-24
508	2425-007065	Goodwater, Village of	Repair Lagoon Berm	Repair village of Goodwater lagoon berms by adding additional clay to the berms to increase the longevity and integrity of the berm structure for future years to come.	Wastewater	\$8,925.00	\$8,925.00	27-Aug-24
509	2425-007066	Vanscoy, Village of	Repair East 2nd Avenue	Repair East 2nd Avenue by Digging out asphalt, compacting crushed gravel, and placing hot mix asphalt to complete the repairs in the streets.	Local Roads and Bridges	\$43,964.56	\$43,964.56	2-Jul-24
510	2425-007067	Fertile Valley, Rural Municipality of	Replace Large Culvert at NW 16-30-10-W3	Replace a large culvert that collapsed this spring due to increased rainfall in the municipality that caused the road shoulder to cave in. The diameter of the culvert that will be installed is 1800 mm diameter x 18 m x 2.8 mm.	Local Roads and Bridges	\$16,027.38	\$2,371.60	17-Oct-24
511	2425-007068	Mossbank, Town of	Installation of New Water Main	Install New Water Main at Centennial Drive Expansion in the municipality.	Drinking Water	\$192,441.68	\$192,441.68	31-Oct-22
512	2425-007069	Mossbank, Town of	Installation of New Sewer Main	Install New Sewer Main at Centennial Drive Expansion.	Wastewater	\$150,481.86	\$150,481.86	31-Oct-22
513	2425-007070	Naicam, Town of	Installation of Fire Hydrants	Install and replace fire hydrants that allow water lines to be flushed multiple times during the year to ensure safe drinking water. Two hydrants were replaced and there was a new installation at a dead end of a service line.	Drinking Water	\$58,902.83	\$58,902.83	16-May-24
514	2425-007071	Grandview Beach, Resort Village of	Resurface Poplar Street	Resurface Poplar Street with a recycled shingled product mixed with a gravel mixture or gravel and sand. The objective of the project is to have permanent dust control and a finished project equivalent to pavement.	Local Roads and Bridges	\$22,561.04	\$22,561.04	30-Jul-24
515	2425-007072	Eagle Creek, Rural Municipality of	Replacement of Range Road 3103 Bridge	Replace Range Road Bridge 3103 at SE 16-37-10-W3. Six new piles were installed and sway braces were replaced. The east stringer was replaced. The bridge flooring was replaced as well as the railings and wheel guards and posts. The remainder of the bridge will also be upgraded including the west stringer and bridge surface.	Local Roads and Bridges	\$119,250.00	\$119,250.00	6-Dec-24
516	2425-007073	Oxbow, Town of	Upgrade Drainage Ditch on Galloway Drive	Throttle the flow and lengthen the life span of the eroding drainage ditch by installing a raised manhole in the ditch north of Galloway Drive to allow for the drainage ditch to retain surface water to throttle the drainage under Galloway drive to the drainage ditch and down the valley to the Souris River, the raised manhole will have an overflow system installed to allow for quick drainage in extreme rain events.	Resilience	\$83,604.90	\$83,604.90	30-Nov-24

No.	Project ID#	Ultimate Recipient	Project Title	Project Description	Investment Category	Total Project Cost	Funds (CCBF) Spent in 2024	Estimated Project End Date
517	2425-007074	Rockglen, Town of	Replacement of Sidewalk and Curb	Replace and repair three blocks of sidewalk and curb within the Town of Rockglen. The project objective and outcome is to beautify the three blocks and gain safe access for residents of the municipality. It will also increase public usage of the infrastructure as well as prolong the viability of the community and make it a safe and attractive destination.	Local Roads and Bridges	\$140,000.00	\$11,062.48	31-Oct-25
518	2425-007075	Fox Valley, Village of	Replace Backwash Pump at Water Treatment Plant	Replace the existing pump that stopped working and install a new pump at the water treatment plant, along with a new relay overload. This will increase premises with improved-quality water and protect the water supply.	Drinking Water	\$991.39	\$991.39	24-Nov-23
519	2425-007076	Calder, Rural Municipality of	Replacement of Bridge with Culverts	Replace a bridge in the municipality with three large culverts. The project will remove a long decaying bridge to a long term replacement of approximately fifty years with three new large culvert placements. The size of the culverts is 2700 mm x 24.4 meters.	Local Roads and Bridges	\$126,148.88	\$126,148.88	10-Aug-24
520	2425-007077	Calder, Rural Municipality of	Replacement and Installation of Culverts	Install a new culvert 800 mm x 10 meters and higher on the road grade and slope a proper ditch system to allow the water to drain properly from one side of the road to the other side. The project will also replace a culvert 800 mm x 15 meters in the abandoned railway system to control the water on both sides of the municipal road to prevent flooding and damage to municipal infrastructure.	Local Roads and Bridges	\$2,898.30	\$2,898.30	30-Oct-24
521	2425-007078	Calder, Rural Municipality of	Build Road and Install Culvert	Install a new culvert 800 mm x 8 meters, build up the road, and clear road allowance for 0.8 km to improve the road for travel. This will allow the road to be used more, as it is presently used only half of the seeding season. The culvert installation, building up the road, and placement of a proper ditch system will allow for continuous use of the road and lessen travel time.	Local Roads and Bridges	\$15,000.00	\$0.00	31-Dec-25
522	2425-007079	Calder, Rural Municipality of	Installation of Culvert	Install a new culvert 800 mm x 10 m and raise it on the road grade, and slope a proper ditch system to allow the water to drain properly from one side of the road to the other side. This will allow the road to be used more, as it is presently only used half of the seeding season. The continuous use will lessen travel time for road users.	Local Roads and Bridges	\$636.00	\$636.00	15-Oct-24

No.	Project ID#	Ultimate Recipient	Project Title	Project Description	Investment Category	Total Project Cost	Funds (CCBF) Spent in 2024	Estimated Project End Date
523	2425-007080	Carrot River, Town of	Replace Watermain at First Street West	Replace 150 meters of 150 mm ductile iron watermain with 150 meters of 150 mm HDPE watermain by directional drilling on First Street West between Third Avenue and Oak Avenue intersections. Replacement is to ensure safe drinking water to five direct households and to decrease watermain breaks.	Drinking Water	\$97,653.74	\$97,653.74	30-Sep-24
524	2425-007081	Radville, Town of	Upgrade Water Treatment Plant Ventilation System	Upgrade the ventilation system in the water treatment plant to provide proper ventilation and reduce and remove unwanted contaminants in the building.	Drinking Water	\$80,159.85	\$80,159.85	13-Nov-24
525	2425-007082	Windthorst, Village of	Install Generator at Water Treatment Plant	Install a natural gas generator at water treatment plant to provide power during power outage to continue provide water to the residents of the village and decrease the amount of water advisories that occur when we have a power outage due to a loss of pressure in our water system. This will also prevent disaster that could occur if there were a prolonged power outage during the winter and our water treatment plant was without heat for a longer period of time.	Drinking Water	\$40,000.00	\$17,047.81	31-Jan-25
526	2425-007083	Meota, Rural Municipality of	Rehabilitation of Jackfish Road	Rehabilitate Jackfish Road to widen and reconstruct a main farm access road in the municipality. 250 m of old culvert will be replaced with 330 m of new, 111,000 meters of earth excavation, removal and replacement of topsoil and hauling, clay capping and gravel incorporation. The total distance of the construction project is 6 km.	Local Roads and Bridges	\$1,079,879.90	\$377,804.80	8-Nov-24
527	2425-007084	Dinsmore, Village of	Upgrade Campground Infrastructure	Upgrade campground infrastructure consisting of power at the local campground which included replacement of the overhead feed to the washroom and shower building, underground cable repair, and installation of 30 amp RV receptacles.	Recreational Infrastructure	\$7,026.67	\$7,026.67	19-Aug-22
528	2425-007085	Minton, Village of	Reconstruct Sidewalk	Reconstruct 30.48 m of sidewalk to create a new wheelchair-accessible path and eliminate a potential safety hazard. The upgrade will improve accessibility and safety for all pedestrians, particularly those with mobility challenges.	Local Roads and Bridges	\$34,251.75	\$0.00	31-Dec-25
529	2425-007086	Eagle Creek, Rural Municipality of	Installation of Metal Clad Door	Install metal clad door for the building to be better heated and secured thus creating a safer workspace for the municipal shop for many years to come. It will save a lot of expenses in heating as the door is now a commercial metal clad, energy efficient door that seals the opening when shut.	Community Energy Systems	\$34,849.62	\$34,849.62	24-May-24

No.	Project ID#	Ultimate Recipient	Project Title	Project Description	Investment Category	Total Project Cost	Funds (CCBF) Spent in 2024	Estimated Project End Date
530	2425-007087	Reford, Rural Municipality of	Development of Asset Management Plan	Develop asset management plan through the purchase of asset management software to provide asset management tracking to the municipality.	Capacity Building	\$11,384.40	\$11,384.40	16-Jul-24
531	2425-007088	Wawota, Town of	Replace Water Line at Hall Street	Replace old water lines as they were leaking or breaking. New PVC pipe was used to replace the old pipe.	Drinking Water	\$163,796.20	\$163,796.20	31-Mar-21
532	2425-007089	Windthorst, Village of	Conduct Drainage Survey and Construction	Conduct a drainage survey and an engineered drawing within the village for constructing optimal drainage in the area.	Resilience	\$25,000.00	\$7,126.83	31-Jul-25
533	2425-007091	Hepburn, Town of	Reconstruction of Sidewalk	Reconstruct the sidewalks on the 400 and 500 Blocks of 1st Street E and the 400 Block of 2nd Street E by replacing approximately 723.62 sq m of sidewalk with concrete.	Local Roads and Bridges	\$92,108.17	\$92,108.17	31-Oct-24
534	2425-007092	Hepburn, Town of	Reline Sewer Lines at 2nd Ave South	Reline Sewer lines at 2nd Avenue South with the Installation of approximately 190 m of polyester felt liner and open all service connections as necessary. Completing this work now will increase the life expectancy of the municipality's sewer mains.	Wastewater	\$71,285.00	\$71,285.00	31-Oct-24
535	2425-007093	Swift Current, City of	Replacement of Aquatic Centre Roof	Replace the 1,519.89 sq m aquatic centre roof. The project will be installing new wood plank decking (double T&G), vapour barrier, 76.2 mm and 63.5 mm polyisocyanurate insulation and 1 ply 60 mim EPDM membrane.	Recreational Infrastructure	\$758,439.74	\$758,439.74	31-Dec-24
536	2425-007096	Foam Lake, Town of	Clay Cap Chant Street	Clay Cap Chant Street road which provides access to the town ball diamonds and the Foam Lake Community Hall. The project would require the excavation of 365 m of the road to dig out the black dirt and haul in clay to lift the road by 0.3048 m and clay cap the road. The majority of the material on the road will be replaced and gravelled with 58.58 m of road-grade material gravel at the end of the project.	Local Roads and Bridges	\$70,270.43	\$70,270.43	9-Aug-24
537	2425-007097	Hepburn, Town of	Repair Roof at Hepburn and District Arena	Remove the roof ridge cap and metal cladding. Remove and dispose of damaged timber framed gable peak and repair/replace any damaged roof decking. Supply and install ice/water underlay and install strapping. Re-install metal roofing and ridge cap. This project will increase the service life of the asset and ensure it is preserved.	Recreational Infrastructure	\$69,812.66	\$0.00	31-Dec-25

