Note: Components may not add to total due to rounding.

Introduction

After a two-year positive growth in 2017 and 2018, the Saskatchewan real economic activity in 2019 experienced a contraction. The Saskatchewan GDP by industry at basic prices for 2019 declined by 0.9 per cent from 2018 to 2019.

Overall, half of the 20 industrial sectors were down and the largest declines were seen in the manufacturing sector at 5.7 per cent, followed by the construction sector at 4.4 per cent and the mining, quarrying, and oil and gas extraction sector at 3.4 per cent. Significant growth in some of the service industries provided a partial offset.

Despite significant economic challenges, new capital investment in the mining, quarrying, and oil and gas extraction sector grew by 13.3 per cent compared to the previous year, allowing for Saskatchewan to have the highest growth rate in this sector, in 2019, among all provinces. Saskatchewan was ranked in the top 10 in the world by the Fraser Institute for mining investment attractiveness in six of the past seven years.

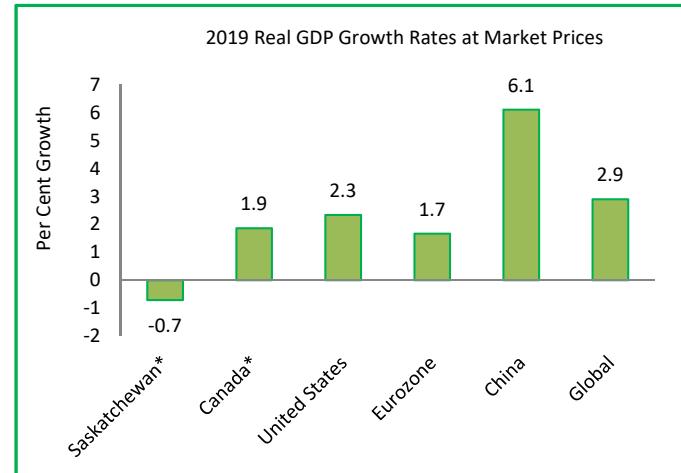

Canadian Economic Growth

The Canadian real GDP growth has been on the decline for two consecutive years. Canada's real GDP growth at basic prices declined by 0.8 percentage points from the 2018 rate of 2.6 per cent to 1.8 per cent in 2019.

Global Economic Growth

According to the International Monetary Fund (IMF), the global economy grew by 2.9 per cent in 2019 after growing by 3.6 per cent in 2018. This is the slowest growth of the decade.

The United States, Saskatchewan's largest trading partner, saw its economy decelerate after two consecutive years of growth. The 2019 growth rate was 2.3 per cent, which is a decrease of 0.6 percentage points from the 2018 rate of 2.9 per cent.

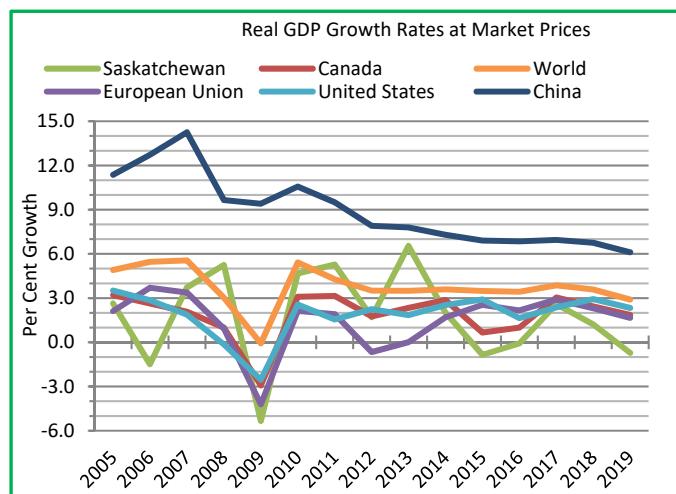

Sources: IMF, April 2020 World Economic Outlook (WEO)

* Statistics Canada, Tables: 36-10-0222-01

In 2019, the economic downtrending was recorded in almost all major economies including China and the European Union, two major markets for Saskatchewan. Both economies have been on the decline for two consecutive years. The European Union's real GDP growth rate was 1.7 per cent in 2019, down by 0.7 percentage points from the 2018 rate of 2.3 per cent.

China's economy grew by 6.1 per cent in 2019. China's growth rate is comparatively high, but lower than its 10-year average of 7.7 per cent due to many factors including a slowing global economy and the trade war with the United States.

