

## Industry Tip

### Cloning of Draft Licence Applications

Date	Module/Application/Functionality	Notes
October 2, 2019	Well and Facility Infrastructure	

#### Background

Energy and Resources has enhanced the Well Licence Application process to add functionality for Industry to “Clone” a Well License Application in “Draft” status.

The licence application can be cloned at any point during the application process by clicking the “Clone” link as shown below. In addition, functionality now includes the ability for users to clone applicable applications from the search screen (see below). When cloned, PAD well and disclosure questions and attachments will not be transferred to the cloned licence application.

Clone within the application process:

Clone from the search screen:

Application #	Industry Ref.#	Type	Submitted Date	Status	Created By User	Created By BA ID	Actions
135712	14-01-048-...	Application for Well Licence	2019-09-05	Withdrawn By User	Not Found	00086 - HUSKY OIL OPERATIONS LIMITED, i*	Open   Clone
135681	14-01-048-...	Application for Well Licence	2019-09-05	Withdrawn By User	Not Found	00086 - HUSKY OIL OPERATIONS LIMITED, i*	Open   Clone
135456	CPEC HZ 08...	Application for Well Licence	2019-08-30	Withdrawn By User	Not Found	11609 - CRESCENT POINT ENERGY CORP., i*	Open   Clone