No.	Project ID#	Ultimate Recipient	Project Title	Project Description	Investment Category	Total Project Cost	Funds (CCBF) Spent in 2024	Estimated Project End Date
538	2425-007098	Hepburn, Town of	Renovation of Heritage Common Community Centre	Renovate aging components of the Heritage Common Community Centre and remove existing roofing materials, including any damaged roof decking. Install new roof shingles, vents, drip edge, and flashings as necessary. Also, install a self-levelling compound to level the floor of the banquet hall to create a smooth and level surface for installing new commercial-grade vinyl tile flooring and rubber baseboards.	Recreational Infrastructure	\$45,288.50	\$45,288.50	31-Oct-24
539	2425-007099	Moosomin, Town of	Construction of Airport Runway	Construct new 1,524 meters paved runway to accommodate Saskatchewan Air Ambulance and various commercial interests in the municipality.	Regional and Local Airports	\$929,950.00	\$385,990.00	31-Dec-25
540	2425-007100	Cadillac, Village of	Installation of Water Plant Power Generator	Install a water plant generator as an alternative source of power supply to the water treatment plant when the current power grid fails. This will insure continuous safe water supply to the residents in the municipality.	Drinking Water	\$37,461.39	\$35,773.94	14-Mar-25
541	2425-007101	Neudorf, Village of	Replace piping at Sewer Lift Station	Replacing all decade piping and valving at the sewage lift station.	Wastewater	\$41,856.22	\$41,856.22	10-Sep-24
542	2425-007102	Punnichy, Village of	Upgrade Lift Station Pumps & Surge Protector	Upgrade the Lift Station by cleaning the facility, removing sewage, and repairing or replacing damaged pumps. Install surge protection to mitigate storm-related outages. Purchase and install a new pump to complete the upgrades, ensuring continuous and reliable wastewater processing to meet the village's needs.	Wastewater	\$58,264.10	\$0.00	30-Jun-25
543	2425-007103	Ridgedale, Village of	Construct New Water Distribution System	Construct a new potable water distribution system to replace the damaged infrastructure rendered inoperative by fire, ensuring reliable access to clean water for the community.	Drinking Water	\$163,286.89	\$28,286.89	31-Dec-24
544	2425-007104	Waldeck, Village of	Construction of Fence at Recreation Hall	Construct a fence around the Waldeck Recreation Hall to ensure public safety and build a safer and more resilient community. The wooden fence is 34.75 m long and 1.52 m tall. The gate is 3.0 m tall. The fence will be built to the grade of the ground and have 0.3x1.8x1.5 m pickets and 60.33 mm galvanized posts.	Recreational Infrastructure	\$7,849.80	\$7,849.80	29-Nov-24
545	2425-007105	Good Lake, Rural Municipality of	Construction of Low-Level Crossing	Construct a low-level crossing to replace a previously dismantled 'Steel Bridge' that was located across the Whitesand River at SE 11-28-05-W2 in the municipality.	Local Roads and Bridges	\$245,000.00	\$20,044.16	31-Dec-25
546	2425-007106	Harris, Rural Municipality of	Upgrade Robertson Road	Build up Robertson Road due to blockages in the winter caused by snow and washouts in the spring and summer. This road services a feed lot, bus route and a neighbouring municipality's gravel pit access.	Local Roads and Bridges	\$64,925.00	\$64,925.00	31-Oct-24

No.	Project ID#	Ultimate Recipient	Project Title	Project Description	Investment Category	Total Project Cost	Funds (CCBF) Spent in 2024	Estimated Project End Date
547	2425-007108	Parkdale, Rural Municipality of	Upgrade Energy Efficient Heating & Cooling at Community Hall	Upgrade the hall infrastructure including upgrading the three existing furnaces to energy efficient models along with the accompanying three air conditioning units. Thereby, reducing the overall energy consumption.	Community Energy Systems	\$35,369.27	\$0.00	30-Jun-25
548	2425-007109	Balgonie, Town of	Renovate Administrative Building With Energy Efficient Upgrades	Renovate the administrative building with energy efficient upgrades consisting of energy efficient windows (triple pane) and doors, upgraded roof and insulation, installation of energy efficient HVAC systems (four high efficient furnaces, one cold/heat pump) and LED lighting.	Community Energy Systems	\$1,046,725.08	\$245,975.83	1-Feb-20
549	2425-007113	Prelate, Special Service Area of	Renovation of Community Centre Roof	Renovate the community centre roof with a new insulated roof to prolong the service life and improve energy efficiency of the building.	Recreational Infrastructure	\$33,570.30	\$33,570.30	1-Aug-19
550	2425-007114	Prelate, Special Service Area of	Upgrade Water Supply System	Upgrade the water supply system by repairing and servicing the well at the river that pumps water into the town pipeline, including installation of a new pump.	Drinking Water	\$27,574.33	\$8,008.93	30-Nov-21
551	2425-007119	Montrose, Rural Municipality of	Clay Cap O'Malley Road	Clay caps O'Malley Road for 1.60 km, 12.70 cm thick, and 20.11 meters across. The objective is to improve road structure and to upgrade heavier traveled roads consistently.	Local Roads and Bridges	\$65,767.49	\$0.00	30-Nov-25
552	2425-007122	Parkdale, Rural Municipality of	Clay Cap Range Road 3163	Reconstruct the road by clay capping the area to build a road surface suitable for traffic. The road surface and ditch were constructed to the proper slope or grade, and gravel was applied to complete the project. The upgrade was done to maintain the usefulness of the road.	Local Roads and Bridges	\$16,855.00	\$16,855.00	15-Jul-24
553	2425-007124	Harris, Village of	Replacement of Sidewalks	Replace and upgrade key sidewalks which are deteriorating due to age and weather. The dimensions of the areas vary for the sidewalks. All measurements are in meters. 1. 97.54 x 1.83; 2. 24.38 x 1.82; 3. 8.23 x 1.22; 4. 48.77 x 1.82. Material to be used is cement and improvements to the sidewalks in key areas of the commercial zone will improve foot traffic and safety for visitors.	Local Roads and Bridges	\$40,000.00	\$0.00	31-Jul-25
554	2425-007125	Harris, Village of	Install curb stops at key locations in the village	Install curb stops to improve ability to discontinue water services at key locations in the water infrastructure.	Drinking Water	\$13,365.82	\$13,365.82	1-Jul-24

No.	Project ID#	Ultimate Recipient	Project Title	Project Description	Investment Category	Total Project Cost	Funds (CCBF) Spent in 2024	Estimated Project End Date
555	2425-007126	Harris, Village of	Upgrade Building Roofing, Heating and Lighting System	The roofing is upgraded to metal, the heating is high-efficiency, the insulation is spray foam with a rating of R-21 and the lighting is upgraded to LED. The project is to upgrade the existing building from a cold maintenance facility to a functional year-round usable building. New lighting, a new heating system, spray foam insulation and a new roof covering are being installed to provide year-round use of the municipal-only maintenance building.	Community Energy Systems	\$55,000.00	\$32,308.38	31-Mar-25
556	2425-007128	Marquis, Village of	Repair Wastewater Pump at Lift Station	Repair and diagnose issues with the wastewater pump at the lift station to restore its efficiency and optimal functionality. This will ensure uninterrupted operation and reliability of the lift station, which serves the Village's population of 90 residents.	Wastewater	\$6,658.24	\$6,658.24	1-May-24
557	2425-007130	Speers, Village of	Upgrade Lift Station	Upgrade the pumps and impellers at the sewer lift station to improve operation, increase longevity, and reduce energy consumption.	Wastewater	\$14,721.97	\$14,721.97	5-Jan-23
558	2425-007132	White Fox, Village of	Upgrade Filtration System in Water Treatment Plant	Upgrade filtration system of the water treatment plant with the removal and installation of new media to create a more efficient system to produce clean safe drinking water. The upgrade will allow for a decrease in chemical usage as well as energy usage.	Drinking Water	\$31,000.00	\$0.00	31-Oct-25
559	2425-007133	Muenster, Village of	Upgrade Railway Roads and Drainage Improvement	Upgrade approximately 3,000 meters of village interior roads from Taphorn to Railway Street, including the Range line between 1st and 4th Avenue. This project will encompass ditch and swale reconfiguration, culvert upgrades, road grading, gravel addition, and the capping and crowning of interior roads. Specifically, 3,017.5 meters of base and top gravel will be applied, with roads reshaped and edged to include 50-100 mm of new gravel, followed by an application of calcium chloride dust suppressant. Additionally, six culverts will be replaced and reset, with one new culvert installed. Three existing drainage channels will be excavated to reduce pothole formation, curb road deterioration, and improve ditch drainage and overall surface structure quality.  Council decided to do additional excavation to replace more soil in specified sections of road to eliminate organic material which was causing soft roads. The section of road replaced was also extended beyond the original planned area.	Local Roads and Bridges	\$240,000.00	\$219,148.73	21-Oct-24

No.	Project ID#	Ultimate Recipient	Project Title	Project Description	Investment Category	Total Project Cost	Funds (CCBF) Spent in 2024	Estimated Project End Date
560	2425-007134	Bulyea, Village of	Construct Lagoon Fence	Construct lagoon fence to minimize exposure to harmful elements and protect both humans and animals from health risks. It also prevents intrusions, because anything that can thrive in a lagoon is already there and no other creature should explore.	Wastewater	\$7,103.00	\$7,103.00	1-Nov-24
561	2425-007135	Arborfield, Town of	Upgrade Lift Station	Upgrade lift station by replacing the electrical panel and installing a backup generator for lift station #1 located at Second Street W. The upgrade would bring the electrical schematics up to date and allow for the addition of a switch to backup power. The backup generator would alleviate the problem of overloaded capacity in the event of a power failure.	Wastewater	\$25,000.00	\$0.00	31-Dec-26
562	2425-007136	Arborfield, Town of	Upgrade Community Hall Lighting	Upgrade community hall lighting by replacing the fixtures in the main hall with LED lighting. This would make the facility much more energy efficient. It would also enhance the facility for community events promoting tourism.	Community Energy Systems	\$10,000.00	\$0.00	28-Feb-25
563	2425-007137	Touchwood, Rural Municipality of	Repair Hartl Road	Repair Hartl Road which is considered a higher traffic road. Top soil will be removed and replaced in multiple locations. Selected hills will be cut back and selected ditches will be deepened to ensure no snow blockages. This will insure that traffic will be able to properly use this road during the winter months.	Local Roads and Bridges	\$154,611.60	\$154,611.60	28-Oct-24
564	2425-007138	Glen Harbour, Resort Village of	Construct multi-purpose outdoor green space	Construct a multipurpose outdoor green space featuring pickleball and basketball courts. The project includes site preparation, installation of granular fill, 63.5 mm of asphalt, and perimeter fencing, creating a versatile and functional recreational area.	Recreational Infrastructure	\$72,802.54	\$41,998.92	25-Oct-24
565	2425-007141	Piapot, Rural Municipality of	Upgrade Sandhill Road	Upgrade 1.60 km of Sandhill Road by building it up and putting a clay cap on it. The objective is to prevent snow buildup and to prevent water from pooling on the road. This will extend the useful life of the road, make it safer to travel around the year and require less maintenance. An additional 1.60 km was added to the project.	Local Roads and Bridges	\$171,677.60	\$99,350.20	9-Aug-24
566	2425-007143	Invermay, Rural Municipality of	Replacement of Culvert	A 1000 mm culvert was removed and replaced to extend the life of the road and to alleviate and issues caused by run off.	Local Roads and Bridges	\$5,329.10	\$5,329.10	8-Aug-22

