

ASCP BY APPLICATION INDIGENOUS CREDIT POOL APPLICATION TEMPLATE

Date of Application:			
Name of Licensee		Amount of Previous Credit Pool Allocated	
Application Representative:		Contact info:	

Purpose: Continuing the by-application portion of the Credit Pool will provide additional opportunities to licensees to work with eligible Indigenous service companies under the ASCP. The program encourages licensees to engage eligible Indigenous service companies that they have not previously worked with.

Available Funding: The Credit Pool will make \$1,500,000 available to licensees by application, translating into a \$3,000,000 spend on eligible Indigenous service companies.

Minimum and Maximum Amounts: Applications received from licensees to the Credit Pool must be for a minimum of \$100,000 up to a maximum of \$500,000. These minimums and maximums are in reference to credits issued, not money spent (i.e. to generate \$100,000 of credit, the licensees must spend \$200,000 on eligible Indigenous service companies).

Eligibility of Licensees: The by-application portion of the Credit Pool will be open to all eligible ASCP licensees.

Application: Please provide specific information on the table below on which eligible Indigenous service companies (<https://exportdata.ca/ascp>) you intend to engage, the estimated cost of work associated with each eligible Indigenous service company, the specific sites and work packages that the application is tied to, and the timelines for completion of the specified work.