* Statistics Canada, Tables: 36-10-0222-01

Oil & Natural Gas

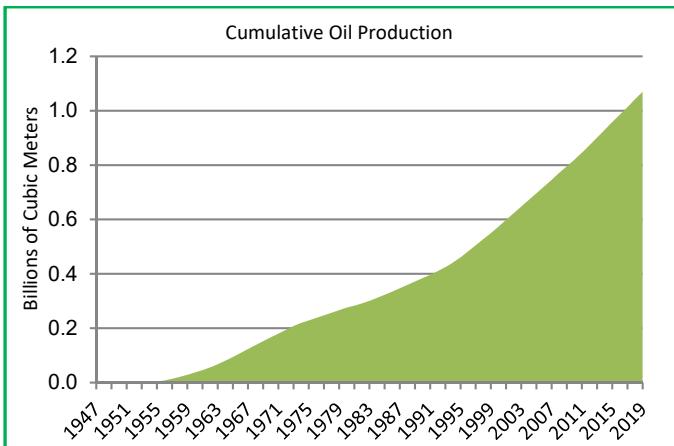

In 2019, the total value of Saskatchewan's oil and natural gas sales was \$10.5 billion, an increase of 7.7 per cent compared to 2018. During this same period, Saskatchewan remained the third-largest natural gas producing province in Canada with an annual production of 5.1 billion cubic meters, a decrease of 100 million cubic meters from 2018.

2019 annual oil production was 28.3 million cubic meters (177.7 million barrels), a decrease of 100 thousand cubic meters (600 thousand barrels) from the previous year.

Source: Saskatchewan Ministry of Energy and Resources

On a cumulative basis, Saskatchewan's lifetime oil production reached 1.07 billion cubic meters in 2019.

Source: Saskatchewan Ministry of Energy and Resources

A total of 1,880 new oil and gas wells were drilled in 2019, down 673 wells from the 2,553 wells drilled in 2018. Horizontal wells became the predominant way of drilling oil wells in Saskatchewan and started outnumbering vertical wells for the first time in 2009.

In 2019, 89.9 per cent of drilled wells were horizontal and the average meters drilled per well was 2,280, compared to 2,127 meters in 2018. The increase in average distance drilled was due to the combination of drilling into deeper pools, the increased use of horizontal drilling, and improvements in horizontal oil well drilling and completion techniques.

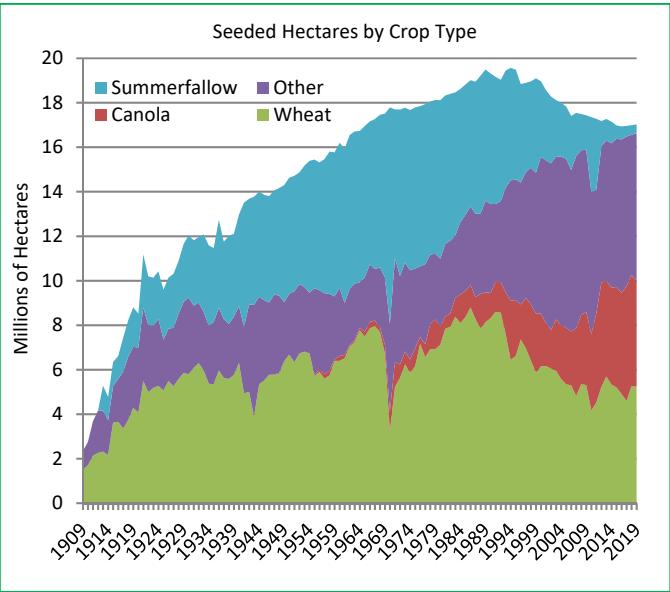

Potash

In 2019, the average price of a tonne of potash (K20) was \$500.6/tonne, up from \$434.7/tonne in 2018. Potash production fell by 4.4 per cent from 13.1 million tonnes in 2018 to 12.6 million tonnes in 2019. Potash was Saskatchewan's second-largest mineral export with \$6.3 billion in sales in 2019, up \$0.6 billion from \$5.7 billion in 2018.

The United States, Brazil, China, and India accounted for 83.1 per cent of Saskatchewan's potash exports.