No.	Project ID#	Ultimate Recipient	Project Title	Project Description	Investment Category	Total Project Cost	Funds (CCBF) Spent in 2024	Estimated Project End Date
567	2425-007144	Eldon, Rural Municipality of	Reconstruct Grid 684	Reconstruction of 4.9 km of Grid 684. The work includes topsoil stripping, approximately cubic 53,500 meters of import fill to compacted embankment, notching and widening, culvert replacements, surface mixing and compaction, granular base course placement, prime coat tack coat, and hot mix asphalt concrete pavement placement. The objective is to increase the road's useful life.	Local Roads and Bridges	\$227,440.00	\$227,440.00	4-Oct-23
568	2425-007145	North Battleford, Rural Municipality of	Clay Cap 1km of Wearing Road	Clay cap of 1 km of Wearing Road will increase life span of the road. It is a well travelled road throughout the RM as it connects to the Denholm Grid, and the City of North Battleford. The City of North Battleford landfill is also located on this grid. Most recent traffic count shows 100 trucks a day. The upgrade to the road will also lower the frequency of grading which will save the RM costs of fuel, manpower, etc.	Local Roads and Bridges	\$106,268.60	\$103,064.14	4-Oct-24
569	2425-007146	North Battleford, Rural Municipality of	Upgrade Portion of McMillan Road	Upgrade a section of McMillan Road in the RM's industrial area to extend its lifespan and support increased heavy traffic. The project includes a reinforced clay base to meet the needs of local construction and commercial businesses and to facilitate residential access. This enhancement will improve durability and safety in this high-traffic area, essential to the municipality's industrial operations.	Local Roads and Bridges	\$68,197.70	\$67,657.70	24-Jul-24
570	2425-007148	Maymont, Village of	Upgrade Roof of Library Building	Upgrade library building roof from by re-surfacing from asphalt shingles to tin. This project will make the roof maintenance-free as the tin never needs to be replaced.	Cultural Infrastructure	\$7,777.22	\$7,777.22	30-Sep-24
571	2425-007150	North Battleford, City of	Pave Territorial Drive	Pave Territorial Drive which has been falling over the years with a 65 mm thick asphalt overlay. The proposed project will include paving Territorial Dr with a 65mm thick asphalt overlay. The project will start on the intersection of highway 16 up to the intersection of Airport Road.	Local Roads and Bridges	\$540,603.32	\$442,354.85	30-Nov-24
572	2425-007153	Calder, Rural Municipality of	Culvert Replacements	Install two large-diameter culverts in between RM of Calder and RM of Churchbridge, to allow water to flow properly and not run over and damage the road every year.	Local Roads and Bridges	\$40,715.26	\$20,357.63	30-Aug-24

No.	Project ID#	Ultimate Recipient	Project Title	Project Description	Investment Category	Total Project Cost	Funds (CCBF) Spent in 2024	Estimated Project End Date
573	2425-007154	Martensville, City of	Upgrade 4th Street South Paving	Reconstruct the 4th Street South roadway by removing existing granular and asphalt layers across the full width and installing a 100 mm asphalt patch. This project covers areas of approximately 760 sqm. This project addresses roadway failure and prevents further damage to the sub-grade and road base. These measures will stabilize the infrastructure and enhance long-term durability.	Local Roads and Bridges	\$79,006.00	\$75,300.00	30-Sep-24
574	2425-007155	Martensville, City of	Standalone Study - Engineering Design of Centennial Drive North & 3rd Street North	This project entails the engineering design for upgrading Centennial Drive between 3rd Street North and Baycroft Drive. The upgrade will increase roadway capacity by adding additional driving lanes and upgrading it to an urban cross-section. The current design lacks stormwater infrastructure and active transportation facilities such as sidewalks or pathways. This design will address drainage challenges, incorporate active transportation infrastructure, and enhance safety for all users. A secondary component includes a traffic calming design for 3rd Street North to manage increased traffic due to urban growth. The plan will integrate safety features and traffic-calming measures, focusing on pedestrian safety near key recreational facilities, such as the Martensville Aquatic Centre, Skate Park, and Pump Track, which generate significant pedestrian traffic.	Capacity Building	\$150,000.00	\$11,260.00	31-Dec-25
575	2425-007156	Martensville, City of	Replacement of Rink Ice Plant	The City of Martensville plans to replace its 20+ year-old rink ice plant, including condensers and brine trench repairs. The upgrade will improve arena reliability, reduce breakdowns, lower energy and maintenance costs, and transition from the obsolete R22 refrigerant.	Community Energy Systems	\$531,517.36	\$486,469.00	31-Jul-25
576	2425-007158	Viscount, Rural Municipality of	Testing for Water Source and Drilling of New Water Well	Drill a new water well for the municipality after testing for a new water source to hopefully get off of the boil water advisory that has been existing for a number of years. The project will also improve the quality of drinking water.	Drinking Water	\$113,885.00	\$0.00	31-Oct-25

No.	Project ID#	Ultimate Recipient	Project Title	Project Description	Investment Category	Total Project Cost	Funds (CCBF) Spent in 2024	Estimated Project End Date
577	2425-007160	Balcarres, Town of	Renovate Ball Diamond	Expand one of the two ball diamonds at the sports ground, increasing the baseline length from 18 m to 27 m to accommodate older teams (18U, Junior, and Senior). Upgrades include installing new fencing, building new dugouts, and reorienting the field to improve play visibility during evening hours. These enhancements will allow broader community use and support local athletic development.	Sport Infrastructure	\$29,795.58	\$29,795.58	1-Dec-24
578	2425-007161	Balcarres, Town of	Construct New Sportsground Bathrooms	Replace two porta-potties at the sports grounds with a restroom facility featuring two bathrooms, each with a flushing toilet and sink with running water. The sports grounds include two ball diamonds, two soccer pitches, and a cross-country ski trail used in winter, hosting numerous tournaments annually. This upgrade enhanced sanitation and convenience for all visitors and event participants.	Recreational Infrastructure	\$42,400.00	\$42,400.00	1-Oct-22
579	2425-007162	Cudworth, Town of	Upgrade Water Plant Building	Repair leaking roof and replace non-functioning furnace to upgrade the water treatment plant. The roof is flat so it was resealed, the furnace was replaced, and a new door installed at the water plant building. These repairs and replacements will help with energy conservation and extend the life of the building.	Drinking Water	\$21,113.88	\$21,113.88	1-Nov-23
580	2425-007163	Cudworth, Town of	Install Generator at Community Hall	Install generator at community hall to function in the event of a local emergency for the building to house and feed community residents. If the power is out the generator will be able to keep the building warm to provide services like meals to residents in the municipality.	Recreational Infrastructure	\$45,975.84	\$45,975.84	31-Dec-24
581	2425-007164	Cudworth, Town of	Install New Heater in Swimming Pool	Replace the non-functioning swimming pool heater. The swimming pool is a main attraction in the town and provides recreation for residents, cities, and surrounding towns.	Recreational Infrastructure	\$17,265.17	\$17,265.17	1-Nov-23
582	2425-007166	Leroy, Town of	Repave 1st Avenue NE	Repave 1st Avenue NE which has heaved considerably and the glass grid installed prior is now visible. The road will be dug out with a structure base, new fabric, and an average minimum of 102 mm of hot asphalt. The goal is to increase the estimated life of the road.	Local Roads and Bridges	\$19,885.60	\$19,885.60	1-Aug-24
583	2425-007167	Dubuc, Village of	Install twelve to fifteen Curb Stops	Install twelve to fifteen curb stops around the Village of Dubuc. This will enable water to be shut off to homes in case of emergency, payment arrears, or vacancy.	Drinking Water	\$20,000.00	\$0.00	30-Sep-25
584	2425-007168	Mortlach, Village of	Replacement of Water lines	Replace the water lines and perform work that allows the line to be repaired.	Drinking Water	\$2,440.75	\$2,440.75	5-Sep-24

No.	Project ID#	Ultimate Recipient	Project Title	Project Description	Investment Category	Total Project Cost	Funds (CCBF) Spent in 2024	Estimated Project End Date
585	2425-007169	Pilger, Village of	Construct Library Wheelchair Ramp	Build a wheelchair ramp for the Pilger's building used for a library and village office to provide accessibility for the aging community and those with disabilities. This will increase the usage of the library.	Cultural Infrastructure	\$9,222.00	\$9,222.00	31-Jul-24
586	2425-007170	Eloose, Town of	Street Upgrade	Repair, pave, and resurface 21,178.26 square meters of streets across town to enhance access to businesses, the school, and healthcare facilities. Work includes Railway Ave E to Main Street, Main Street, Second Ave E to Main Street, Third Ave E to Main Street, and Fourth Ave E to Main Street, extending to Second Street W.	Local Roads and Bridges	\$789,685.55	\$176,588.80	31-Jul-24
587	2425-007171	Frontier, Rural Municipality of	Upgrade energy efficient Windows for Claydon Hall	Install energy efficient windows for Claydon Hall to decrease in energy usage.	Community Energy Systems	\$946.59	\$946.59	23-Dec-24
588	2425-007175	Wilcox, Village of	Rip Rap at Lagoon	Build up a ramp to have access to the lagoon's berm, start adding cement rip rap to all sides of the lagoon to stop the berms from riding and stuffing into the lagoon. By adding the rip rap the lagoon is now compliant with the Water Security Agency's Lagoon Inspection and will extend the life of the lagoon's berms.	Wastewater	\$11,023.80	\$11,023.80	31-Jul-24
589	2425-007176	Nipawin, Town of	Construction of Water Main	Construct a water main along Evergreen Drive and Pine Avenue, designed as a loop to eliminate dead ends and prevent water stagnation. This service loop will enhance infrastructure across a large area of town-owned lots, positioning the Town to leverage shovel-ready projects and attract development incentives. The location is ideal for tourism-based developments near the golf course, event centre, and restaurants, as well as being centrally situated within the snowmobile trail network. Additionally, the project will support future commercial and residential growth in this prime development area.	Drinking Water	\$200,930.88	\$13,356.12	31-Dec-25
590	2425-007177	Wellington, Rural Municipality of	Bridge Replacement	Replace the deteriorated timber bridge and its structure with new steel culverts to ensure safe crossings.	Local Roads and Bridges	\$40,903.10	\$40,903.10	9-Sep-22
591	2425-007178	Shamrock, Rural Municipality of	Reconstruction on Range Road 3042	Rebuild and stabilize 91.44 meters of grid road by excavating soft ground, adding packable fill material, installing geotextile fabric for reinforcement, and covering the area with a 0.61-meter dirt layer. This process ensures long-term stability and resilience of the road structure.	Local Roads and Bridges	\$5,184.50	\$5,184.50	5-Aug-24

