

2023 Saskatchewan resident Big Game Draw supplement

The 2023 Big Game Draw Supplement provides Saskatchewan resident hunters with information on the seasons and quotas for draw species, as well as advance notice of changes to this fall's Big Game Draw seasons.

Most qualified applicants for the 2022 Legacy pool were successfully drawn and the number of hunters moving from the Super A pool to Legacy pool remains low. The chances of eligible applicants being drawn in the Legacy pool are very good.

Please be aware of your pool status when completing your draw application and plan appropriately.

You are not required to apply to progress through the D, C and B pools – you will automatically advance. Once in A pool, you must apply to advance to Super A pool and apply each year after to retain it. If you miss applying, you will go back to A pool and remain there until you apply again.

If you do not wish to hunt but want to keep your pool status, apply for zone 99.

The 2023 Big Game Draw application period opens May 1 and closes on the last Thursday of May (May 25) at 4 p.m. Carefully review your application and submit it prior to the deadline. Changes to the application cannot be made after the deadline.

Additional information regarding the application process, priority pools, wildlife management zone (WMZ) quotas and detailed application instructions can be found on the Government of Saskatchewan's online Hunting, Angling and Trapping Licence (HAL) system - saskatchewanhal.ca.

If you need assistance submitting your application, please call 1-888-773-8450.

Good luck to all applicants!

Attention hunters

The big game draw application period has changed. The 2023 draw will open on May 1 and **close on the last Thursday of May (May 25) at 4 p.m.** Apply early so you have enough time to complete your application. Draw results will be available in June. Check your HAL account for updates.

Licence information

All awarded Big Game Draw licences will be available to purchase through your HAL account beginning Aug. 1, 2023.

Licences will not be mailed to successful applicants.

If you are selected for a draw licence, you will not be allowed to purchase a regular licence for the same species.

General information about hunting and key hunting regulations can be found online the Saskatchewan Hunters and Trappers Guide.

What's new for 2023

Big Game Draw Application Period

The Big Game Draw application period has changed. The 2023 Big Game Draw will open on May 1 and close the last Thursday of May (May 25) at 4 p.m. We are making this change to minimize technical issues and ensure help is available throughout the application process.

Pronghorn Opportunities

Pronghorn populations have shown strong growth across their range over the last 10 years. Wildlife managers are proposing an additional 275 either-sex licences to take advantage of additional hunting opportunities while pronghorn populations continue to grow. Ground surveys conducted in July will help confirm population status and whether quotas will be adjusted this year.

Pronghorn draw applications must be submitted during the Big Game Draw application period in May. However, the pronghorn draw will not be conducted until July, following the

ground survey. Check the listed WMZ combinations to ensure you are applying for your preferred hunting areas. Results will be posted on the HAL website and an email notice will be sent out once the draw is completed.

Moose Opportunities

In non-forest WMZs (1-54), quotas have been adjusted to maintain moose populations near the current level and ensure a sustainable harvest. These quotas will remain unchanged for several years to make a detailed assessment of reduced harvest pressure on cow and calf moose. Antlerless moose seasons will be maintained in all three urban WMZs (Regina, Saskatoon, Prince Albert). The loss of moose habitat remains a concern in many areas of the province.

Hunting opportunities will remain bulls only in the forest, as populations remain low in most northern areas.

Mule Deer Opportunities

Changes to either-sex and antlerless mule deer quotas have been made in some WMZs to reflect the current population status. Quota-limited antlerless mule deer licence opportunities will continue to be available in WMZs 3, 7E, 7W, 8, 11, 12 and 14W. Regular either-sex archery opportunities are unchanged.

Elk Opportunities

Elk populations continue to support strong hunting opportunities across much of the province. For the 2023 hunting season, antlerless quotas and seasons are available to stabilize populations, with minor adjustments in five WMZs. New opportunities also include the implementation of a bull-only regular and draw antlerless season in 68N. Hunters are encouraged to take advantage of antlerless opportunities across the province. Regular and draw elk season dates will remain unchanged from last year.

2023 Saskatchewan resident Big Game Draw checklist

Use this checklist to avoid common mistakes and ensure your application is submitted successfully. Improperly submitted applications may be rejected from the draw or have an undesirable result. Avoid disappointment and take time to read the information carefully.

Detailed instructions are available at saskatchewanhal.ca to ensure a trouble-free application process.

Apply early and review your applications for accuracy prior to the deadline. You can review and edit your applications in your HAL account at any time, as well as check your draw status.