Agriculture

According to Statistics Canada, Saskatchewan's total crop production rose by 6.5 per cent to 38.7 million tonnes in 2019. In the same period, rye, oats, dry peas, barley, lentils, and wheat increased their production by 116.9 per cent, 31.2 per cent, 29.9 per cent, 29.4 per cent, 10.9 per cent and 3.3 per cent, respectively. In 2019, there were significant increases in the seeded areas of oats by 27.8 per cent, dry peas by 20.6 per cent, and barley by 17.0 per cent while summerfallow acres dropped below the one million mark for the first time.

Source: Statistics Canada, Table 32-10-0359-01

Despite the weather challenges in 2019 and the decrease in seeded area for canola by 4.7 per cent and wheat by 0.5 per cent, the overall yields stayed strong. In 2019, wheat yields across the province averaged 3,032 kg/hectare, up by 5.5 per cent from 2018 at 2874 kg/hectare. Canola yields averaged 2,339 kg/hectare in 2019, up by 2.5 per cent from 2,282 kg/hectare in 2018.

Saskatchewan experienced significant fluctuations in exports, especially of canola seed due to trade tensions with China. According to Statistics Canada, Saskatchewan's grain and oil seed exports to China fell by 58.0 per cent to \$1.1 billion in 2019. The province also experienced a decline in exports to the United States of 21.2 per cent and Mexico of 23.2 per cent. Some of the 2019 decline in these exports were offset by increases in exports to Bangladesh at 175.0 per cent, Italy at 173.9 per cent, and Belgium at 106.0 per cent.

Total cash income was \$14.1 billion and operating costs reached a record high of \$10.4 billion, resulting in a net income of \$3.7 billion. After factoring in non-cash transactions in 2019, total net farm income was \$2.2 billion, \$0.1 billion less than in 2018.

Employment & Income

Saskatchewan's economy added 10,400 new jobs in 2019, primarily in service industries. Saskatchewan's unemployment rate dropped significantly from 6.1 per cent in 2018 to 5.4 per cent in 2019 and was below the national rate of 5.7 per cent. The labour force increased by 6,400 to 613,700 people in the same period.

Average weekly earnings in Saskatchewan went up 2.7 per cent in 2019 to \$1,041 per week, slightly above Canada's average weekly earnings of \$1,029.

The mining, oil, and gas sector continued to offer the highest average wages in the province at \$2,071 per week.

Investment

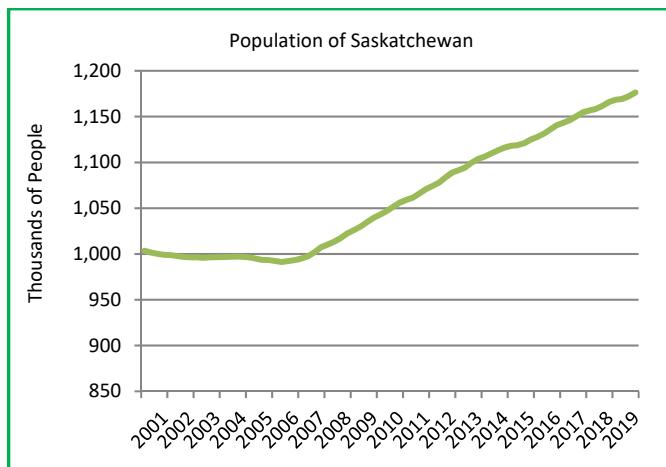

New capital investment in 2019 was \$15.0 billion, down \$0.5 billion from 2018. Most of the decline was in the transportation and warehousing sector which declined by \$0.8 billion. The mining, quarrying, and oil and gas extraction sector still represented the highest share at 41.1 per cent of capital spending in Saskatchewan in 2019 and grew by 13.3 per cent in 2019 (+\$0.7 billion to \$6.2 billion) after a 16.5 per cent decrease in 2018 (-\$1.1 billion to \$5.4 billion).

Between 2018 and 2019, housing starts fell by 32.8 per cent. During the same period, the value of building permits was down 13.4 per cent while investment in non-residential building construction rose by 2.4 per cent. The investment in the industrial and commercial components had the strongest growth, up 27.0 per cent and 10.7 per cent, respectively.

Population

During 2019, the Saskatchewan population increased by 10,693 persons to a record high of 1.18 million as of January 1st, 2020. In the same period, there were 14,435 births and 9,848 deaths in the province, resulting in a natural increase of 4,587 persons, down by 16.9 per cent from 5,517 in 2018.