No.	Project ID#	Ultimate Recipient	Project Title	Project Description	Investment Category	Total Project Cost	Funds (CCBF) Spent in 2024	Estimated Project End Date
592	2425-007180	Invergordon, Rural Municipality of	Upgrade Struthers Lake Regional Park Ball Diamond	Upgrade to the ball diamonds will see the replacement of the deteriorating chain-link fencing and posts on the backstop, outfield and infields and add two fenced bench areas, for a total length of 268.2 meters of new fencing to be installed. The upgraded ball diamonds will draw more visitors to the park, be used by more families and groups and offer a suitable playing field for local tournaments to be hosted.	Sport Infrastructure	\$55,000.00	\$0.00	31-Oct-25
593	2425-007181	Hillsdale, Rural Municipality of	Seal Coat Highway 675 South	Seal coat 70,471 square meters was applied along 8.04 kilometers south of Highway 675 to increase the pavement's lifespan by up to 15 years.	Local Roads and Bridges	\$412,255.35	\$77,000.00	12-Jul-24
594	2425-007182	Clinworth, Rural Municipality of	Develop Official Community Plan and New Zoning Bylaw	To develop an official community plan and new zoning bylaw following the restructuring of the Village of Sceptre into the R.M. of Clinworth No. 230, supporting asset management and serving as a key component of future municipal planning and development.	Capacity Building	\$11,000.00	\$7,650.00	31-Dec-25
595	2425-007183	Neville, Village of	Repairs to Municipal Sidewalks	Replace the 692.31 sq m of deteriorated sidewalks by pouring concrete, reinforcing with re-bar, broom finished and applying a penetrating sealer. Also, 28 locations where sidewalk sections have risen to form trip hazards will be ground down to level off their connection points with adjacent sections. The objectives are to increase public usage of the infrastructure as well as to create a safe accessible community.	Local Roads and Bridges	\$14,480.00	\$0.00	30-Sep-25
596	2425-007184	Neville, Village of	Purchase of Munisoft Municipal Accounting Software	Purchase of Munisoft Accounting Software to streamline municipal accounting; allowing the administration to spend less time updating multiple overlapping manual and automated bookkeeping and accounting systems. This will enable staff to put more time towards reporting, grant writing, Bylaw enforcement, and keeping up with changes in municipal law. This will enable the municipal administration and council to maintain a clearer picture of the municipality's accounting allowing for better long-term planning.	Capacity Building	\$18,540.46	\$0.00	1-May-25

No.	Project ID#	Ultimate Recipient	Project Title	Project Description	Investment Category	Total Project Cost	Funds (CCBF) Spent in 2024	Estimated Project End Date
597	2425-007185	Briercrest, Village of	Water Drainage Project	Replacing the small culvert with a 0.45-meter culvert, two nearby alleys will be elevated using a transit laser level to ensure proper water drainage into drainage ditches, and two to three loads of gravel will be added to alleys to help prevent the yards from flooding during spring runoffs and heavy rainfall.	Resilience	\$5,145.00	\$1,873.45	31-Jul-25
598	2425-007186	Radisson, Town of	Water Main Replacement and Curb Stop Addition	Replace the water main that serves two acres and install shut-off for each t-intersection on the line to control leaks.	Drinking Water	\$3,618.90	\$3,618.90	9-May-24
599	2425-007187	Kerrobert, Town of	Replace Dressing Room Boiler and Glycol Header System	Replacing of a dressing room boiler that provides floor heat to four dressing rooms and the hallway. Also, the municipality plans to do a glycol header system upgrade on the recommendation of the company that services its ice plant. The leaking of the system needs an upgrade to ensure that the ice plant functions as it should for the upcoming rink season and years beyond.	Recreational Infrastructure	\$25,500.00	\$19,721.64	31-Dec-25
600	2425-007188	Kerrobert, Town of	Replace Outdoor Pool Boilers	Due to recurring boiler failures, all three pool boilers, two for the large pool and one for the paddling pool, were replaced at the start of the season. In 2023, persistent breakdowns left the pools unheated, impacting daily attendance and lesson enrolment as families reconsidered participation toward the 2024 season. The new, dependable boilers are designed for efficient maintenance, ensuring consistent heating throughout the season. This improvement aims to enhance user satisfaction, boost daily attendance, and encourage swim lesson participation.	Recreational Infrastructure	\$27,000.00	\$27,000.00	12-Jun-24
601	2425-007189	Fleming, Town of	Fleming Water Treatment Equipment Upgrade	The addition of ion exchange filters and a UV treatment system at the water treatment plant will assist in reducing the chemicals required to treat the water, which will also improve water quality and remove precautionary drinking water advisories.	Drinking Water	\$85,000.00	\$0.00	31-Dec-25
602	2425-007190	Cut Knife, Town of	Upgrade Dion Avenue	Substructures rebuild project to get rid of the soft road structure, to have a firmer street and better drainage. The project is 100 meter long and 8 meter wide, with 4 to 5 meter wider in front of the fire hall.	Local Roads and Bridges	\$178,985.33	\$178,985.33	31-Dec-23
603	2425-007191	Silverwood, Rural Municipality of	Culvert Replacement	Replace a collapsed and outdated culvert to prevent water buildup and washouts, ensuring road durability and extending its useful life. This replacement will improve drainage, maintain safe passage, and support long-term infrastructure stability.	Local Roads and Bridges	\$54,802.00	\$54,802.00	24-Feb-21

No.	Project ID#	Ultimate Recipient	Project Title	Project Description	Investment Category	Total Project Cost	Funds (CCBF) Spent in 2024	Estimated Project End Date
604	2425-007192	Medstead, Rural Municipality of	Upgrade Cater Lake Boat Launch	Upgrade the Cater Lake boat launch in the Rural Municipality of Medstead No. 497 to make it safer and easier to use. Currently, the launch has two cement slabs with a drop-off at the edge due to wear and lower water levels, which has been damaging boat trailers. To address this, a contractor will add clean rocks at the end of the slabs to create a smooth transition into the water and protect trailers from further damage. This project will enhance safety, attract more users, and drive increased visitor engagement within the community.	Tourism Infrastructure	\$1,145.78	\$1,145.78	1-Nov-24
605	2425-007193	Medstead, Rural Municipality of	Repair Hockey Arena Roof	This project will repair leaks in the Medstead's Hockey Rink roof to protect the rafters and ice surface. A contractor will replace damaged shingles, preventing snowmelt from dripping onto the ice and creating dangerous bumps. The goal is a safe, smooth ice surface for all skaters and a durable roof that safeguards the rink's structure.	Sport Infrastructure	\$6,249.99	\$6,249.99	13-Nov-24
606	2425-007194	Medstead, Rural Municipality of	Upgrade Medstead Ball Diamond	Upgrade the ball diamond in the RM of Medstead No. 497 by adding a pitching machine, portable mound, batting cage with netting, and four protective dugouts. The main objective of the project is to enhance the ball diamond facilities, providing equipment for safe batting practice and dugouts to shelter players from heat and other elements during games. The equipment will assist coaches in teaching children how to play baseball while promoting increased physical activity. The expected outcome is to have more children engaged in learning baseball, staying active, and doing so in a safe environment.	Recreational Infrastructure	\$14,985.00	\$14,985.00	31-Dec-24
607	2425-007195	Medstead, Rural Municipality of	Upgrade Windows of the Municipal Office and Shop	Upgrade 13 old single-pane windows of the municipal office and shop with energy-efficient triple-pane thermal windows. This will benefit the library, village office, as well as the entrance and basement of the building, save on heating costs, and keep the flies out.	Community Energy Systems	\$21,453.13	\$21,453.13	1-Nov-24
608	2425-007196	Churchbridge, Rural Municipality of	Reconstruct Municipal Roads at locations S. 17, 18-22-30W1, S. 13, 14-22-31W1	Reconstruct 6.4 km of the municipal road at locations S. 17, 18-22-30W1, and S. 13, 14-22-31W1 with 30.48 cm of clay cap. This will extend the useful life and quality of the road. The upgrade will also reduce the operating costs.	Local Roads and Bridges	\$235,744.00	\$189,720.40	15-Nov-21

No.	Project ID#	Ultimate Recipient	Project Title	Project Description	Investment Category	Total Project Cost	Funds (CCBF) Spent in 2024	Estimated Project End Date
609	2425-007197	Cana, Rural Municipality of	Culverts Replacement	This project will replace three dilapidated culverts that could not withstand elevated flood levels in 2024. The installation will include two 450 mm × 14 m culverts and one 400 mm × 4 m culvert, along with required gravel and pit run materials. The upgrades aim to protect and enhance the existing road infrastructure, ensuring the all-season road remains open and resilient against future flooding events.	Local Roads and Bridges	\$3,294.05	\$3,294.05	1-Oct-24
610	2425-007198	Antler, Rural Municipality of	Bridge Replacement with Culvert Installation	Replace the existing 7.47-meter single-span timber bridge with three 2.7-meter by 27-meter steel culverts, along with rip rap at inlets and outlets to control erosion. This upgrade aims to extend the road's lifespan and increase its load-bearing capacity, supporting safer, more resilient infrastructure.	Local Roads and Bridges	\$266,805.09	\$178,117.55	1-Nov-22
611	2425-007199	Pelly, Village of	Main Street Pavement Upgrade	Upgrade the road by applying approximately 48 tons of hot asphalt for resurfacing. The objective is to provide a safe, accessible main street for residents, tourism, and businesses, as well as to extend the road's useful life.	Local Roads and Bridges	\$32,320.00	\$32,320.00	11-Aug-16
612	2425-007202	Pelly, Village of	Lift Station Pump Replacement	Replace existing pumps with new ones to improve lift station efficiency and prevent sewer issues within the municipality.	Wastewater	\$84,524.40	\$84,524.40	31-Aug-22
613	2425-007203	Pelly, Village of	Upgrade Water Treatment Plant with Green Sand Filters	Replace existing filters to a green sand media filter, this will ensure a quality of drinking water for residents' water.	Drinking Water	\$37,105.30	\$37,105.30	1-May-23
614	2425-007207	Lampman, Town of	Repair Road on Main Street	Repair of the road along the Main Street. The project involves filling of cracks and patch repair of the section that was cut out due to the water main repair.	Local Roads and Bridges	\$18,745.04	\$18,745.04	7-Sep-23
615	2425-007209	Lampman, Town of	Replace Curb Stops	Repair curb stops and water mains as needed. There are 21 locations provided by the municipality for the curb stops to be replaced.	Drinking Water	\$58,474.69	\$58,474.69	31-Mar-24
616	2425-007211	Borden, Village of	Sinkhole and Road Repairs	The municipality has a major sinkhole in front of its water treatment plant, measuring approximately 20 m x 8 m, caused by water lines installed during the plant's construction in 2012. The plan is to excavate the affected road section, rebuild it, and apply new asphalt. The objectives are to increase the estimated road's service life and increase its load capacity.	Local Roads and Bridges	\$12,938.36	\$12,938.36	17-Sep-24
617	2425-007215	Kivimaa-Moonlight Bay, Resort Village of	Installation of Street Light	Install a streetlight opposite the fire hall beside Road 795 in the municipality. The light is more energy efficient than the older one. The Light Emitting Diode (LED) uses less energy and draws 46 Watts rather than 100 Watts or 150 Watts.	Community Energy Systems	\$6,514.11	\$6,203.91	26-Jan-24

