

# Industry Tip

## Add User ID to Fulfilled Obligations

Date	Module/Application/Functionality	Notes
Oct 02, 2019	User ID on Uploaded Documents	

### Background

Industry requested an IRIS enhancement request to display the identification of their IRIS users fulfilling obligations requiring document submission. The purpose for the request is to have a means of tracking which users within their organization that are uploading documents incorrectly to fulfill obligations.

### Enhancement

An enhancement has been implemented on the Fulfillment tab of Obligations requiring document submittal. The User that fulfilled the Obligation will be identified, on the tab, by their IRIS User Name. This identification will only be visible to the Ministry and the licensee BA Users or their assigned delegates. The licensee IRIS SA will need to be contacted if an Industry User requires further information.

### Example below

The screenshot shows the 'Ministry of Energy and Resources Integrated Resource Information System' interface. The main content area displays 'Fulfilled Obligation # 123456'. Below this, there are fields for 'Obligation was submitted for Well Completion', 'Licence', and 'Identified for Billing Run'. A 'Fulfillment' tab is active, showing 'Fulfillment Information' with fields for 'Fulfillment Date', 'Submitted Date', 'Action Taken Description', and 'Fulfilled By User'. The 'Fulfilled By User' field contains the email address 'moroscdm@0000'. Below this is a 'Fulfillment Attachments' table with columns for 'Detail', 'File Name', 'File Type', 'Is Confidential', 'Comment', 'Date', and 'Actions'. One attachment is listed: 'IRIS test submit-1.pdf' with file type 'Cement Bond Log Interpretation' and date '2019-09-23 15:00:16'. A 'Related Info' sidebar on the right contains links for 'Licence', 'Well Details', and 'Obligations List'.