Make sure you are eligible to apply

- At the time of application, all listed hunters must meet residency and age requirements, comply with firearm safety/hunter education regulations and not be suspended from hunting in Saskatchewan. **It is unlawful to apply for a licence without firearm safety/hunter education training.** If anyone on your application is found to be ineligible, the application will be rejected from the draw.
- Each person may submit only one application for each species type. If a person submits more than one application for the same species type, each application will be rejected from the draw. The exception is mule deer, as either-sex mule deer and antlerless mule deer are considered separate species types for the Big Game Draw and hunters may submit one application for each species type. Youth hunters may submit a youth draw application and an antlerless mule deer application.
- Any applications containing false information will be rejected from the draw. Providing false information is an offence under *The Wildlife Regulations*.

Obtain group member information

- If applying as a group, the HAL number and date of birth for each group member must be included in the application.
- Group members with valid email addresses on their HAL accounts will receive notification emails.

Confirm your pool status

- Make sure you know the pool status of each group member on your application. Your application will be placed into the priority pool of the group member with the lowest pool status.
- You can view your pool status through your HAL account by visiting the My Account section. If there are any issues with your pool status, contact the ministry's Inquiry Centre at 1-800-567-4224 or centre.inquiry@gov.sk.ca.

Complete your application

- Review the application guide at saskatchewanhal.ca for detailed instructions on how to submit.
- You may submit your applications anytime between May 1 and the last Thursday of May (May 25) at 4 p.m. Apply early to resolve any problems you may encounter.**
- Select your hunt choices carefully. You may select up to six choices in order of preference. The system will consider your choices in the order listed on the application.
- All applications are reviewed for eligibility and pool status before the Big Game Draw. If there are any issues with your application, contact the ministry's Inquiry Centre at 1-800-567-4224 or centre.inquiry@gov.sk.ca.

Review your application(s) before the deadline

- It's a good idea to review your application prior to the deadline to confirm that all information is correct.
- Big Game Draw applications can be changed at any time before the application period closes. Only the individual who submitted the application can change zone choices and/or group members. These changes can be made on the group leader's HAL account.
- Other members of the group can view, not edit, the application.
- Once the draw period closes, no further applications will be accepted and changes cannot be made to submitted applications.

Confirm your draw results

- Draw results will be available in June. Pronghorn draw results will be available in July.
- Once the draw is completed, your application results will be available through your HAL account.
- You are responsible for checking your draw results.
- Notification emails will be sent with your draw results, but successful email delivery cannot be guaranteed. Do not assume you are not drawn if you do not receive an email notification.

Purchasing your licence

- If drawn, you may purchase your licence through your HAL account beginning Aug. 1.
- Successful applicants will move to the D pool the following year, regardless of whether you purchase the draw licence you are awarded. Applicants are not eligible to purchase a regular licence for the same species.

Declining a Big Game Draw licence

- Hunters who were successfully drawn for:
 - ~ three Big Game Draw licences may decline one draw licence of their choice;
 - ~ four Big Game Draw licences may decline one or two draw licences of their choice; or
 - ~ five Big Game Draw licences may decline up to three draw licences of their choice.
- Eligible applicants who decline a licence will have their pool status reinstated for that species. Declined licences will not be reallocated.
- You must send an email to the Ministry of Environment at centre.inquiry@gov.sk.ca by July 31 to provide written notice of your intention to decline your draw licence.
- For more information on declining a Big Game Draw licence, contact the ministry's Inquiry Centre at 1-800-567-4224 or centre.inquiry@gov.sk.ca.

Update your HAL account!

Please keep your personal information (name, mailing address) up-to-date and provide us with your email address. The ministry uses email to communicate important information with hunting clients, including Big Game Draw results, hunter harvest surveys and upcoming licence sales dates.

NOTE

Your hunting licence and seals must be carried with you at all times while hunting.

Draw seasons

Hunting is allowed in wildlife management units (WMU) and national wildlife areas within a wildlife management zone (WMZ) open for big game. The exception is Fort à La Corne WMU and the St. Denis National Wildlife Research Area. Only the provincial parks and recreation sites listed below are open to hunting. Proposed new season dates, open wildlife management zones or open zone combinations are indicated in **bold and red**.

Hunters holding both a draw either-sex and a draw antlerless mule deer licence may hunt antlerless mule deer during the either-sex season dates, but only in the zone in which their antlerless licence is valid. In provincial parks listed as having a September antlerless mule deer season, hunting for antlerless mule deer is delayed until Sept. 10.

Hunting, angling and trapping licence (HAL) system audits

The ministry periodically audits its licence programming to ensure regulations are being followed. It is your responsibility to understand all eligibility requirements prior to applying for or purchasing licences. Any suspected fraudulent account activity will be investigated and charges laid, as appropriate.

Hunter harvest surveys are mandatory

Hunter harvest surveys are important for managing game in Saskatchewan. They provide valuable information for quota and season setting for the upcoming year. Visit saskatchewanhal.ca for more information, including completion deadlines.