No.	Project ID#	Ultimate Recipient	Project Title	Project Description	Investment Category	Total Project Cost	Funds (CCBF) Spent in 2024	Estimated Project End Date
618	2425-007216	Togo, Village of	Replace Lift Station Pump	Replace the lift station pump and perform a comprehensive cleaning to remove grease, debris, and sludge. Conduct a detailed assessment of the pipework, pumps, and valves to ensure optimal functionality and maintain system integrity.	Wastewater	\$29,732.31	\$28,393.02	31-Oct-24
619	2425-007218	Kingsley, Rural Municipality of	Clay Capping of 4.023 km on Edenland Road	Upgrade Edenland Road to address its deteriorating condition by applying a clay cap to 4.023 kilometers of municipal road. This enhancement will extend the road's lifespan and improve safety for motorists. The clay cap will have an average thickness of approximately 0.3048 to 0.4572 meters.	Local Roads and Bridges	\$481,878.31	\$144,375.87	31-Oct-22
620	2425-007219	Sutton, Rural Municipality of	Upgrade 5.43 km of Township Road 104	Upgrade 5.43 km of Township Road 104 from a seasonal to an all-weather roadway. The project involved filling low-lying areas, installing or replacing culverts, reducing hilltops to enhance visibility, and applying gravel to achieve an 8-meter-wide top with 4:1 road slopes, ensuring improved accessibility and safety.	Local Roads and Bridges	\$151,972.98	\$131,018.34	30-Sep-22
621	2425-007220	Kincaid, Village of	Develop Preliminary Plans for Water Treatment Plant Upgrade	Engage MPE Engineering to draft preliminary plans for upgrading the Kincaid Water Treatment Plant to meet Saskatchewan government requirements, as current sodium hypochlorite levels exceed mandated limits. This step will ensure compliance and improve water quality for the community.	Capacity Building	\$8,808.25	\$8,808.25	31-Oct-23
622	2425-007222	Canora, Town of	Construct New Transfer Station	The construction of a new public drop-off transfer station will provide for the disposal of solid waste including household, yard and renovation materials. The station will feature four roll-off containers and will also collect metal and other recyclables, including compostable materials. This facility will replace the historic, non-engineered landfill and continue to provide Canora and surrounding rural residents with solid waste management alternatives.	Solid Waste	\$2,599,082.30	\$248,012.61	15-Dec-24
623	2425-007223	Cudworth, Town of	Replacement of Main Street Sidewalk	Replaced sidewalks within the 300 block and 400 block in the Town of Cudworth that have begun to deteriorate. The sidewalk replacement project was done in hopes of keeping residents safe. The new sidewalk infrastructure has given walkers a more pleasant outing in the municipality.	Local Roads and Bridges	\$26,643.10	\$26,643.10	1-Sep-21
624	2425-007225	Shellbrook, Rural Municipality of	Upgrade Holbein 693 Project	Upgrade two construction sections of the Holbein 693 Project through sand sealing. The project spans a total length of 600 meters with a width of 7.315 meters.	Local Roads and Bridges	\$20,500.00	\$20,500.00	31-Dec-24

No.	Project ID#	Ultimate Recipient	Project Title	Project Description	Investment Category	Total Project Cost	Funds (CCBF) Spent in 2024	Estimated Project End Date
625	2425-007226	Shellbrook, Rural Municipality of	Upgrade Cow Lake Road	Upgrade 450 meters of Cow Lake Road to enhance durability and accessibility. The project involved excavating the existing surface, installing a combination grid, and filling with new materials. The road base was widened to 9 meters at the bottom and tapered to 7 meters at the top. The upgrade included 0.3048 meters of packed pit run, topped with 25.4 cm of clay, and finished with a gravel layer. The road was raised by approximately 0.6096 meters to improve overall grade and drainage.	Local Roads and Bridges	\$77,000.00	\$62,000.00	31-Dec-24
626	2425-007227	Reford, Rural Municipality of	Classify and Optimize Roadway Network	This project is designed to classify the roadway network, identify unregistered physical roadways absent from municipal maps, and establish a robust framework for optimizing traffic routing and asset management. By systematically assessing road conditions, traffic volumes, and flow patterns, the initiative aims to deliver critical data to enhance route connectivity, support strategic infrastructure maintenance, and guide long-term planning and development efforts.	Capacity Building	\$7,716.78	\$7,716.78	10-Dec-24
627	2425-007229	Dundurn, Town of	Capital Asset Management Software	Implementing capital asset software will establish a computerized asset registry, enabling detailed tracking of municipal assets. This system will allow the municipality to monitor daily activities, such as staff hours and equipment usage, supporting accurate cost allocation and budgeting. This data-driven approach will improve long-term planning by identifying maintenance needs and optimizing resource allocation, leading to enhanced operational efficiency and informed decision-making for project prioritization.	Capacity Building	\$10,059.40	\$10,059.40	30-Jun-24
628	2425-007231	Parkdale, Rural Municipality of	Clay Cap Grid 697	Repair and replace clay capping on 3.21 kilometers of deteriorated roadway. The original surface was removed and prepared to install a new 3.21 km x 9.8 m x 0.3 m layer of clay capping, followed by grading and gravel finishing. The upgrade will increase the serviceability and reliability of this frequently travelled road.	Local Roads and Bridges	\$128,744.00	\$128,744.00	11-Sep-24
629	2425-007232	Parkdale, Rural Municipality of	Replace Glaslyn Rural Road Culverts	Replace three deteriorated 900 mm culverts, which had been compromised due to failed couplers causing damage to the culverts and the road above. Located in an agricultural runoff area, this project will enhance road stability and ensure reliable infrastructure for the surrounding community.	Local Roads and Bridges	\$38,878.06	\$38,878.06	6-Aug-24

No.	Project ID#	Ultimate Recipient	Project Title	Project Description	Investment Category	Total Project Cost	Funds (CCBF) Spent in 2024	Estimated Project End Date
630	2425-007234	Rodgers, Rural Municipality of	Upgrade the Municipal Main Road	Upgrade the primary roadway within the municipality to enhance traffic flow for the surrounding agricultural producers and accommodate its use as a school bus route. The project involved restoring the road shoulders to achieve a top width of approximately 8.23 meters with a 3-degree slope. The upgraded road spans 9.66 kilometers in length and 19.81 meters in total width. Construction materials included dirt and gravel to ensure durability and functionality.	Local Roads and Bridges	\$54,060.00	\$54,060.00	31-Aug-23
631	2425-007236	Edenwold, Rural Municipality of	Upgrade 1.3 km of Road	Upgrade the existing gravel road to the pavement road surface for approximately 1.3 km to increase the load limit capacity and extend the road's useful life.	Local Roads and Bridges	\$1,070,980.76	\$291,959.50	31-Dec-24
632	2425-007237	Medstead, Village of	Upgrade Water Treatment Plant with Greensand Filters	This project will upgrade the village water treatment plant by installing a greensand filter system. The current system, been in place since 1986, adds chlorine and clears water in the reservoir but does not address iron and manganese contamination. Following a directive from the municipal Environmental Protection Officer, the municipality must resolve the manganese issue by March 2025. Installing green sand filters will effectively target both, iron and manganese, enhancing water quality for the community.	Drinking Water	\$43,000.00	\$21,000.00	31-Oct-25
633	2425-007239	Lumsden Beach, Resort Village of	Upgrade to the Water Treatment Facility	The current facility needs to be upgraded in accordance with Water Security Agency regulations in order to continue providing drinking water. These changes include adding a Manganese Greensand filter, installing Ultra-Violet lighting, and injecting potassium permanganate chemically. Upon completion, potable water will continue to be delivered to all properties within the village.	Drinking Water	\$54,289.75	\$10,044.00	31-Oct-24
634	2425-007248	Yarbo, Village of	Extension of Water Treatment Plant	Extend the water treatment plant to have storage for water treatment chemicals. The project will enclose the area of the current platform in front of the water treatment plant for water chemical storage as room in the plant is limited. This will improve the function ability of the working components inside the water treatment plant.	Drinking Water	\$16,000.00	\$0.00	10-Apr-25

No.	Project ID#	Ultimate Recipient	Project Title	Project Description	Investment Category	Total Project Cost	Funds (CCBF) Spent in 2024	Estimated Project End Date
635	2425-007249	Neville, Village of	Upgrade LED Bulbs	Replace all fluorescent bulbs with energy efficient LED bulbs in two Village owned buildings, including the Community Centre, Community Drop-in Centre, Village Office, and Fire Hall. The project will involve renting equipment for installation and upgrading fixtures to support the new bulbs. This initiative will reduce the Village's environmental impact, lowers monthly operating costs, and contribute to a more sustainable and fiscally resilient community.	Community Energy Systems	\$3,760.00	\$0.00	30-Jun-25
636	2425-007251	Briercrest, Village of	Installation of Water Shut Off Valves	Install six water shut off valves to assist with the segregation of water shut offs for water repairs on the 100-200 blocks in the municipality which will help minimize loss of water to customers in the Village. This will also minimize the Boil Water Advisories for the residents on certain streets of the Village when there is a repair done to the water lines.	Drinking Water	\$34,980.00	\$0.00	31-Oct-25
637	2425-007252	Borden, Village of	Replacement of Well Pump	Replace water well pumps that have come to their estimated useful life with pumps that are more aligned with the recovery time of the water well. Therefore, the water well will not require as much maintenance and will not have so many call outs.	Drinking Water	\$16,062.18	\$16,062.18	25-Oct-24
638	2425-007254	Leroy, Rural Municipality of	Replacement of Bridge with Culverts	Replace the bridge located at N-11-34-21-W2 with 4 X 2400 mm diameter culverts. The project also includes design engineering, project supervision, and required environmental services. The project will remove and dispose of the existing bridge structure, install large-diameter culverts, and construct a new driving surface. The main objective of the project is to replace an asset that has deteriorated in condition (restricted) and replace it with culverts to allow the motoring traffic to utilize the public road safely.	Local Roads and Bridges	\$484,136.26	\$146,331.40	30-Oct-24
639	2425-007255	Borden, Village of	Replace Water Main Valve and Curbstops	Replace twelve curbstops that are inoperable. The project will also replace 1 x 25.4 mm water main shutoff valve that is currently unable to turn off.	Drinking Water	\$16,811.67	\$16,811.67	8-Oct-24
640	2425-007257	Chesterfield, Rural Municipality of	Reconstruct 9.66 km of 635 Road	Reconstruct 9.66 km of the 635 Road. The project involves pulling the ditches, widening the road top surface, and making the road more durable. It will also be able to handle more traffic and larger equipment as it is a main primary gravel road in the rural municipality which will add longevity to the road.	Local Roads and Bridges	\$360,000.00	\$165,164.25	31-Aug-25