Additionally, in 2019, there were 6,106 more people that moved to Saskatchewan than left. Combined, the natural increase and net migration resulted in a total population increase of 10,693 persons over the year.

Source: Statistics Canada, Table 17-10-0009-01

Retail Trade

Saskatchewan retailers finished 2019 with \$19.5 billion in sales, up 0.3 per cent from 2018. On a per capita basis, retail trade declined between 2018 and 2019 by \$108 per person to \$16,659.

Motor vehicle and parts dealers sales were \$5.1 billion in 2019, down 2.1 per cent from the previous year, but remained the largest contributor to Saskatchewan's retail sales growth in 2019 at 26.0 per cent.

Vehicles

According to Saskatchewan Government Insurance (SGI), there were 1,152,899 vehicles registered in Saskatchewan in 2019, down 997 from 2018, the second consecutive yearly decline. The decline was largely driven by the cars category at 3.4 per cent. Light and heavy trucks, meanwhile, increased by 1.1 per cent and 0.9 per cent, respectively.

In 2019, registrations for gasoline-powered and diesel-powered vehicles both declined by 0.1 per cent and 0.4 per cent, respectively. Conversely, electric vehicle registrations doubled from 80 in 2018 to 162 in 2019.

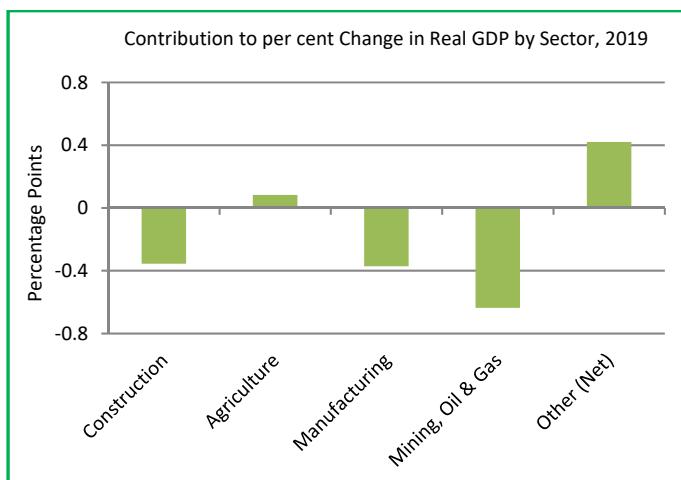

Utilities

Consumption of Saskatchewan's electrical energy decreased from 25,715 GWh in 2018 to 25,339 GWh in 2019. The main cause of the decline is due to the exports of electricity at 18.5 per cent.

Wind power generation came to 785 GWh in 2019, which is a 20.5 per cent increase or 134 GWh more than in 2018 and the highest production ever recorded. However, gas, coal, and hydro power generation accounted for 95.1 per cent of the total electricity production in Saskatchewan, while wind and other sources of generation accounted for 3.1 per cent and 1.8 per cent, respectively.

Conclusion

In 2019, the Saskatchewan economy was affected by a decline in goods-producing industries by 3.0 per cent, investment in housing by 11.7 per cent, business investment in intellectual property products by 6.7 per cent, and export of goods and services by 2.4 per cent, resulting in a decrease of the real GDP by 0.7 per cent following a 1.2 per cent rise in 2018. The declines were partly offset by increases in service-producing industries and the agriculture sector.

Source: Statistics Canada, Table 36-10-0402-01

Although global economies were marked by a generalized downturn in 2019, Saskatchewan's economy exhibited a degree of diversity sufficient to support an increase in wages, employment, the labour force, and population. Average weekly earnings in Saskatchewan went up 2.7 per cent in 2019 to \$1,041 per week and in the same period the province added 10,400 new jobs.

Moreover, Saskatchewan's unemployment rate dropped significantly from 6.1 per cent in 2018 to 5.4 per cent in 2019 and was below the national rate of 5.7 per cent. The labour force increased by 6,400 to 613,700 people in this same period.

Saskatchewan's population has steadily increased since 2007 and reached a record high of 1.18 million in 2019.

Note to readers:

- Due to rounding, some totals may not correspond with the sum of the separate figures.
- Table 7, 8, 9 and 10 do not include the 2021 revisions of the Labour Force Survey (LFS).