No.	Project ID#	Ultimate Recipient	Project Title	Project Description	Investment Category	Total Project Cost	Funds (CCBF) Spent in 2024	Estimated Project End Date
641	2425-007259	Heart's Hill, Rural Municipality of	Pavement of Grid #676 North	Pave 3.44 km of Primary Grid #676 North with top granular base course (150 mm), followed by hot mix asphalt concrete (80 mm) on the existing gravel road in the rural municipality. The road is a main corridor that connects two provincial highways in the community.	Local Roads and Bridges	\$6,519,757.95	\$71,944.27	30-Nov-24
642	2425-007262	Wheatlands, Rural Municipality of	Decommission Landfill at SE-25-17-03-W3	Decommission landfill to support the proper disposal of recyclables, compostable materials, and garbage. The main objective is the dismantling of infrastructure, land reclamation, and remediation of a facility. The project outcome is to maintain public safety and protect the environment.	Solid Waste	\$333,380.00	\$3,200.00	31-Dec-25
643	2425-007268	Saltcoats, Rural Municipality of	Construct Township Truck Route	Construct a 1.75 km alternate truck route with a width of 708 meters along Township Road to divert heavy truck traffic around the Town of Bredenbury. This project will remove truck traffic from Broadway Avenue, which will have a permanent weight restriction, enhancing road safety and preserving local infrastructure.	Local Roads and Bridges	\$225,000.00	\$116,600.00	30-Sep-25
644	2425-007270	Radisson, Town of	Upgrade Lift Station	Upgrade the lift station in the Town of Radisson by installing a backup float and a new transducer and moving it to the other side of the lift station manhole. The moletronic read levels of the wet pit and tells pumps to turn on and off. If the moletronic fails, the new backup float will engage the pumps and pump down the lift station. This upgrade aims to make the lift station maintenance-free and energy-efficient, ensuring long-term functionality and cost savings.	Wastewater	\$6,196.92	\$6,196.92	12-Sep-24
645	2425-007271	Radisson, Town of	Replacement of Curb Stops	Replace twelve malfunctioning curb stops with snap on clip style models, eliminating the need for traditional cotter key systems. The new curb stops cost only ten per cent to maintain, which will significantly reduce maintenance costs by ninety per cent as they do not require excavation or sidewalk cuts for repairs. This upgrade is part of the town's ongoing initiative to transition to snap on clip curb stops, minimizing long-term expenses and disruptions. The design ensures efficient repairs without heavy equipment, enhancing operational efficiency and reducing infrastructure damage.	Drinking Water	\$7,458.87	\$7,458.87	13-Sep-24

No.	Project ID#	Ultimate Recipient	Project Title	Project Description	Investment Category	Total Project Cost	Funds (CCBF) Spent in 2024	Estimated Project End Date
646	2425-007291	Melfort, City of	Replace 193 m of Sidewalks in Downtown Area	Remove and replace 110 linear meters of deteriorated sidewalk and 83 linear meters of concrete curb to address safety hazards in a 193-meter high-traffic downtown area. Aligned with the municipal five-year capital plan (2021 to 2025), this project will extend the infrastructure's lifespan and enhance its usability, benefiting pedestrians, cyclists, and other public users.	Local Roads and Bridges	\$212,615.07	\$156,000.00	30-Nov-24
647	2425-007302	Ebenezer, Village of	Upgrade Community Center Windows	Upgrade nine energy-efficient windows in the Ebenezer Community Center. The original windows are cracked and significantly contribute to heat loss, reducing energy efficiency. This project will decrease energy consumption and lead to operational cost savings.	Community Energy Systems	\$10,000.00	\$0.00	30-Oct-25
648	2425-007307	Smeaton, Village of	Replace Furnace at Fire Hall	Replace the existing radiate heater at the fire hall with a new one as this is the only source of heat for the building. The old one was twenty-seven years old and no longer reliable. This will eliminate the maintenance costs of the old one and provide reliability in the winter months for firefighting equipment and vehicles.	Community Energy Systems	\$8,023.34	\$8,023.34	5-Oct-24
649	2425-007308	Wilcox, Village of	Conduct UAV Drainage Survey	Conduct a UAV survey over the entire village to collect data to analyze the current drainage condition and determine a drainage plan on how to execute water to flow properly within the village. This will include re-digging ditches, replacing crushed, collapsed, and plugged culverts. This will allow water to flow more efficiently throughout the village, eliminate time spent in the spring thawing out plugged culverts, pumping water out of ditches to avoid flooding, and standing water after rainfalls in the summer.	Capacity Building	\$70,345.00	\$70,345.00	1-Nov-24
650	2425-007312	Birch Hills, Rural Municipality of	Upgrade Energy Efficient Insulation at RM Office	Upgrade the RM office insulation by replacing the attic insulation with material of a higher R-value. This improvement will enhance energy efficiency, reduce power consumption, lower greenhouse gas emissions, and lead to cost savings.	Community Energy Systems	\$5,158.49	\$5,158.49	10-Nov-24
651	2425-007318	Kannata Valley, Resort Village of	Upgrade Treated Water Distribution	Upgrade treated water distribution by replacing obsolete meter smart points and meter reading programs as well as the hardware including the handheld reader, licensing, and installation. The project also replaced 208 smart points, auto valves, and command links, which are all required to bill treated water usage to communities in the area. Water is supplied by the municipality to over 200 residents in four communities.	Drinking Water	\$48,266.00	\$48,266.00	31-Dec-25

No.	Project ID#	Ultimate Recipient	Project Title	Project Description	Investment Category	Total Project Cost	Funds (CCBF) Spent in 2024	Estimated Project End Date
652	2425-007322	Cabri, Town of	Install a new sewer line connection	This project involves installing a new sewer line to connect a relocated ready-to-move house to the town's existing wastewater system. By enhancing access to the sanitary wastewater infrastructure, the project supports sustainable residential development and ensures reliable wastewater services for the newly established home.	Wastewater	\$7,069.00	\$7,069.00	19-Oct-23
653	2425-007323	Cabri, Town of	Install a new water line connection	Install a new water line connection to a commercial property. This service will provide clean drinking water to a building constructed by Pioneer Coop for storing farm chemicals. The project increases connections to the drinking water system, ensuring reliable access for commercial operations.	Drinking Water	\$9,857.30	\$9,857.30	25-Nov-22
654	2425-007324	Cabri, Town of	Upgrade Raw Water Line	Replace 15.24 meters of the raw water line from the river intake to transport water from its source, Lake Diefenbaker, to the Town's reservoir via a pumping station. From there, the water is directed to the Town's water treatment plant, where it is treated and distributed as drinking water for the entire community. The project will also upgrade a small section of the water line that was found to be leaking to extend the estimated service life of the water infrastructure. Upgrading a section of the raw water line is critical to the Town's ability to access and treat water from the lake for distribution. This infrastructure is essential for providing the Town's residents with clean and safe drinking water through the replacement of aging infrastructure, ensuring reliability and sustainability. Without this water line, the community would lose access to its primary source of clean drinking water.	Drinking Water	\$14,172.00	\$14,172.00	9-Apr-24
655	2425-007329	Frontier, Village of	Upgrade Water Plant Generator	This generator will ensure that, in the event of a power outage, residents of the Village of Frontier have access to safe drinking water. It will also reduce the likelihood of the village being placed under a boil water advisory.	Drinking Water	\$54,000.00	\$41,290.07	31-Aug-25
656	2425-007330	Frontier, Village of	Install Sewer Lift Station Generator	Installing a sewer lift station generator ensures that the residents and businesses of the Village of Frontier can maintain uninterrupted operations and daily activities during power outages.	Wastewater	\$50,000.00	\$38,702.64	31-Aug-25

No.	Project ID#	Ultimate Recipient	Project Title	Project Description	Investment Category	Total Project Cost	Funds (CCBF) Spent in 2024	Estimated Project End Date
657	2425-007331	Smeaton, Village of	Upgrade Windows and Doors on Municipal Buildings	Replace three windows and nineteen doors at various municipal buildings and upgrade them to be more energy efficient and provide better security from any attempted break-ins. It includes the door deadbolt plate, paint, weatherstripping, silicone and sealant, as well as the labour for installation of the windows. The project will ensure operational savings and decrease in energy usage.	Community Energy Systems	\$13,190.87	\$13,190.87	30-Nov-24
658	2425-007343	Smeaton, Village of	Installation of Three Curb Stops	Install three curb stops to three separate homes located at 101 1st Ave S/ Parcel D Plan 101999964, 103 1st Ave S/ Parcel B Plan 67PA02702, and 202 1st Ave S/ Parcel B Plan 101483344. The project will provide the ability to shut the water off when needed for emergencies and reduce the chances of water contamination if a break should happen and boil water advisories.	Drinking Water	\$5,791.28	\$5,791.28	23-Sep-24
659	2425-007344	Smeaton, Village of	Replace Membrane at Water Treatment Plant	Replace five membranes at the Water Treatment Plant to increase water production and the volume of water treated within the municipality.	Drinking Water	\$5,404.50	\$5,404.50	16-Dec-24
660	2425-007353	Ebenezer, Village of	Upgrade Community Centre Furnace	Upgrade the original furnace in the Community Centre, built in 1955, to an energy-efficient model. The current furnace is outdated, frequently malfunction, and is no longer feasible to repair. The upgrade will ensure reliable and efficient heating, reduced energy consumption, lower greenhouse gas emissions, and provide operational cost savings for the Centre.	Community Energy Systems	\$24,500.00	\$0.00	30-Oct-25
661	2425-007357	Nipawin, Town of	Construction of Sewer Line	Construct a sewer main along Evergreen Drive and Pine Avenue that will be looped to reduce dead ends. Connections to the existing sewer system are to be made at the intersection of Evergreen Drive and Tamarac Avenue, as well as 6th Street North and Pine Avenue. The Evergreen Drive Service loop will service a large area of town-owned lots, allowing the Town the ability to leverage shovel-ready projects with incentives for development. This is a prime location for tourism-based developments close to the golf course, event centre, and restaurants, and at the heart of the snowmobile trails. It is also an excellent location for future development, including commercial and residential.	Wastewater	\$200,930.87	\$13,356.13	31-Dec-25

No.	Project ID#	Ultimate Recipient	Project Title	Project Description	Investment Category	Total Project Cost	Funds (CCBF) Spent in 2024	Estimated Project End Date
662	2425-007360	Waldeck, Village of	Pavement of Local Roads	Pave local roads in the Village of Waldeck to increase estimated useful life. The project starts from Railway East to Lang Street which is 676.33 Square meters and Lang Street to Peters Street which is 1,352.67 Square meters.	Local Roads and Bridges	\$66,811.50	\$66,811.50	30-Oct-24
<b>TOTALS</b>					<b>662 Projects</b>	<b>\$431,221,460.99</b>	<b>\$101,003,352.31</b>	

Appendix C: CCBF Project List - 2023 Municipal Annual Expenditure Reports Submitted after Audit Verification

No.	Project ID#	Ultimate Recipient	Project Title	Project Description	Investment Category	Total Project Cost	Funds (CCBF) Spent in 2023	Estimated Project End Date
1	1415-003268	Swift Current, City of	Asset Management Initiative	Implementation of city-wide asset management initiative with a goal to develop a system to maintain all city assets to maximize lifespan and service level, and includes the completion of an infrastructure gap assessment, development of state of infrastructure report, the development of an asset management plan and corresponding asset management policy, assessment and modification of long-term planning practices, the development of a condition and risk assessment framework, and implementation of GIS software and decision-support software tool.	Capacity Building	\$264,325.32	\$51,384.44	31-Dec-23
2	1920-004856	Swift Current, City of	Upgrade North Hill Reservoir and Pumphouse	Construction of an additional wet well and installation of larger pumps and other associated works to increase available flows to the northwest and northeast areas of the city to improve service and meet increased demand.	Drinking Water	\$3,638,000.00	\$2,175,351.37	31-Dec-24
3	2021-005719	Northern Saskatchewan Administration District	Upgrade Waste and Recycle Transfer Station - RS Jan Lake	Upgrade the existing transfer station by removing legacy waste piles, compacting, and covering area with topsoil, improving perimeter fence and constructing a new fish pit.	Solid Waste	\$60,000.00	\$0.00	31-Aug-24
4	2021-005927	Northern Saskatchewan Administration District	Construction of Playground Infrastructure - RS Little Bear Lake	including an obstacle course, climbing structure, leaping course, balance beam and zip line. It also includes works at the basketball court, including rebar, retaining wall, resurfacing, and solar lights.	Recreational Infrastructure	\$90,000.00	\$0.00	31-Aug-24
5	2021-005937	Northern Saskatchewan Administration District	Upgrade and Reinforce Existing Berm on Lake Side of Community - RS East Trout Lake	existing berm on lake side of community to provide protection from rising water and reduce wave action. Haul in rip rap and gravel to support and rebuild existing berm and reinforce breakwater barrier.	Resilience	\$77,676.78	\$0.00	14-Apr-23
6	2122-006336	Northern Saskatchewan Administration District	Install Playground Equipment at Jan Lake	Build a new playground near the beach and campground area that would include swings, a climbing apparatus, permanent picnic tables and a camp kitchen to provide a safe environment for children to play and families to picnic.	Recreational Infrastructure	\$63,056.58	-\$31,771.90	30-Sep-23

No.	Project ID#	Ultimate Recipient	Project Title	Project Description	Investment Category	Total Project Cost	Funds (CCBF) Spent in 2023	Estimated Project End Date
7	2223-006534	Northern Saskatchewan Administration District	Construct New Gazebo and Boat Launch at Missinipe	Construct a gazebo in the picnic area and a concrete boat launch at Missinipe. A gazebo and picnic area will provide a focal point for the community park, where there is an existing playground, and enable the residents to host a variety of events. The boat launch will be constructed from eight 2.5 m x 3.7 m concrete slabs and will provide access for residents, the general public and tourists to the lake.	Tourism Infrastructure	\$48,554.31	\$0.00	30-Sep-24
8	2324-006719	Northern Saskatchewan Administration District	Upgrade Sturgeon Weir Road and Path	The project involves upgrading and broadening the road in Sturgeon Weir, as well as the pathway that leads to the boat launch at Maligne Lake and the Sturgeon Weir River System. The road, which is 300 m in length and 6 m in width, will be re-shaped and the full 6 m width will be top-dressed with blue surface rock to match the existing road gravel to a depth of 100-150 mm. The contractor will resurface the road and construct a suitable crown to facilitate proper run off for ease of transportation for the residents.	Local Roads and Bridges	\$21,140.00	\$0.00	31-Jul-24
9	2223-006594	Blucher, Rural Municipality of	Resurface Settler's Ridge Road	Settler's Ridge Road. The asphalt surfacing is being undertaken due to the high volume of traffic gridlock experienced at this location. The expected outcomes include facilitating smoother transportation along the road, extending its useful lifetime, and reducing the cost of applying dust control products to it twice	Local Roads and Bridges	\$348,394.03	\$190,000.00	30-Aug-23
10	2223-006595	Blucher, Rural Municipality of	Surface Range Road 3040	The project involves the surface preparation and asphalt of approximately 650 m on Range Road 3040. The surfacing is being undertaken because of the volume of traffic at this location. The project will stimulate economic growth, extend its useful life,	Local Roads and Bridges	\$655,759.19	\$562,689.56	30-Aug-23
11	2021-005648	Brokenshell, Rural Municipality of	Replace Bridge at ESE 20-08-17-W2 with Large Culverts	Remove a single span 6 m bridge at ESE 20-08-17-W2 and replace with three 20 m x 2,400 mm x 2.8 mm culverts.	Local Roads and Bridges	\$16,090.80	\$16,090.80	27-Oct-23
12	2021-006080	Brokenshell, Rural Municipality of	Reposition and Enhance Township Road 82 between Range Road 2162 and 2163	Relocated 1.6 km of road to its proper location on the legal right-of-way. This included rebuilding and enhancing the road to extend the service life.	Local Roads and Bridges	\$10,600.00	\$10,600.00	9-Dec-20
13	2021-005305	Douglas, Rural Municipality of	Upgrade Richard Community Hall	Upgrade Richard Community Hall to improve energy efficiency and increase usage. The following will be retrofitted: two energy efficient furnaces, an energy efficient water heater, 127 m of LED lighting strips, two double and two single doors, six windows and bathroom fixtures will be replaced.	Recreational Infrastructure	\$50,200.00	\$14,324.32	31-Oct-24

No.	Project ID#	Ultimate Recipient	Project Title	Project Description	Investment Category	Total Project Cost	Funds (CCBF) Spent in 2023	Estimated Project End Date
14	2122-006255	McKillop, Rural Municipality of	Develop Sun Dale Drinking Water Fill Station	Install a drinking water fill station at the Sun Dale water treatment plant including vacuum breaker, expansion of water treatment facilities, an all weather outdoor payment system and a distribution meter. Increasing capacity to supply drinking water to residents and ratepayers.	Drinking Water	\$79,500.00	\$0.00	31-Dec-24
15	2122-006256	McKillop, Rural Municipality of	Upgrade 900 m of Road at Three Intersections	Upgrade 900 m of road at each of three intersections by roto-mixing the top layers with a soil stabilization product and water, then grading and packing the affected portions of road in order to extend the useful life of the roads and improve the quality of the road surface.	Local Roads and Bridges	\$5,370.00	\$5,370.00	9-Oct-23
16	2021-005970	Montmartre, Rural Municipality of	Construct Energy Efficient Maintenance Shop	Construct a new maintenance shop to replace the existing cinderblock building. The new shop will be insulated and tinned on both the interior and exterior. The new shop will reduce the overall energy required for heating as compared to the old shop as it will comply with current energy efficiency standards.	Community Energy Systems	\$1,177,605.25	\$317,497.27	31-Dec-23
17	2021-005658	Newcombe, Rural Municipality of	Upgrade 4.9 km of Road	Reconstruct 4.9 km of Road at NNE19, 20, 21, NW 22, Twp 24, Rge-22-W3. The upgrade includes clearing the Path road including sub-base, base, geofabric, road top, clay cap and topped with road gravel, correct side slope, back slope and crown on road, to enable heavy haul loads.	Local Roads and Bridges	\$1,079,264.50	\$144,232.28	21-Aug-23
18	2021-005850	Paddockwood, Rural Municipality of	Install Combi Grid to 3.63 km of Forest Gate Road	Raise 3.63 km of road and installation of 48 rolls of combi grid, 4.11 km of clay, and 0.55 km of gravel. The road will be raised 40.64 to 45.72 cm. This section of road is imperative for gravel hauling from the newly developed gravel pit. The combi grid will stabilize the road and the raise will elevate it above the water line in low lying areas.	Local Roads and Bridges	\$103,467.13	\$16,845.73	31-Jul-23
19	2021-005886	Paddockwood, Rural Municipality of	Upgrade and Lift 5.63 km of Gravel Pit Access Road	Brush mulch, raise road by 15.24 to 45.72 cm, and combi grid installation on a total of 5.63 km of road. Upgrading this road will aid in accessing the newly developed gravel pit.	Local Roads and Bridges	\$10,106.50	\$10,106.50	31-Dec-22
20	1516-003659	Sliding Hills, Rural Municipality of	Clay Cap 3.2 km Mazeppa Grid	Reconstruct Mazeppa Grid by clay capping 3.2 km of road to create a firm and solid traveling surface that is safer for trucks hauling heavy loads and provide a more direct route. This road serves as a strategic alternate route to Highway 9.	Local Roads and Bridges	\$158,351.33	\$143,795.90	1-Nov-23

No.	Project ID#	Ultimate Recipient	Project Title	Project Description	Investment Category	Total Project Cost	Funds (CCBF) Spent in 2023	Estimated Project End Date
21	2021-005423	Sliding Hills, Rural Municipality of	Clay Cap 3.22 km of Mazeppa Grid Road	The continuation of the Mazeppa Clay Cap Project will allow an additional 3.22 km of road top 45 cm clay capping which will address the worn and eroded existing road surface. The Mazeppa Grid is a significant haul route which leads directly to Highway 9 from the center of the municipality.	Local Roads and Bridges	\$228,148.58	\$171,609.98	1-Nov-23
22	2324-006618	Three Lakes, Rural Municipality of	Upgrade 1.2 km of Grid 777 from Bethany to Curve Road	Upgrade 1.2 km x 8.6 m of Grid 777 from Bethany to Curve Road. The project includes placing 50 cm of clay on the existing road to build it up, filling in low or soft spots, and covering any stones protruding. The project also involves applying a layer of gravel on top of the entire road. The project will increase the	Local Roads and Bridges	\$207,574.96	\$111,179.96	5-Oct-23
23	2324-006619	Three Lakes, Rural Municipality of	Upgrade 3.2 km of Township Road 402	Upgrade 3.2 km x 42 m of Township Road 402 from Range Road 2240 to Highway 20. The project includes clay capping by adding 50 cm new clay on top, filling in low and/or soft spots, and covering any stones protruding from the existing road surface. Additionally, the project involves incorporating gravel into the top 75 mm of clay to help stabilize the new road surface and applying a layer of road gravel to the entire surface length of the newly constructed road to improve road top wear and provide traction during wet periods. The road driving surface will be a minimum of 8.6 m wide. The project will provide a wider, smoother, safer driving surface reducing tire	Local Roads and Bridges	\$409,572.78	\$204,786.78	6-Oct-23
24	2324-006726	Canora, Town of	Rebuild Main Sewer Lift	Rebuild the cast iron outflow header in the main sewer lift station that failed and started leaking. All sanitary sewage for the community flows through the main sewer lift station. The leak was temporarily patched and then the header and related components, consisting of two 101.6 mm centrifugal pumps, two 152.4 mm check valves, two 101.6 mm flapper check valves, two 152.4 mm gate valves, and one 203.2 mm gate valve, were replaced with stainless steel to avert service interruptions and ensure longevity of the new parts.	Wastewater	\$289,165.43	\$200,000.00	30-Jun-23
25	2223-006517	Dundurn, Town of	Upgrade Energy Efficiency of Municipal Buildings	Replace the regular lighting fixtures with LED lighting for municipal buildings, park, water treatment plant, and the community hall. Install a high efficiency water heater in community hall and high efficiency furnace in municipal town office.	Community Energy Systems	\$35,452.70	\$14,958.13	20-Dec-23

No.	Project ID#	Ultimate Recipient	Project Title	Project Description	Investment Category	Total Project Cost	Funds (CCBF) Spent in 2023	Estimated Project End Date
26	1516-003862	Lafleche, Town of	Replace 305 m of Sidewalk	Remove and replace approximately 61 m of deteriorated sidewalk each year for the next five years. Locations include 2nd Street West and 4th Avenue West; Main Street and 5th Avenue East; 1st Street East and 5th Avenue East; 2nd Street East and 4th Avenue East; 2nd Avenue West and Main Street.	Local Roads and Bridges	\$71,600.00	\$2,472.98	30-Sep-25
27	2021-005752	Lafleche, Town of	Resurface 2nd Avenue East	Resurface road by adding a layer of oil, then sand seal, followed by more oil and approximately 2.4 cm of cold mix will be applied to approximately 3,437 sq m of street surface on 2nd Avenue East between 1st Street East and 3rd Street East.	Local Roads and Bridges	\$11,500.00	\$360.59	30-Sep-26
28	1415-003232	Lashburn, Town of	Upgrade Water Meters	that enables radio frequency with reverse flow protection to reduce water loss, promote water conservation and improve meter reading accuracy.	Drinking Water	\$75,140.59	\$320.09	31-Dec-23
29	2324-006730	Maidstone, Town of	Upgrade Water Treatment System	The project scope of work involved retro-fitting an existing building, the installation of an industrial reverse-osmosis unit, and connection to the water treatment system (including all electrical and structural components). The output is a reverse-osmosis unit, which will improve the quality of drinking water, user experience, infrastructure longevity, and regulatory compliance.	Drinking Water	\$1,052,167.20	\$517,346.52	30-Jun-18
30	2021-005965	Unity, Town of	Repave Town Roads	Install woven geo-textiles in the roads within the town to solve ground water issues and strengthen the base in order to extend the useful life of the roads. The scope of the project includes: Asphalt removal and disposal (22,931 sq m); wick drains and mirafi geo-textiles (25,305 sq m); asphalt concrete pavement - 35 mm (22,105 sq m) and 50 mm (22,105 sq m). Locations include portions of 1st Avenue West, 4th Avenue East, 2nd Avenue West and 5th Avenue West.	Local Roads and Bridges	\$3,167,778.02	\$264,831.99	31-Dec-25
31	2324-006667	Albertville, Village of	Shape and Seal Coat Road at Unity Street and St. James Avenue	Shape and oil seal 600 m of road at Unity Street East and 800 m of road at St. James Avenue South to outskirts of village. Also, 3,400 sq m (entirety) of Unity Street West will also be completed. Oil sealant will harden the surface of the road.	Local Roads and Bridges	\$38,147.27	\$0.00	31-Oct-24
32	1516-003411	Albertville, Village of	Renovate Community Centre	Close in all unnecessary exterior windows, insulate and install 29 gauge high tensile steel siding on complete building to accommodate a four season facility.	Recreational Infrastructure	\$0.00	-\$7,146.82	N/A

No.	Project ID#	Ultimate Recipient	Project Title	Project Description	Investment Category	Total Project Cost	Funds (CCBF) Spent in 2023	Estimated Project End Date
33	2223-006434	Borden, Village of	Develop Asset Management Plan	Develop a framework (policy and strategy) to continue asset management work. Update data in asset management software. Provide staff and council with asset management training opportunities.	Capacity Building	\$55,848.90	\$1,600.00	1-May-23
34	2223-006516	Borden, Village of	Install Backup Generator for Sewage Lift Station.	Install a 40 kW diesel generator with transfer switch to provide the lift station with backup power in case of a power outage. This generator will prevent sewage spillage.	Wastewater	\$78,434.70	\$78,434.70	26-Sep-23
35	2324-006720	Borden, Village of	Upgrade Variable Frequency Drives	Upgrade the variable frequency drives (VFD) from the original version to a modern standard of ethernet for control and monitoring of the Village of Borden distribution standby pumps.	Drinking Water	\$13,541.50	\$13,541.50	31-Dec-23
36	2122-006188	Bradwell, Village of	Prepare and Pave 550 m of 1st Avenue	Prepare and resurface 550 m of asphalt on 1st Avenue, including shoulder excavation, replacing with suitable base material and then asphalt, resulting in a new traveling surface 2 m wider to accommodate local and through traffic.	Local Roads and Bridges	\$196,322.56	\$730.40	2-Jan-23
37	2021-005296	Caronport, Village of	Construct Three Asphalt Pathways	Construction of three walking paths to provide connectivity within the community. Comprises an area of approximately 797.16 sq m, paved with 50 mm asphalt surface which includes applying a tack oil coat and an asphalt mat.	Local Roads and Bridges	\$38,919.23	\$7,023.83	31-Aug-23
38	2122-006387	Caronport, Village of	Install 137 m of Sewer Line from College Drive to Industrial Street	Install 137 m of 152 mm SDR PVC sewer main line, a new manhole with frame covers, and include tie into the existing manhole.	Wastewater	\$0.00	\$0.00	31-Dec-23
39	2223-006569	Caronport, Village of	Replace 240 Water Meters	Replace 240 water meters, 1.6 cm by 1.9 cm, including transmitters. The project will help detect leaks and breakages and ensure accurate water usage records.	Drinking Water	\$76,258.90	\$0.00	31-Dec-24
40	1516-003353	Holdfast, Village of	Standalone Study - Predesign and Engineering of Water Plant	Complete predesign and engineering for installation of a water filtration system at water treatment plant as required by Water Security Agency..	Drinking Water	\$24,200.00	\$0.00	31-May-24
41	2223-006557	Holdfast, Village of	Replace Water Main and Curb Stop	Replace water main and one curb stop on Gardiner Street.	Drinking Water	\$6,598.50	\$6,598.50	15-Nov-22
42	2223-006582	Holdfast, Village of	Upgrade to Energy Efficient Heating in Water Treatment Plant	Upgrade the heating in the water treatment plant to an energy efficient unit heater. The project will reduce the overall energy consumption by approximately 40 per cent monthly and will reduce green house gas emissions.	Community Energy Systems	\$3,124.11	\$3,124.11	20-Mar-23

No.	Project ID#	Ultimate Recipient	Project Title	Project Description	Investment Category	Total Project Cost	Funds (CCBF) Spent in 2023	Estimated Project End Date
43	2324-006721	Holdfast, Village of	Upgrade Zamboni Room Insulation	The Zamboni room's insulation upgrade will decrease energy consumption and prevent water pipes from freezing. The length of the room is 6.096 m and width is 9.144 m. The room was insulated with some blown-in insulation when the building was constructed. This insulation has deteriorated over the years due to wear and tear and is no longer providing the required insulation value. To ensure conservation of energy and prevent frozen water pipes, the room will be insulated with R20 insulation and sealed with a vapour barrier.	Community Energy Systems	\$4,878.22	\$4,878.22	21-Nov-23
44	2324-006731	Holdfast, Village of	Upgrade Public Washrooms in the Rink	Upgrade the sinks, toilets, faucets, and partitions to conserve water usage and prolong the lifespan of the facility. Two washrooms on the main and upper level were upgraded. Both washrooms on the main floor measure 3.66 m x 4.27 m. In the ladies' washroom, four toilets, one sink, and the partitions are being replaced. In the men's washroom, two toilets, two urinals, one sink, and the partitions are being replaced. The two washrooms on the upper level measure 1.22 m x 1.83 m. In both washrooms, there is only one toilet and one sink that will be changed.	Recreational Infrastructure	\$14,873.74	\$14,873.74	27-Nov-23
45	2324-006732	Holdfast, Village of	Upgrade Radiant Heater at Community Rink	A new, energy-efficient, 15,000 BTU heater is being installed to replace the old one at the community rink. The replacement became necessary because the old heater cannot be serviced or repaired anymore due to the non-availability of parts. The replacement will save energy for the rink, provide heat in the lobby area of the rink, and prevent water pipes from freezing and damage.	Community Energy Systems	\$4,965.68	\$4,965.68	27-Nov-23
46	2324-006733	Holdfast, Village of	Upgrade Heater at the Town Shop	A new, energy-efficient, 100,000 BTU heater is being installed to replace the old one. The shop is used to store the village's newest fire truck. The replacement will save energy for the village, ensure the fire truck works efficiently in cold months, and reduce the overall energy consumption by 40 to 50 per cent while reducing emissions.	Community Energy Systems	\$4,491.95	\$0.00	2-Sep-24
47	2324-006734	Holdfast, Village of	Upgrade Firehall Heating Unit	The project will upgrade the heating unit in the main firehall to reduce overall energy consumption by 40 to 50 per cent and reduce emissions of greenhouse gases. The newly installed heating unit is 45,000 BTU.	Community Energy Systems	\$3,308.05	\$0.00	2-Sep-24

No.	Project ID#	Ultimate Recipient	Project Title	Project Description	Investment Category	Total Project Cost	Funds (CCBF) Spent in 2023	Estimated Project End Date
48	2324-006747	Holdfast, Village of	Upgrade Dressing Room Washrooms	The project upgraded dressing room washrooms in the rink by replacing the sinks, toilets, faucets, and partitions to preserve water usage, meet building and health standards, and extend the useful life of the building. The village upgraded two washrooms in the	Recreational Infrastructure	\$1,688.99	\$1,688.99	28-Nov-23
49	2021-005299	Landis, Village of	Resurface 495 m of Main Street in Village	Old material will be removed and reused as base. Road will be leveled, and new gravel will be placed. Asphalt is subject to funding.	Local Roads and Bridges	\$0.00	\$0.00	30-Dec-23
50	2021-005300	Landis, Village of	Re-Bed 1,067 mm Greensand Filters and Media	Upgrade to new water treatment plant equipment and install new water pump. This will be an upgrade to current infrastructure maintaining the highest quality drinking water standards in the municipality.	Drinking Water	\$2,105.51	\$2,105.51	31-Dec-23
51	1011-001795	Stewart Valley, Special Service Area of	New well and well house renovations	Dig a new well and trench it to the well house to increase the water capacity. Upgrade the well house as required as well as with new pump and filtration system to increase the quality of the water to accommodate an increase in residents.	Drinking Water	\$0.00	-\$70,235.41	1-Sep-14
